**The Practices of Painting in Japan, 1475-1500** Quitman E. Phillips,2000 This book attempts to expand the grounds and methodology of studying Japanese art history by focusing on the conditions procedures events and social interplay that characterized the production of paintings in late fifteenth century Japan Though the book s ultimate concerns are art historical its analysis also draws heavily from the insights of sociology and social history At its core is a fresh examination of the major primary documents of the period in an attempt to liberate the study from assumptions long embedded in the historiography of late medieval Japanese painting history Early chapters describe documents methods basic sites and conditions of painting before turning to the main contribution of the book painting considered as a body of social practices The production of painting in the late fifteenth century was profoundly social dynamically related to the circumstances of its agents Painters advisors assistants clients and others did not exert themselves simply to bring paintings into existence They sought advantages such as wealth and prestige met obligations and satisfied the demands of custom Surviving documents from the period present rich evidence of the involvement of such persons in the imperial court the Ashikaya Gozan community the great temples of Nara and the halls of local lords The author takes into account the patterns of expectation that existed at the various sites but does not construe them as static and mechanically determined Rather he shows that expectations evolved in response to changed conditions Although this study specifically addresses the last quarter of the fifteenth century it can aid future research in Japanese painting practice in other eras by serving as a model of how new interpretations can emerge from close documentary investigation

**American Monthly Review of Reviews** Albert Shaw,1925 *St Petersburg* Solomon Volkov,2010-06-15 The definitive cultural biography of the Venice of the North and its transcendent artistic and spiritual legacy written by Russian emerge and acclaimed cultural historian Solomon Volkov Long considered to be the mad dream of an imperious autocrat the Venice of the North conceived in a setting of malarial swamps St Petersburg was built in 1703 by Peter the Great as Russia s gateway to the West For almost 300 years this splendid city has survived the most extreme attempts of man and nature to extinguish it from flood famine and disease to civil war Stalinist purges and the epic 900 day siege by Hitler s armies It has even been renamed twice and became St Petersburg again only in 1991 Yet not only has it retained its special almost mystical identity as the schizophrenic soul of modern Russia but it remains one of the most beautiful and alluring cities in the world Now Solomon Volkov a Russian emigre and acclaimed cultural historian has written the definitive cultural biography of this city and its transcendent artistic and spiritual legacy For Pushkin Gogol and Dostoyevsky Petersburg was a spectral city that symbolized the near apocalyptic conflicts of imperial Russia As the monarchy declined allowing intellectuals and artists to flourish Petersburg became a center of avant garde experiment and flamboyant bohemian challenge to the dominating power of the state first czarist and then communist The names of the Russian modern masters who found expression in St Petersburg still resonate powerfully in every field of art in music Stravinsky Prokofiev and Shostakovich in literature Akhmatova Blok Mandelstam Nabokov and Brodsky in dance Diaghilev Nijinsky and Balanchine in theater Meyerhold in painting Chagall and Malevich and many others whose works are now part of the permanent fabric of Western civilization Yet no comprehensive portrait of this thriving distinctive and highly influential cosmopolitan culture and the city that inspired it has previously been attempted *The Resilient City* Lawrence J. Vale,Thomas J. Campanella,2005-01-20 In 1871 the city of Chicago was almost entirely destroyed by what became known as The Great Fire Thirty five years later San Francisco lay in smoldering ruins after the catastrophic earthquake of 1906 Or consider the case of the Jerusalem the greatest site of physical destruction and renewal in history which over three millennia has suffered wars earthquakes fires twenty sieges eighteen

reconstructions and at least eleven transitions from one religious faith to another Yet this ancient city has regenerated itself time and again and still endures Throughout history cities have been sacked burned torched bombed flooded besieged and leveled And yet they almost always rise from the ashes to rebuild Viewing a wide array of urban disasters in global historical perspective *The Resilient City* traces the aftermath of such cataclysms as the British invasion of Washington in 1814 the devastation wrought on Berlin Warsaw and Tokyo during World War II the late 20th century earthquakes that shattered Mexico City and the Chinese city of Tangshan Los Angeles after the 1992 riots the Oklahoma City bombing the destruction of the World Trade Center Revealing how traumatized city dwellers consistently develop narratives of resilience and how the pragmatic process of urban recovery is always fueled by highly symbolic actions *The Resilient City* offers a deeply informative and unsentimental tribute to the dogged persistence of the city and indeed of the human spirit

*The Collapse of Globalism Revised Edition* John Ralston Saul, 2009-09-22 In 1999 John Ralston Saul began predicting that globalism would collapse In 2005 he laid out this scenario in *The Collapse of Globalism and the Reinvention of the World* Now he has enlarged the book showing how today's crisis came about and suggesting what to do next In this new edition Saul describes the current financial crisis as a mere boil to be lanced The far more serious problem is that the West driven by most of its economists managers consultants and columnists remains stuck on outdated ideas of growth wealth creation and trade expansion They are still trying to limit the debate to a narrow choice between protectionism and free trade and are concentrated on old fashioned stimulation Public policy has been dominated by the people who created this crisis Saul envisions a new sort of wealth creation and growth and in place of reaction advocates new forms of action

*The Romanians, 1774-1866* Keith Hitchins, 1996 This original and ground breaking work examines the building of the European nation which became Romania in 1859 The evolution of the Romanians in the century between the 1770s and the 1860s was marked by a transition from long established agrarian economic and social structures locked into an essentially medieval political system to a society moulded by urban and industrial values and held together by allegiance to the nation state This fascinating analysis of the building of a European nation state is the first detailed account of the Romanians during this dramatic period
