painter Ilya Repin welcomed an unexpected visitor to his home Lev Tolstoy The renowned realists talked for hours and Tolstoy turned his critical eye to the sketches in Repin s studio Tolstoy s criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative dependent on the mode and medium of representation In this original study Molly Brunson traces many such paths that converged to form the tradition of nineteenth century Russian realism a tradition that spanned almost half a century from the youthful projects of the Natural School and the critical realism of the age of reform to the mature masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia s great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements

Treasuring the Gaze Hanneke Grootenboer,2024-05-31 The end of the eighteenth century saw the start of a new craze in Europe tiny portraits of single eyes that were exchanged by lovers or family members Worn as brooches or pendants these minuscule eyes served the same emotional need as more conventional mementoes such as lockets containing a coil of a loved one s hair The fashion lasted only a few decades and by the early 1800s eye miniatures had faded into oblivion Unearthing these portraits in *Treasuring the Gaze* Hanneke Grootenboer proposes that the rage for eye miniatures and their abrupt disappearance reveals a knot in the unfolding of the history of vision Drawing on Alois Riegl Jean Luc Nancy Marcia Pointon Melanie Klein and others Grootenboer unravels this knot discovering previously unseen patterns of looking and strategies for showing She shows that eye miniatures portray the subject s gaze rather than his or her eye making the recipient of the keepsake an exclusive beholder who is perpetually watched These treasured portraits always return the looks they receive and as such they create a reciprocal mode of viewing that Grootenboer calls intimate vision Recounting stories about eye miniatures including the role one played in the scandalous affair of Mrs Fitzherbert and the Prince of Wales a portrait of the mesmerizing eye of Lord Byron and the loss and longing incorporated in crying eye miniatures Grootenboer shows that intimate vision brings the gaze of another deep into the heart of private experience With a host of fascinating imagery from this eccentric and mostly forgotten yet deeply private keepsake *Treasuring the Gaze* provides new insights into the art of miniature painting and the genre of portraiture
