Porto Alegre Alternative Direct Democracy In Action:

The Porto Alegre Alternative Iain Bruce, 2004-09-20 First English language guide to the new form of democratic government pioneered in Porto Alegre Brazil The Porto Alegre Alternative Iain Bruce, 2004-09-20 Porto Alegre in Brazil is famous as the city that pioneered a revolutionary kind of local democracy Started over a decade ago by the municipal administration of the Brazilian Workers Party PT this process called the participatory budget has steadily attracted attention from around the world including the UN and even the financial press This is the first book in English that allows the creators of the participatory budget to explain the process for themselves what it is how it is achieved what benefits it brings Written by key figures from Porto Alegre including the former mayor and the head of the City Planning Office it provides a unique insight into the revolutionary democratic changes that have proved such a success It is also a practical how to do it guide that will help local communities and policy makers put these ideas into action The Porto Alegre experience shows that a truly different kind of political democracy is possible it presents a real alternative to the current model of liberal representative democracy that has been eroded by unelected transnational institutions and multinational corporations Democratic Extremism in Theory and Practice Paul Lucardie, 2013-12-04 Democracy and extremism are usually considered as opposites We assume that our system in the UK the USA the Netherlands etc is democratic and extremists try to destroy our system and introduce some kind of dictatorship if not chaos and anarchy Yet in many cases the extremists seem sincere in their attempt to construct a more democratic polity Hence they can be called democrats and yet also extremists in so far as they strive for a regime with characteristics that are more extreme in a significant sense This book analyses radical and extreme democratic theories and ideas in their historical context interlocked with critical descriptions of historical institutions and experiments that help to evaluate the theories Cases range from ancient Athens to recent experiments with citizen juries and citizen assemblies from the time honoured Swiss Landsgemeinde to contemporary and controversial workers councils in Venezuela and participatory budgeting in Porto Alegre Among the theorists discussed here are familiar names as well as relatively unknown persons Jean Jacques Rousseau and Karl Marx Murray Bookchin and John Burnheim William Godwin and Barbara Goodwin Anton Pannekoek and Heinz Dieterich Whereas the extreme ideas do not seem to work very well in practice they do indicate ways by which we could make existing political systems more democratic This book will be of interest to students of Politics and Current Affairs as well as inspiration to political activists and reformists **Canadian Parties in Transition, Fourth Edition** Alain-G. Gagnon, A. Brian Tanguay, 2017-01-01 Canadian Parties in Transition examines the transformation of party politics in Canada and the possible shape the party system might take in the near future With chapters written by an outstanding team of political scientists the book presents a multi faceted image of party dynamics electoral behaviour political marketing and representative democracy The fourth edition has been thoroughly updated and includes fifteen new chapters and several new contributors The new material covers topics such as the return to power of the

Liberal Party voting politics in Quebec women in Canadian political parties political campaigning digital party politics and municipal party politics Reimagining Public Sector Management John Diamond, Joyce Liddle, 2022-11-18 Reimagining Public Sector Management delves into the crisis and emergency management of the pandemic exploring the ways in which different agencies responded to the pandemic and the lessons learnt in terms of disaster planning and co ordination **The Next Form of Democracy** Matthew Leighninger, 2006 Publisher description **Marxisms in the 21st Century** Michelle Williams, Vishwas Satgar, 2013-12-01 The current resurgence of Marxism is based on new sources of inspiration and creativity from movements that seek democratic egalitarian and ecological alternatives to capitalism The Marxism of many of these movements is neither dogmatic nor prescriptive but rather open searching utopian It revolves around four primary factors the importance of democracy for an emancipatory project the ecological limits of capitalism the crisis of global capitalism and the learning of lessons from the failures of Marxist inspired experiments Marxisms in the Twenty First Century challenges vanguardist Marxism featured in South Africa and beyond Featuring leading thinkers from the Left the book offers provocative ideas on interpreting our current world and serves as an excellent introduction to new ways of thinking about Marxism to students and scholars in the field Many anti capitalist traditions and themes including democracy globalisation feminism critique and ecology inform and shape the contributions in this volume **Fast Policy** Jamie Peck, Nik Theodore, 2015-04-15 We inhabit a perpetually accelerating and increasingly interconnected world with new ideas fads and fashions moving at social media speed New policy ideas especially ideas that work are now able to find not only a worldwide audience but also transnational salience in remarkably short order Fast Policy is the first systematic treatment of this phenomenon one that compares processes of policy development across two rapidly moving fields that emerged in the Global South and have quickly been adopted worldwide conditional cash transfers a social policy program that conditions payments on behavioral compliance and participatory budgeting a form of citizen centric urban governance Jamie Peck and Nik Theodore critically analyze the growing transnational connectivity between policymaking arenas and modes of policy development assessing the implications of these developments for contemporary policymaking Emphasizing that policy models do not simply travel intact from sites of invention to sites of emulation they problematize fast policy as a phenomenon that is real and consequential yet prone to misrepresentation Based on fieldwork conducted across six continents and in fifteen countries Fast Policy is an essential resource in providing an extended theoretical discussion of policy mobility and in presenting a methodology for ethnographic research on global social policy Globalization and Contestation Ronaldo Munck, 2006-12-08 This study shows how globalization is contestable in many different ways and how the counter movements we have seen emerging over the last decade also bear witness on behalf of an alternative human future *Complexity and Social Movements* Graeme Chesters, Ian Welsh, 2006-11-22 Making use of complexity theory concepts from the natural and social sciences this informative book provides a framework for understanding mobilization identity formation and information

flows in global social movements **The Roots of Participatory Democracy** M. Williams, 2008-05-26 This book compares the Communist parties of India and South Africa in their pursuits of socialist democracy Williams looks at their organizational characteristics party history and their competing tendencies as well as how they have pushed forward their similar ideologies within their unique political and economic environments **The Real Venezuela** Iain Bruce, 2008-12-20 Venezuela has

become a huge source of hope and inspiration for the Left throughout the world Some see it as a shining example of how to begin building a successful socialist state but Western leaders see it as a dangerous enemy and accuse Ch vez of being a dictator This book reveals the truth by examining the country from the ground up Iain Bruce explores the political changes underway in Venezuela at the level of the lives of ordinary people Through grassroots investigations and extended interviews he explores a series of key transformations in Venezuela a new social economy around a network of co operatives workplace democracy popular education radical agrarian reform participatory budgets and community planning The result is a clear picture of everyday life in Venezuela No other book on the country has this level of detail it will be a key text for students of Latin American politics and social movements and of interest to anyone following the fortunes of the Bolivarian Revolution

Cynical Citizenship Benjamin Junge, 2018-07-15 This anthropological study of grassroots community leaders in Porto Alegre Brazil s leftist hotspot focuses on gender politics and regionalism during the early 2000s when the Workers Party Partido dos Trabalhadores was in power The author explores the ways community leaders make sense of official notions of citizenship and how gender politics and regional identities shape these interpretations Junge further examines the implications of leaders deep ambivalence toward normative participation discourses for how we theorize and study participatory democracy citizenship and political subjectivity in Brazil and beyond Voice and Vote Stephanie

McNulty, 2011-05-04 This book investigates a recent Peruvian decentralization reform that is considered to be one of the most participatory in Latin America **Why Citizen Participation Succeeds or Fails** Ryan, Matt, 2021-07-15 Matt Ryan s

landmark comparative review of participatory budgeting or collective decisions on how public money is spent reveals the factors behind its success in achieving democratic engagement The culmination of ten years of research into participation this is a systematic analysis of how when and why citizens gain control over these important decisions Comparing global examples of both positive change and notable failure the book provides persuasive evidence and guidance for future public involvement in taxation and spending For advocates and participants of democratic reform and those with interests across political science this is an essential guide to one of the most significant democratic innovations of our times **The Cuban**

Revolution in the 21st Century George Lambie, 2010-10-05 Politics in Cuba have long been analysed as a socialist experiment from the perspective of internal dynamics or international relations but what if the revolutionary process is part of a counter current against neoliberal globalisation Rather than presenting Cuba as a socialist survivor whose performance must be measured against the standards set by the international community George Lambie judges Cuban socialism on the

goals that the revolution sets for itself He shows that despite Cuba's isolation in the New World Order and the enormous pressures it has faced to conform its faith in an alternative socialist project has continued and grown After the 2008 financial crash we have seen neoliberalism's fallibility first hand conversely Cuba's promotion of socialist values has a renewed relevance Lambie argues that Cuba is again becoming a symbol and practical example of socialism in action

Biotechnology, Patents and Morality Maureen O'Sullivan, 2019-06-19 This book critiques the decision making process in Article 53 a of the European Patent Convention To date such decisions have been taken at high levels of expertise without much public involvement The book eschews traditional solutions such as those found within legislative judicial and patent office realms and instead develops a radical blueprint for how these decisions can be put to the public By examining wide scale models of participatory democracy and deliberation this book fills a significant gap in the literature It will be invaluable for patent lawyers academics practitioners and intellectual property and patent officials **No Local** Greg

Sharzer, 2012-04-27 Can making things smaller make the world a better place No Local takes a critical look at localism an ideology that says small businesses ethical shopping and community initiatives like gardens and farmers markets can stop corporate globalization These small acts might make life better for some but they don't challenge the drive for profit that's damaging our communities and the earth No Local shows how localism's fixation on small comes from an outdated economic model Growth is built into capitalism Small firms must play by the same rules as large ones cutting costs exploiting workers and damaging the environment Localism doesn't ask who controls production allowing it to be co-opted by governments offloading social services onto the poor At worst localism becomes a strategy for neoliberal politics not an alternative to it No Local draws on political theory history philosophy and empirical evidence to argue that small isn't always beautiful Building a better world means creating local social movements that grow to challenge not avoid market priorities In the Name of

the People Ivo Mosley, 2013-03-12 Are our democracies truly democratic In the Name of the People examines the myth of modern democracy and finds it wanting The various oligarchies of the world blame the madness of modern life on the greed and stupidity of ordinary people this book argues that on the contrary elites indulge a limitless greed for power and wealth under cover of giving the people what they want As a coda to his short book Ivo Mosley examines what true democracy has meant over the last two and a half millennia and examines how it could be incorporated into current political structures to give them meaning life and accountability **Contemporary Latin America** Ronaldo Munck, 2012-07-06 Fully updated for the third edition Contemporary Latin America provides an accessible concise introduction to the region Historical context the countries and their peoples provides a backdrop to broad ranging coverage of politics economy society and culture and the continent's prospects today
