rereading and contemplation offering the essays that trace the arc of the inner message brought by America's Yankee Mystic. The *Spiritual Emerson* features many of Emerson's landmark works. Yet also included are overlooked classics such as the essays *Fate and Success* which served as major sources of inspiration to some of the leading American metaphysical thinkers of the late nineteenth and early twentieth centuries. The introduction by religious scholar and philosopher Jacob Needleman frames historically and philosophically the development of Emerson's thought and explores why it has such a powerful hold on us today.

The Portable Machiavelli Niccolo Machiavelli, 1498-1527 In the four and a half centuries since Machiavelli's death no single and unanimously accepted interpretation of his ideas has succeeded in imposing itself upon the lively debate over the meaning of his works. Yet there has never been any doubt about the fundamental importance of Machiavelli's contribution to Western political theory. The *Portable Machiavelli* brings together the complete texts of *The Prince*, *Belfagor* and *Castruccio Castracani* newly translated by Peter Bondanella and Mark Musa especially for this volume. In addition the editors include an abridged version of *The Discourses*, a play *The Mandrake Root* in its entirety, seven private letters and selections from *The Art of War* and *The History of Florence*.

Humanism, Anti-Authoritarianism, and Literary Aesthetics Ulf Schulenberg, 2023-08-10 Presenting pragmatist humanism as a form of anti-authoritarianism, this book sheds light on the contemporary significance of pragmatist aesthetics and the revival of humanism. This interdisciplinary study shows that a mediation between pragmatist aesthetics which emphasizes the significance of creating, making and inventing and Marxist materialist aesthetics which values form promises interesting results and that the former can learn from the latter. In doing so Ulf Schulenberg discusses 3 layers of the multi-layered phenomenon that is the revival of humanism. He first explains the potential of a pragmatist humanism clarifying the contemporary significance of humanism. He then argues that pragmatist humanism is a form of anti-authoritarianism. Finally he shows the possibility of bringing together the resurgence of humanism and a renewed interest in the work of aesthetic form by arguing that pragmatist aesthetics needs a more complex conception of form. Establishing a transatlantic theoretical dialogue *Humanism, Anti-Authoritarianism, and Literary Aesthetics* brings together literary and aesthetic theory, philosophy and intellectual history. It discusses a broad range of authors from Emerson, Whitman, James, Nietzsche, Proust and Dewey to
