

HOW TO WRITE A PERSONAL ESSAY

A personal essay is a short writing work where the author expresses an important lesson connected with her life experiences. The essay usually expounds on an important event from a first-person point of view and can be put into practice in several writing styles like creative nonfiction or as a formal essay. Personal essay writers are encouraged to use a conversational tone to create a connection with their audiences. This essay category can be motivating and a source of hope or can act as a caution to others to avoid the writer's predicaments.

Personal essay themes describe a wide variety of subject matters. They could be about the first time you applied unsuccessfully for a post, unwarranted divorce from your spouse, sexual abuse, or even a person that changed your perception towards a particular subject. Any juncture in your life that spurred growth or lead you to your fortunes can be put into writing in the form of a personal essay and impoverished and complemented by your personal views.

8 STEPS TO WRITE A PERSONAL ESSAY

1. Prepare in Advance

The first step in your readiness to write your personal essay is to identify your target audience and the message you intend to convey. Try to figure out how your narrative connects to your objectives for writing it. It's beneficial to outline a list of subjects you intend to share so you can draft an essay that makes your narrative relative and engaging.

2. Get Organized

Coming up with an outline is a huge stride to your ideas as well as your thoughts. Outlines ensure all you discuss is topic bound and avoid discussing irrelevant ideas that can make your main points go unnoticed. A personal essay should be guided by a sequence of events so that the story is not lost on the way.

3. Pick Your Theme

The theme or experience you narrate should mirror the message you intend to share. Your story should describe turning points in your life or any other experience that touched your life in one way or another.

4. Contemplate Your Tone

When drafting a personal essay, think about the feelings you intend to discuss or the atmosphere you prefer to create that lends intuition into your personality. Your essays might be about a past incident and may be drafted as a re-look to an already occurred event and its relation to the current circumstances. If you are writing pertaining to a present event, the essay should be written from a present perspective and the effect experienced today. Based on the tone of your story, concentrate on drawing the writer's attention to your story.

5. Add a Moral Lesson

Your personal essay definitely has the main lesson that readers can draw from your story. Contemplate things you want the readers to recall about your essay and discuss how, why, and what you have learned from your experience.

6. Write the Introduction

The introduction should be brief and, in most cases, should not exceed two paragraphs discussing your main points without elaborating in detail. The introduction captures the main ideas of your story, and the introductory sentence should be impactful. The first sentence should be intriguing to draw readers' attention.

7. Write the Body

The body elaborates essay ideas and any other crucial information. The body should only be two to three paragraphs. This is where you provide evidence backing the lesson or moral you are depicting in your tale.

8. Write the Conclusion

The conclusion is typically one to two paragraphs and emphasize your main points in the body. Avoid introducing new concepts and concentrate on delivering your personal message. Conclude your essay with a sentence that wraps up the lesson in your narrative and connects the whole essay.

A Year and a Day Phillip Lopate, 2023-10-10 A compelling celebration of the power of the essay this collection of 47 writings offers a glimpse into the mind of a modern day Montaigne as he reflects on the miscellany of daily life movies and art friends and family over the course of a single year The essay is the most pluckily pedestrian and blithely transgressive of literary genres the one that is most at large and in need picking through the accumulated disjecta of daily life and personal and social history to take what it needs and remake it as it sees fit It is at its lively best quite indifferent to the claims of style fashion theory and respectability provoking and inspiring through the pleasure of surprise In 2016 Philip Lopate who has been writing essays and thinking about the essay for decades now turned his attention to one of the essay's offshoots the blog a form by that time already thick as he knew with virtual dust Lopate committed to writing a weekly blog about really whatever over the course of a year a quicker pace of delivery than he'd ever undertaken and one that carried the risk of all too regularly falling short What emerged was *A Year and a Day* a collection of forty seven essays best characterized as a single essay a year in the making a virtuosic if never showy demonstration of the essay's range and reach meandering looping back pressing reset forging on Lopate's topics along the way include family James Baldwin a trip to China Agnes Martin Abbas Kiarostami the resistible rise of Donald Trump death desire and the tribulations small and large of daily life What results is at once a self portrait a picture of the times and a splendid new elaboration of what the essay can be

Notes on Sontag Phillip Lopate, 2009-03-09 Notes on Sontag is a frank witty and entertaining reflection on the work influence and personality of one of the foremost interpreters of our recent contemporary moment Adopting Sontag's favorite form a set of brief essays or notes that circle around a topic from different perspectives renowned essayist Phillip Lopate considers the achievements and limitations of his tantalizing daunting subject through what is fundamentally a conversation between two writers Reactions to Sontag tend to be polarized but Lopate's account of Sontag's significance to him and to the culture over which she loomed is neither hagiography nor hatchet job Despite admiring and being inspired by her essays he admits a persistent ambivalence about Sontag Lopate also describes the figure she cut in person through a series of wry personal anecdotes of his encounters with her over the years Setting out from middle class California to invent herself as a European style intellectual Sontag raised the bar of critical discourse and offered up a model of a freethinking imaginative and sensual woman But while crediting her successes Lopate also looks at how her taste for aphorism and the radical high ground led her into exaggerations that could do violence to her own common sense and how her ambition to be seen primarily as a novelist made her undervalue her brilliant essays Honest yet sympathetic Lopate's engaging evaluation reveals a Sontag who was both an original and very much a person of her time
