Peter Howell, Elisabeth Beazley

Porth Gateway To Rhondda:

Around Porth Aldo Bacchetta, Glyn Rudd, 2004 This endearing collection provides an unparalleled insight into Porth and its environs and gives a glimpse of the area and the people who live there The authors have constructed a book that will provide older residents with a nostalgic look at the recent past and bring newcomers and the young an opportunity to look at how things used to be **Up the Rhondda!** John Geraint, 2024-01-02 In this kaleidoscopic portrait John Geraint captures with a filmmaker's eye the exuberant life of this former mining community in changing times Comic and evocative the book shows how the values the valley has lived by could guide the Rhondda and the wider world towards a better future

Italians in Wales and their Cultural Representations, 1920s-2010s Bruna Chezzi, 2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century opening hundreds of coffee shops particularly in the South Wales Valleys Despite this such immigrants remain a largely unexplored case study in the history of Italian immigration to the UK This book uses a variety of unexplored sources and engages with the broader academic debate on migration identity and the trans generational transmission of memory to describe the emergence of Welsh Italian narratives and the formation of a distinctive yet complex Welsh Italian identity It follows a chronological journey moving from the interwar period a time in which Italians in Wales were generally regarded as fully established and integrated through to the Second World War a time when Italian identity became problematic and resulted in nearly seventy years of silencing up until the first decade of the 21st century where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh Italian narratives The book begins by studying photographic representations of Italians in Wales during the interwar period using photographs available in local history books private collections and history books The analysis of the photographic material draws from the work of scholars such as Sontag Noble Hirsh and Bate on photo textual analysis to show how photographs can reveal understudied yet important aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War The book then examines how the events of the Second World War destabilised the images of family sociability and integration suggested by these photographs and how such events aggravated tensions between host and migrant cultures It continues by investigating recent Welsh Italian texts where in revisiting the past and the experience of their ancestors the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity It concludes with a comparison between these narratives of belonging and the representation of the Italian migrant experience in Anglo Welsh literature *The Entrepreneurial Society of the Rhondda Valleys, 1840-1920* Richard Griffiths, 2010-07-30 This is the first book to examine in a systematic way the entrepreneurial society of the Welsh Valleys Until now almost everything written about the society created by the Welsh coal industry has been about the workers and the unions and there has been a significant gap which needed to be filled if a rounded picture of life in the south Wales valleys during the coal boom was to be achieved The book looks at the various

sources of wealth in the area coal owning railway building possession of land in crucial areas contracting building property development shopkeeping and at the various origins from which the first generation entrepreneurs came It then examines closely the networks of power and influence that built up among the second generation entrepreneurs in the close and claustrophobic middle class society of the Porth Pontypridd area Its method is to take one extended family central to that society together with its vast network of friends and collaborators and to examine in great detail from original sources the often hair raising business methods of these people as well as their conflicts of interest at times of industrial unrest At the same time the changes in Valleys life are mirrored in the history of this group the original rags to riches stories of so many of the first generation the self sufficient confidence of so many of the second generation for whom the coal boom seemed bound to last for ever and the gradual move thereafter out of the coal industry and down to the towns on the coast just in time to avoid the decline of the industry
