Mrs. Thrale's Anecdotes of Johnson. Fanny Burney's Diary.]** Samuel Johnson, 1969 Never Pure Steven Shapin, 2010-06-01 Steven Shapin argues that science for all its immense authority and power is and always has been a human endeavor subject to human capacities and limits Put simply science has never been pure To be human is to err and we understand science better when we recognize it as the laborious achievement of fallible imperfect and historically situated human beings Shapin's essays collected here include reflections on the historical relationships between science and common sense between science and modernity and between science and the moral order They explore the relevance of physical and social settings in the making of scientific knowledge the methods appropriate to understanding science historically dietetics as a compelling site for historical inquiry the identity of those who have made scientific knowledge and the means by which science has acquired credibility and authority This wide ranging and intensely interdisciplinary collection by one of the most distinguished historians and sociologists of science represents some of the leading edges of change in the scholarly understanding of science over the past several decades **Beginner's Guide to Jungian Psychology** Robin Robertson, 1992-03-01 In this definitive introduction to the work of C G Jung Dr Robertson explains how Jung reintroduced Westerners to the world of archetypes the imagery of the collective unconscious of mythology and the symbols in nature He discusses the structure and dynamics of the psyche the meaning of dreams the shadow the anima animus and the mysterious figure of the Self This practical yet inspiring introduction can make Jung's exciting philosophy psychology part of your life *Bookman's Manual* Bessie Graham, Hester R. Hoffman, 1958 Humour in the Arts Vivienne Westbrook, Shun-liang Chao, 2018-07-27 This collection demonstrates the usefulness of approaching texts verbal visual and aural through a framework of humour Contributors offer in depth discussions of humour in the West within a wider cultural historical context to achieve a coherent chronological sense of how humour proceeds from antiquity to modernity Reading humorously reveals the complexity of certain aspects of texts that other reading approaches have so far failed to reveal Humour in the Arts explores humour as a source of cultural formation that engages with ethical political and religious controversies whilst acquainting readers with a wide range of humorous structures and strategies used across Western cultures **Wanderlust** Rebecca Solnit, 2001-06-01 A passionate thought provoking exploration of walking as a political and cultural activity from the author of Orwell's *Roses* Drawing together many histories of anatomical evolution and

city design of treadmills and labyrinths of walking clubs and sexual mores Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking Arguing that the history of walking includes walking for pleasure as well as for political aesthetic and social meaning Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture from philosophers to poets to mountaineers She profiles some of the most significant walkers in history and fiction from Wordsworth to Gary Snyder from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja finding a profound relationship between walking and thinking and walking and culture Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car dependent and accelerated world **Lessing Yearbook** Arno Schilson, Richard E. Schade, Herbert Rowland, 2002 The Lessing Yearbook the official publication of the Lessing Society is a valuable source of information on German culture literature and thought of the eighteenth century Articles are in German or English Essays in this volume explore a wide variety of subjects pertaining to class and gender identity formation and art in Lessing's work as well as Lessing's philosophy on music and poetry **The Victorians and the Eighteenth Century** Francis

O'Gorman, Katherine Turner, 2017-07-05 Disrupting the common assumption that the Victorians regarded their eighteenth century predecessors with little interest or with disdain the essays in *The Victorians and the Eighteenth Century* propose a re-examination of these relationships Together they expose some of the significant and complex ways in which key aspects and texts of the eighteenth century were situated read and transacted within the post Romantic nineteenth century Individual essays examine the influence of the work of Pope and the eighteenth century novelists such as Johnson Chatterton and Rousseau on a range of Victorian writers and cultural productions including Dickens Eliot Oliphant Ruskin historical fiction late Victorian art criticism The English Men of Letters series and the Oxford English Dictionary The contributors challenge long held views about Victorian uses of the past and offer new insights into how the literature and culture of the eighteenth century helped shape the culture and identity of the nineteenth This collection of essays by an impressive array of scholars with a Preface by David Fairer represents a unique approach to this area of literary history and offers new perspectives on the nature and methodology of periodization While it is obviously of great interest to students of eighteenth century and Victorian literature it will also appeal to readers more broadly concerned with questions of literary influence periodization and historiography *Fictions of Reality in the Age of Hume and Johnson* Leopold Damrosch, 1989 During the second half of

the eighteenth century the most powerful literary work in Britain was nonfictional philosophy history biography and political controversy Leo Damrosch argues that this tendency is no accident at the beginning of the modern age writers were consciously aware of the role of cultural fictions and they sought to ground those fictions in a real world beyond the text Their political conservatism often neglected by modern scholars was an extensively thought out response to a world in which meaning was inseparable from consensus and in which consensus was increasingly under attack Damrosch finds strong affinities between writers who are usually described as antagonists The first chapter places Hume and Johnson in dialogue

showing that their responses to the challenge of their age have deep similarities and that their thinking points forward in significant ways to twentieth century pragmatism Subsequent chapters explore the interrelationship of the fictive and the real in a wide range of works by Boswell Gibbon White Burke and Godwin In its combination of literary philosophical and cultural criticism this book will appeal to scholars in many fields as well as to nonacademic readers interested in intellectual history John Marshall Richard Brookhiser, 2018-11-13 The life of John Marshall Founding Father and America s premier chief justice In 1801 a genial and brilliant Revolutionary War veteran and politician became the fourth chief justice of the United States He would hold the post for 34 years still a record expounding the Constitution he loved Before he joined the Supreme Court it was the weakling of the federal government lacking in dignity and clout After he died it could never be ignored again Through three decades of dramatic cases involving businessmen scoundrels Native Americans and slaves Marshall defended the federal government against unruly states established the Supreme Court s right to rebuke Congress or the president and unleashed the power of American commerce For better and for worse he made the Supreme Court a pillar of American life In John Marshall award winning biographer Richard Brookhiser vividly chronicles America s greatest judge and the world he made Books in Print , 1959 **Portable Magic** Emma Smith, 2022-11-15 A history of one of humankind s most resilient and influential technologies over the past millennium the book Revelatory and entertaining in equal measure Portable Magic will charm and challenge literature lovers of all kinds as it illuminates the transformative power and eternal appeal of the written word Stephen King once said that books are a uniquely portable magic Here Emma Smith takes readers on a literary adventure that spans centuries and circles the globe to uncover the reasons behind our obsession with this captivating object From disrupting the Western myth that the Gutenberg Press was the original printing project to the decorative gift books that radicalized women to join the anti slavery movement to paperbacks being weaponized during World War II to a book made entirely of plastic wrapped slices of American cheese Portable Magic explores how when and why books became so iconic It s not just the content within a book that compels it s the physical material itself what Smith calls bookhood the smell the feel of the pages the margins to scribble in the illustrations on the jacket its solid heft Every book is designed to influence our reading experience to enchant enrage delight and disturb us and our longstanding love affair with books in turn has had direct momentous consequences across time *Learning Directory* , 1970
