Jung's Theory of Personality Clare Crellin,2014-05-23 This book provides a re appraisal of Carl Jung s work as a personality theorist It offers a detailed consideration of Jung s work and theory in order to demystify some of the ideas that psychologists have found most difficult such as Jung s religious and alchemical writings The book shows why these two elements of his theory are integral to his psychology of personality and goes on to propose a framework on which to base a collaborative research programme that could provide much needed and at present unavailable validation data for some of Jung s key theoretical concepts Divided into two parts theory and practice the author begins by emphasising the importance of religion and alchemy for understanding Jung s key concepts of individuation and the self as well the link between Jung s

concept of the archetype and its function in the development and transformation of personality The book considers the whole of Jung's work as a comprehensive theory of personality to which all strands including his writings on religion and on alchemy contribute The second part of the book is both empirical and theoretical Crellin reviews the history of the presentation of Jung's work in personality literature and discusses how inaccurate representation the limitations of existing evaluation criteria and consequent negative perceptions of Jung's theory in textbooks of personality psychology have contributed to the creation of a mythical Jung This book will appeal to both psychological practitioners who are unfamiliar or only have a vague understanding of Jung's ideas as well as Jungian psychoanalysts who are knowledgeable about Jung's writings but whose training may not have addressed the problem of theory evaluation in relation to Jung's theory **Jung and the Bible** Wayne Rollins, 2013-09-01 Out of the life and thought of a noted psychologist Carl Jung comes a captivating approach to reading and interpreting the Bible The book opens with the question Why is it that the images characters and stories of Scripture have the power to catalyze the imagination of the human psyche not only among religious people but also among artists moviemakers playwrights and songwriters some of whom are disenchanted with church clergy and established religion The answer to the question begins with Jung's statement that the Bible is an utterance of the soul Jung sees the Bible as a treasury of the soul psyche that is the testimony of our spiritual ancestors proclaiming in history and law prophecy and psalm gospel and epistle genealogy and apocalypse their experience of the holy and drawing us and others through us into that experience The Bible is no stranger to Carl Jung No document is cited by Jung more often and no cast of characters from any tradition is summoned to the stage of Jung's discourse with greater regularity than are the Adams and Abrahams the Melchizedeks and Moseses the Peters and Pauls of Judaeo Christian Scripture 185 biblical figures in all Beyond that the realities and experiences that concern Jung most are also those that occupy prime attention in the writings of biblical authors a sense of soul of personal destiny and call an openness to the wisdom of dreams revelations and visions the power of symbols and archetypal images the riddle of evil within God's world and above all the sense of God the numinous the Holy at the center of things **Barcelona 2004 - Edges of Experience: Memory and Emergence** Lyn Cowan, 2006 The stimulating program featured clinical artistic historical and other interests and concerns of Jungian Psychology today with wide ranging presentations and events From the Contents Cultural Complexes in the Group and the Individual Psyche by Thomas Singer Sam Kimbles Descent and Emergence Symbolized in Four Alchemical Paintings by Dyane Sherwood An Archetypal Approach to Drugs and AIDS A Brazilian Perspective by Dartiu Xavier da Silveira Frida Kahlo by Mathy Hemsari Cassab Images from ARAS Healing our Sense of Exile from Nature by Ami Ronnberg Trauma and Individuation by Ursula Wirtz Human Being Human Subjectivity and the Individuation of Culture by Christopher Hauke Studies of Analytical Long Term Therapy by Wolfram Keller Rainer Dilg Seth Isaiah Rubin Analysis in the Shadow of Terror by Henry Abramovitch Ethics in the IAAP A New Resource by Luigi Zoja Liliana Wahba Hester Solomon Hope Abandoned and Recovered in the

Jung's Studies in Astrology Liz Greene, 2019-09-04 Winner of the IAJG award for best authored book of 2018 C G Jung had a profound interest in and involvement with astrology which he made clear in virtually every volume of the Collected Works as well as in many of his letters This ancient symbolic system was of primary importance in his understanding of the nature of time the archetypes synchronicity and human fate Jung's Studies in Astrology is an historical survey of his

astrological work from the time he began to study the subject. It is based not only on his published writings but also on the correspondence and documents found in his private archives, many of which have never previously seen the light of day. Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology, the ancient, medieval, and modern sources he drew on, the individuals from whom he learned his ideas about how and why it worked, its religious and philosophical implications, and its applications in the treatment of his patients as well as in his own self-understanding. Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories as well as the nature of his world view needs to involve a thorough exploration of his astrological work. This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists, students and academics of Jungian and post-Jungian theory, the history of psychology, archetypal thought, mythology and folklore, the history of New Age movements, esotericism, and psychological astrology.
