Population, Reproductive Health, and Development and Women's Reproductive Health in Ghana, 1920-1982 Holly Ashford,2022-12-09 This book investigates the history of women s reproductive health in Ghana arguing that between the 1920s and 1980s it was largely driven by discourses of development and population control rather than a concern for women s health or rights Between the 1920s and 1980s the choices that Ghanaian women made regarding their reproductive health were defined by development policy and practice Spanning the colonial and immediate postcolonial periods this book demonstrates that whilst the substance of development discourse shifted over time principles of development continued to be used to impact and legitimise reproductive health policy and practices well after independence The book explores Ghana s pluralist health system the introduction of maternal and child welfare the dominance of the Red Cross in Ghana s maternal and child health landscape nationalist pronatalism and global population activism In order to understand how global iterations of development and health policy impacted ordinary lives in Ghana the author uses evidence from multiple levels including private papers national archives and records of international and transnational organisations Providing balanced archival perspectives the book includes extensive oral history interviews carried out with both rural Ghanaian women and traditional birth attendants as well as with midwives doctors and family planning fieldworkers This book will have an important impact on a number of historical fields including Ghanaian history global health history global histories of population and family planning and histories of development It will be of interest to researchers and students in the history of public health development Africa Ghana and gender

Global Population and Reproductive Health Deborah R. McFarlane,2014-07-18 The world population surpassed the seven billion mark in 2011 yet many women and couples still lack access to reproductive health services These facts have profound implications for maternal and child health environmental quality and food security *Global Population and Reproductive Health* provides an introduction to an important and timely public health topic The text is unique in that it explores the inextricable link between population and reproductive health a connection that is often overlooked as well as their impact on global and local environmental issues Students will come away with a clear understanding of the relationships among all these issues and the vital need for integrated policies and international cooperation Contents Include 1 Overview 2 Measures and Theories 3 Health 4 Related Issues 5 Policies

Women's Empowerment, Population Dynamics, and Development Dennis Hodgson,2025-03-24 This book assumes that women s empowerment is a social movement aimed at producing political economic and social change It traces the changing relationship among three unprecedented trends experienced in the developing world since 1950 declining levels of mortality

and fertility socioeconomic development and women's empowerment. It offers two policy analyses of the contemporary relationship of these three trends. One for the 30 countries that in 2021 still have TFRs above 4 and another for the 34 countries that currently have below replacement level fertility. This analysis highlights a new 21st century fact: over-ardent neo-Malthusian population controllers are no longer the greatest threat to women's reproductive rights. That place has been assumed by over-ardent pronatalist population controllers in low fertility countries.

Population and Development

W.T.S. Gould, 2015-05-08. The new edition of *Population and Development* offers an up-to-date perspective on one of the critical issues at the heart of the problems of development for all countries and especially those that seek to implement major economic and social change: the reflexive relationships between a country's population and its development. How does population size, distribution, age structure and skill base affect development patterns and prospects? How has global development been affected by regional population change? Retaining the structure of the well-received first edition, the book has been substantially revised and updated. The opening chapters of the book establish the theoretical and historical basis for examining the basic reflexive relationship with exploration of the Malthusian perspective and its critics to examine how population change affects development and exploration of the Demographic Transition Model and its critics to examine how, why and to what extent development drives population change. These are followed by empirically rich chapters on each of the main components of population change: mortality, fertility, internal and international migration, age structures and skill base, each elaborating key ideas with detailed and contrasting case studies from all regions of the developing world. There are concluding and more integrative discussions on population policies and global population futures. Bringing together *Population Studies*, *Development Studies* and *Geography*, the new edition of *Population and Development* is a key resource for undergraduate and postgraduate students across a range of programmes with specialist modules on population change. There is a large bibliography with major new sections identifying a wide range of online resources for further study. Each chapter contains a reading guide with discussion questions. The text is enlivened by a number of case studies from around the world, most of which are new or have been substantially revised. Written by a leading international scholar in population, the book successfully integrates cutting-edge academic research with the focus and efforts of international development agencies.

The Struggle for International Consensus on Population and Development J. Kantner, 2016-04-30. Tracing the population assistance movement from its tentative beginnings to today, this book employs history to examine the new paradigm created from the Cairo Conference: the road map for the population policy future. The authors take stock of the current state and progress of the paradigm and explore policies and strategies for the future.

Population Studies and Development from Theory to Fieldwork

Véronique Petit, 2017-10-30. This book addresses major population and development issues: fertility and reproductive health, migrations, gender, education, poverty and inequalities. To that aim, it revisits and considerably enlarges Kingsley Davis' 1963 theory of change and response using interdisciplinary methodologies.

On the basis of four decades of field research 1985-2015 it questions the rationality of the actors how culture shapes socio demographic behaviours in a context of modernity and globalisation More specifically it casts new light on the interactions of individuals families networks and local communities with the State and its population policy

Population and Development, 1994-01-01 This report was prepared for the International Conference on Population and Development held in Cairo Egypt in September 1994 The study explains why slowing population growth is still a high priority for the poorest countries how population policy can be integrated with social policies how population programs can provide the poor with appropriate services why country specific strategies are needed and what other demographic issues are becoming more significant Chapters are also included on population trends in developing countries demand and supply factors in fertility transitions integrated approaches to reproductive health and implications for the World Bank Excerpt

The Routledge Handbook of African Demography Clifford O. Odimegwu, Yemi Adewoyin, 2022-02-07 This handbook provides an authoritative and comprehensive overview of African population dynamics variations causes and consequences demonstrating the real world applications of research in policies and programmes African demography has come of age Over 50 years the discipline has grown exponentially in the number of training and research institutions specialist experts and academic output all with an aim of addressing the enormous demographic challenges faced by the continent The book draws on old and emerging analytical tools to explore the relationships between population dynamics and social economic cultural and political environments from African perspectives Key topics include fertility sexual behaviours healthcare ageing mortality migration displacement the causes and consequences of demographic changes and teaching and research developments in African demography The Routledge Handbook of African Demography will be an essential resource for students and researchers of African demography sociology development and cultural studies

Promoting Reproductive Health Shepard Forman, Romita Ghosh, 2000 The resulting case studies help also to answer broader questions regarding assistance for health and sustainable development from the perspective of both developing and donor countries

BOOK JACKET Reproductive Health Arlette Campbell White, Thomas William Merrick, Abdo Yazbeck, 2006-01-01 While women in developing countries continue to die in large numbers in child birth Population and Reproductive Health specialists and advocates around the world are struggling to keep the policy agenda focused on the rights and needs of poor women The 1994 Cairo Conference and Program of Action changed how we do business and opened many doors but the agenda is not complete and has stalled in a number of ways At the country level governments and donors are making difficult choices about how and where to allocate scarce human and financial resources Funding approaches have moved away from the implementation of narrowly directed health programs to a broader approach of health system development and reform At the same time countries are also centering their development agenda on the broad goal of poverty reduction This volume addresses a large knowledge and capacity gap in the Reproductive Health community and provides tools for key actors to

empower faster positive change It is a synopsis of the materials developed for WBI's learning program on Achieving the Millennium Development Goals Poverty Reduction Reproductive Health and Health Sector Reform The volume brings together knowledge about epidemiology demography economics and trends in global financial assistance The volume also introduces practical tools such as benefit incidence analysis costing and stakeholder analysis to strengthen the evidence base for policy and to address the political economy factors for reform

Sexual and Reproductive Health Paul Van Look, Kristian Heggenhougen, Stella R. Quah, 2011-02-17 This volume brings together two areas of health that are among the foci of current development efforts as articulated by the Millennium Development Goals MDGs namely sexual and reproductive health MDG 5 improve maternal health target 2 achieve by 2015 universal access to reproductive health and Gender MDG 3 promote gender equality and empower women Few if any published books have dealt in a comprehensive way with public health aspects of these two strongly interrelated areas of health Most published volumes devoted to sexual and reproductive health have a strong clinical focus whereas books on gender tend to concentrate primarily on the socio cultural and anthropological aspects of the subject Focuses on the relationship between sexual and reproductive behaviors and the resulting impact on populations and societies as a group Provides a science based approach to identifying appropriate response plans adaptations and mitigation steps for related behaviors Explores the financial and societal impact of behavioral choices Includes new preface specifically for this audience

Gender, Communications, and Reproductive Health in International Development Carolina Matos, 2023-06-15 To this day women globally are subjected to forms of control over their bodies and their ability to exercise their reproductive rights in particular is still constrained Amid a rise of challenges to the advancement of women's rights including the recent overturning of Roe v Wade in the United States sexual and reproductive health rights are at the forefront of conversations about the advancement of gender equality To determine how communications are used strategically to shape policy Carolina Matos explores fifty two feminist and health NGOs from across the world and how they are improving discourse on sexuality and reproductive health in the public sphere She investigates how these organizations

are making use of communications amid various contemporary challenges including the proliferation of misinformation about women's rights and health in the public sphere due to the actions of oppositional far right nationalist groups Through original in depth interviews within the NGOs and empirical research of the institutions online presences Matos unpacks the complexities of the relationship between women's health communications and development contributing to the fields of development health communications and gender studies and advancing the debate on the role of feminist NGOs in advocating for women's rights With a postcolonial critique of the role of NGOs in development Matos illuminates the strategic use of communications in the mediation and advocacy of gender equality and reproductive health **Development**

Naivety and Emergent Insecurities in a Monopolised World Mawere, Munyaradzi, 2018-09-17 It is common knowledge that development without security is like a runaway horse Yet development in Africa has been plagued by insecurities since the extractive periods of slave trade and colonialism In spite of political independence and the euphoria of sovereignty as states Africa has failed to address insecurity which continues to loom large and to threaten aspirations towards truly inclusive and sustainable development A consequence has been Africa's development naivety vis vis the monopolisation of development by the predatory elite actors of the global North and their local facilitators To salvage the continent from such predation and the insecurities engendered requires novel and innovative imagination and praxis This book draws from both the haunted landscapes and bitter memories of past exploitations and from the feeding of the insatiable North with African resources and humanity It brings together essays by a concerned generation of scholars driven by the urgent need for radical decolonisation of African development and its legacies of insecurities It is handy to students and practitioners in economics policy studies political science development studies global and African studies *Development Co-operation Report 2000 Efforts and Policies of the Members of the Development Assistance Committee* OECD, 2001-02-12 This 200 edition of the Development Co operation Report reviews recent progress towards goals trends in development finance and the efforts and policies of aid donors There is a special focus on two policy measures with a strong potential to reduce poverty
