contemporary issues and the contribution poetry can make to our religious knowing and the way we do theology This book is not solely concerned with overtly religious poetry but attends to the paradoxical ways in which the poetry of doubt and despair also enriches theology Developing an original analysis and application of the poetic vision of Coleridge Larkin and Seamus Heaney in the final chapters Guite builds towards a substantial theology of imagination and provides unique insights into truth that complement and enrich more strictly rational ways of knowing Readers of this book will return to their reading of poetry equipped with new insights and enthusiasm and will be challenged to integrate imaginative ways of knowing into their other academic and intellectual pursuits Crisis and Creativity in the New Literatures in English ,2021-11-15

Marsh,2009-08-14 What is the solution to human angst and nothingness the gnawing emptiness and frustration with the limits and fragility of this present existence After reviewing the work of Søren Kierkegaard Friedrich Nietzsche Martin Heidegger and Jean Paul Sartre on this question this work argues that the proper response must be metaphysical metanarrative a transcendent metaphysical metanarrative that is the ground of all that is yet a metaphysical metanarrative that makes the fullness of meaning available and apprehensible in physical experience This metanarrative this work asserts is the logos the ultimate referent principle of the ancient Greeks and according to Christianity the God-man Jesus Christ the eternal become present in present experience Because the logos constitutes transcendence in human form it recognizes the beauty of existential experience even as it underscores the necessity of transcendence for temporal meaning The logos as metaphysical metanarrative brings the worlds of time and eternity together linking earth and the beyond in a seamless whole It is the ultimate existential experience Coleridge's Ancient Mariner J. C. C. Mays,2016-10-27 This is the first book-length study to read the *Ancient Mariner* as poetry in Coleridge's own particular sense of the word Coleridge's complicated relationship with the Mariner as an experimental poem lies in its origin as a joint project with Wordsworth J C C Mays traces the changes in the several versions published in Coleridge's lifetime and shows how Wordsworth's troubled reaction to the poem influenced its subsequent interpretation This is also the first book to situate the Mariner in the context

of the entirety of Coleridge's prose and verse now available in the Bollingen Collected edition and Notebooks that is not only in relation to other poems like *The Ballad of the Dark Lady* and *Alice du Cluys* but also to ideas in his literary criticism especially *Biographia Literaria* philosophy and theology Using a combination of close reading and broad historical considerations reception theory and book history Mays surveys the poem's continuing life in illustrated editions and educational textbooks its passage through the vicissitudes of New Criticism and critical theory and in a final chapter its surprising affinities with some experimental poems of the present time

Towards a Romantic Conception of Nature: Coleridge's Poetry up to 1803 H.R. Rookmaaker, 1984-01-01 This study describes in detail the development of Coleridge's attitude to nature as it is reflected in his poetry It analyses the different stages of Coleridge's search for a meaningful relation to nature from an uncritical adoption of the eighteenth century conventions in his early poetry to a projectionist view in his poems of 1802 It offers challenging new readings of some of Coleridge's major poems like *The Ancient Mariner* and *Dejection: an Ode* and tries to rehabilitate some minor ones like *The Pains of Solitude* Attention is also paid to his relation with Wordsworth It discusses in detail the philosophical background of Coleridge's views and considers the contribution of German thought to his development As a whole this study affords a new insight into the genesis of romanticism in England
