Visual Syntax of Race Noa Hazan,2022-09-27 Analyzing the visual syntax and display rhetoric applied in newspaper photos national historical albums and museum exhibitions Noa Hazan shows that although racial thought was and still is verbally suppressed in Israel it is vividly present in its nonverbal official and public visual sphere The racist perspective of newspaper editors book publishers photographers and museum curators were morally justified in its time by such patronizing ideals as realistic news coverage or the salvation of Jewish heritage assets Although their perspectives played a dominant role in establishing a visual syntax of race in Israel they were not seen as racially

discriminating at the time The racist motifs and actions are revealed here by colligating multiple cases into a coherent narrative in retrospect This book points to a direct influence of the anti Semitic discourse in Europe toward Mizrahim in Israel highlighting the shared visual stereotypes used in both Europe and the fledgling state of Israel Engraved in their body these cultural traits were depicted and understood as racial biological qualities and were visually manipulated to silo Ashkenazim and Mizrahim in Israel as distinct racial types **Math and the Mona Lisa** Bulent Atalay,2011-09-20 Leonardo da Vinci was one of history s true geniuses equally brilliant as an artist scientist and mathematician Readers of The Da Vinci Code were given a glimpse of the mysterious connections between math science and Leonardo s art Math and the Mona Lisa picks up where The Da Vinci Code left off illuminating Leonardo s life and work to uncover connections that until now have been known only to scholars B lent Atalay a distinguished scientist and artist examines the science and mathematics that underlie Leonardo s work paying special attention to the proportions patterns shapes and symmetries that scientists and mathematicians have also identified in nature Following Leonardo s own unique model Atalay searches for the internal dynamics of art and science revealing to us the deep unity of the two cultures He provides a broad overview of the development of science from the dawn of civilization to today s quantum mechanics From this base of information Atalay offers a fascinating view into Leonardo s restless intellect and modus operandi allowing us to see the source of his ideas and to appreciate his art from a new perspective Eugenics, 'Aristogenics', Photography Kris Belden-Adams,2020-06-08 This is the first study to explore the connections between late 19th century university college composite class portraits and the field of eugenics which first took hold in the United States at Harvard University Eugenics Aristogenics Photography takes a closer look at how composite portraiture documented an idealized reality of the New England social caste experience and explains how when positioned in relation to the individual stories and portraits of members of the class the portraits reveal points of non conformity and rebellion with their own rhetoric **Encyclopedia Britannica** Hugh Chisholm,1911 The Encyclopædia Britannica Hugh Chisholm,1911

Unveiling the Energy of Verbal Art: An Emotional Sojourn through **Portraits Of Nature**
