R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries 'A New Type of History' Beverley Southgate, 2015-05-22 Linking fiction with history and historical theory A New Type of History Fictional Proposals for dealing with the Past focuses on a selection of nineteenth and twentieth century novelists Tolstoy Proust John Cowper Powys Virginia Woolf Wyndham Lewis Penelope Lively and James Hamilton Paterson who have criticized scientifically based history and proposed alternative ways of approaching the past more subjective and personal colourful and imaginative and above all ethically orientated In this it is argued they have been reverting to an earlier rhetorical model for history which is now being increasingly adopted by practising historians This new type of history may lack the claimed objectivity and truth of its immediate predecessor but it opens the way for an ethically focused subject that may be used in Nietzsche's words for the purpose of life Providing a new take on both novelists and historiography and ranging widely from the nineteenth century to the present day this cross disciplinary study will be valuable reading for all those interested in the intersection and interplay between fiction and history **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies *Lytton Strachey: The New Biography* Michael Holroyd, 2005-12-17 A triumphant success His prose is confident clear occasionally perfect Dennis Potter The Times London It is impossible to suppose that this Life will ever be superseded the best literary biography to appear for many years John Rothenstein New York Times Written with vivacity and scrupulousness Michael Holroyd has a great novelist's sense of the obstinate mystery of the human person George Steiner The New Yorker A Virginia Woolf

The Sphinx of Bloomsbury Zsuzsa Rawlinson,2006 The focus of this book is on Lytton Strachey's literary critical essays and his major biographies By placing his work in the broader context of the Modernist canon it aims to offer a complete yet far from definitive picture of the writer who wrote the first book of the twenties

Club Dial ,1928 Virginia Woolf, the War Without, the War Within Barbara Lounsberry,2020-01-06 Choice Outstanding Academic Title In her third and final volume on Virginia Woolf's diaries Barbara Lounsberry reveals new insights about the courageous last years of the modernist writer's life from 1929 until Woolf's suicide in 1941 Woolf turned more to her diary and to the diaries of others for support in these years as she engaged in inner artistic wars including the struggle with her most difficult work *The Waves* and as the threat of fascism in the world outside culminated in World War II During this period the war began to bleed into Woolf's diary entries Woolf writes about Hitler Mussolini and Stalin copies down the headlines of the day and captures how war changed her daily life Alongside Woolf's own entries Lounsberry explores the diaries of 18 other writers as Woolf read them including the diaries of Leo Tolstoy Dorothy Wordsworth Guy de Maupassant Alice James and Andr Gide Lounsberry shows how reading diaries was both respite from Woolf's public writing and also an inspiration for it Tellingly shortly before her suicide Woolf had stopped reading them completely The outer war and Woolf's inner life collide in this dramatic conclusion to the trilogy that resoundingly demonstrates why Virginia Woolf has been called the Shakespeare of the diary Lounsberry's masterful study is essential reading for a complete understanding of this extraordinary writer and thinker and the development of modernist literature

Transnational Perspectives on Artists' Lives Marleen Rensen,Christopher Wiley,2020-10-06 This book demonstrates the significance of transnationality for studying and writing the lives of artists While painters musicians and writers have long been cast as symbols of their associated nations recent research is increasingly drawing attention to those aspects of their lives and works that resist or challenge the national framework The volume showcases different ways of treating transnationality in life writing by and about artists investigating how the transnational can offer intriguing new insights on artists who straddle different nations and cultures It further explores ways of adopting transnational perspectives in artists biographies in order to deal with experiences of cultural otherness or international influences and analyses cross cultural representations of artists in biography and biofiction Gathering together insights from biographers and scholars with expertise in literature music and the visual arts *Transnational Perspectives on Artists Lives* opens up rich avenues for researching transnationality in the cultural domain at large

Catalogue of the Books Published by Houghton, Mifflin and Company Houghton Mifflin Company, 1906 **Self Impression** Max Saunders, 2010-04-22 I am aware that once my pen intervenes I can make whatever I like out of what I was Paul Valéry. Modernism is often characterized as a movement of impersonality, a rejection of autobiography. But most of the major works of European modernism and postmodernism engage in very profound and central ways with questions about life writing. Max Saunders explores the ways in which modern writers from the 1870s to the 1930s experimented with forms of life writing: biography, autobiography, memoir, diary, journal, increasingly for the purposes of fiction. He identifies a wave of new hybrid forms from the late nineteenth century and uses the term autobiografiction, discovered in a surprisingly early essay of 1906, to provide a fresh perspective on the turn of the century literature and to propose a radically new literary history of Modernism. Saunders offers a taxonomy of the extraordinary variety of experiments with life writing, demonstrating how they arose in the nineteenth century as the pressures of secularization and psychological theory disturbed the categories of biography and autobiography in works by authors such as Pater, Ruskin, Proust, Mark Rutherford, George Gissing, and A. C. Benson. He goes on to look at writers experimenting further with autobiografiction as Impressionism turns into Modernism, juxtaposing detailed and vivacious readings of key Modernist texts by Joyce, Stein, Pound, and Woolf with explorations of the work of other authors including H. G. Wells, Henry James, Joseph Conrad, Ford Madox Ford, and Wyndham Lewis, whose experiments with life writing forms are no less striking. The book concludes with a consideration of the afterlife of these fascinating experiments in the postmodern literature of Nabokov, Lessing, and Byatt. *Self Impression* sheds light on a number of significant but under-theorized issues: the meanings of autobiographical, the generic implications of literary autobiography, and the intriguing relation between autobiography and fiction in the period. *Bloomsbury, Beasts and British Modernist Literature* Derek Ryan, 2022-12-15 *Bloomsbury Beasts and British Modernist Literature* reveals how the Bloomsbury group's fascination with beasts, from pests to pets, tiny insects to big game, became an integral part of their critique of modernity and conceptualisation of more than human worlds. Through a series of close readings, it argues that for Leonard Woolf, David Garnett, Virginia Woolf, and E. M. Forster, profound shifts in interspecies relations were intimately connected to questions of imperialism, race, gender, sexuality, and technology. Whether in their hunting narratives, zoo fictions, canine biographies, or entomological aesthetics, these writers repeatedly test the boundaries between and imagine transformations of the human and nonhuman by insisting that we attend to the material contexts in which they meet. In demonstrating this, the book enriches our understanding of British modernism while intervening in debates on the cultural significance of animality from the turn of the twentieth century to the Second World War. *Speaking Pictures* Virginia Mason Vaughan, Fernando Cioni, Jacquelyn Bessell, 2010 *Speaking Pictures* explores the complex negotiations between seeing and hearing, essential to the audience's experience in any dramatic performance. Ranging chronologically from the Middle Ages to the present, the essays consider a variety of methods that help us recuperate the visual impact of theatrical spectacle before the age of video.

archives The anthology takes its discussion of performance beyond the physical space of the theater to examine texts that were meant to be spoken but not literally performed such as medieval pageantry and closet dramas of the nineteenth century Many essays focus on the Early Modern English stage particularly the challenges of recapturing the totality of the original audience s experience in London s open air theaters by the examination of stage directions text and archival evidence The collection concludes with a discussion of the contemporary actor s challenge in physicalizing the language of Early Modern plays especially Shakespeare s
