a legacy that includes hundreds of houses in a variety of popular house styles from bungalows to ranch houses built using Wilburn's plan books during the first six decades of the twentieth century Wilburn opened her own firm in Atlanta in 1908 and practiced until her death in 1967 She published nine plan books that offered mail order house designs to contractors builders and prospective homeowners and allowed them the ease of choosing a preconceived design and construction plan Sarah J Boykin and Susan M Hunter provide a survey of the southern homes built from Wilburn's plan books examining Wilburn's architectural legacy and her achievements as a plan book architect The book provides beautiful photographs of houses built from her plans along with illustrations from the plan books themselves and other related documents from the time Readers can thus see how her designs were realized as individual houses and also how they influenced the development of some of the Atlanta area's beloved historical neighborhoods most notably Druid Hills Morningside Virginia Highland and Candler Park as well as the McDonough Adams Kings Highway MAK Historic District in Decatur Today Wilburn's houses are enjoyed as appealing historic homes and represent some of the richest examples of southern vernacular architecture to emerge from the plan book tradition House & Garden ,1919 *Garden & Home Builder* William Tyler Miller,1927

The White Pine Series of Architectural Monographs ,1925 **Monograph of the White Pine Series** ,1925 **Private Landscapes** Pamela Burton,Marie Botnick,2002 When we think of the gardens of Southern California we tend to think of the enormous semiarid landscapes of the Huntington and Rancho Los Alamitos often built on the sprawling grounds of former ranches But there is another garden tradition in Southern California the modest rectangular suburban plots designed by the most famous architects of mid century modernism Richard Neutra Rudolph Schindler Gregory Ain Raphael Soriano Harwell Hamilton Harris A Quincy Jones and John Lautner These architects saw the garden as an outdoor extension of the space of the houses they designed rather than a neo Spanish fantasy to be added later by a landscapist Their modern gardens made use of low maintenance drought resistant plants and made room for informal outdoor living by children and adults with an emphasis on recreation and exercise The first book of its kind *Private Landscapes* profiles twenty significant gardens and their accompanying houses by these celebrated architects Using contemporary photographs by Julius Shulman and newly commissioned color images along with plans and plant lists *Private Landscapes* provides a never before seen look at these gardens As beautiful and practical now as they were 50 years ago these designs continue to provide inspiration for gardeners and designers everywhere **The Monograph Series, Records of Early American Architecture** ,1924 An Architectural Monograph on Port Towns of Penobscot Bay Charles Dana Loomis,1922
