Edmund Maurice's *The Revolutionary Movement of 1848-9 in Italy Austria Hungary and Germany* offers a meticulous examination of the widespread revolutionary fervor that surged through Europe during this pivotal year. Through a detailed narrative interwoven with analytical insights, Maurice engages with the sociopolitical undercurrents that spurred uprisings and the quest for national unification and democratic reforms. His literary style is marked by a comprehensive and articulate approach that delves into historical events while providing context about the aspirations and disillusionments of the diverse groups involved. The book positions the revolutions of 1848-9 as crucial moments in the formation of modern European identities in the face of autocratic governance and nationalist sentiments. C. Edmund Maurice, a noted historian and scholar of 19th-century European history, draws upon an impressive array of primary sources and contemporary analyses. His own background, enriched by a keen interest in the socio-political landscape of Europe, ultimately fueled his desire to illuminate the complexities and interconnectedness of these revolutionary movements. Through rigorous research and thoughtful interpretation, Maurice contextualizes the significance of these uprisings within the broader narrative of European history. This book is a must-read for historians, students, and anyone interested in understanding the nuances of European revolutionary movements. By rediscovering the fervor and failings of 1848-9, readers will gain crucial insights into the historical foundations of current European identities and political struggles, making Maurice's work essential for a holistic grasp of this transformative period.

Political and Social History of Modern Europe Carlton Joseph Huntley Hayes, 1916 *The Revolutionary Movement of 1848-1849 in Italy, Austria-Hungary, and Germany* Charles E. Maurice, 1968 In the Mirror of the Third World Sandra Halperin, 2018-09-05

In Marx's familiar dictum, the more developed country shows the less developed an image of its own future. Turning this idea upside down, *In the Mirror of the Third World* looks to the contemporary Third World for a reflection of European history. The resulting view challenges standard accounts of European social, economic, and political development. Sandra Halperin's analysis of the European experience begins where studies of Third World development often start: considering the legacies of colonial domination. Europe also had a colonial past, she reminds us, and the states of Europe like

those of today's Third World were the product of colonialism and imperialism. From this starting point Halperin traces features characteristic of Third World development through the history of European capitalism: enclave economies oriented to foreign markets, weak middle classes, alliances among the state, traditional landowning elites and new industrial classes, unstable and partial democracy, sharp inequalities and increasing poverty—all as much a part of European society on the eve of World War I as they are of developing countries today. Halperin also emphasizes the emergence of a militant literal religion in Europe and its critical role in the class struggles of the nineteenth century.

Understanding Leadership Robert M. McManus, Gamaliel Perruci, 2019-12-09

Laozi, Marx, the Buddha, Ibsen, Machiavelli—these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries. Yet the contemporary student of leadership often overlooks many of these names in favor of more recent theorists hailing from the social sciences. *Understanding Leadership: An Arts and Humanities Perspective* takes a different angle, employing the works of the great philosophers, authors, and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership. The authors build their conceptual framework using their Five Components of Leadership Model, which recognizes the leader, the followers, the goal, the context, and the cultural values and norms that make up the leadership process. Supporting the text are a wealth of case studies that reflect on works such as Ayn Rand's novella *Anthem*, Eugène Delacroix's painting *Liberty Leading the People*, Charlie Chaplin's film *Modern Times*, Athol Fugard's play *Master Harold and the Boys*, Laozi's poetic work *Dao De Jing*, and Antonín Dvořák's *New World Symphony*. The authors also introduce studies from various world cultures to emphasize the role that cultural values and norms play in leadership. This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world. *Understanding Leadership: An Arts and Humanities Perspective* will be a valuable resource for both undergraduate and postgraduate leadership students, while leadership professionals will also appreciate the book's unique liberal arts and cultural approach.

These Sad But Glorious Days Margaret Fuller, 1991-01-01

Margaret Fuller, journalist, critic, radical feminist, and political activist, traveled in Europe between 1846 and 1850 as a foreign correspondent for the *New York Tribune*. Her letters from England, France, and Italy, which began as engaging travel sketches, soon became moving accounts of the most widespread revolutionary upheaval within modern history. These dispatches are now reproduced in their entirety for the first time. Fuller met important political figures wherever she traveled, including those who became leaders in the revolutions and

she actively allied herself with the republican cause Her letters describe how from her apartment in Rome she saw the November 1848 attack on the Quirinal Palace which precipitated the Pope's flight from the city and the establishment of the Roman Republic headed by her friend Giuseppe Mazzi how she and the Romans who included her lover Giovanni Ossoli a captain in the Civic Guard suffered through the June 1849 siege and bombardment of Rome by the French army sent to restore the Pope and how as director of a hospital on Tiber Island she nursed the wounded who fell in the defense of the city The dispatches edited and annotated by Larry J Reynolds and Susan Belasco Smith are introduced by an essay explaining the historical and professional context in which the letters were written **A Guide to Intra-state Wars** Jeffrey S.

Syllabus of a Course of Eighty-seven Lectures on Modern European History (1600-1890) Henry Morse Stephens, 1899 *A History of Savoy* John Dormandy, 2018-08-17 Savoy and its Alps were for seven centuries an independent state at the centre of Europe separating France from the patchwork of principalities that made up Italy Merchants clerics pilgrims diplomats as well as privileged young Englishmen on the Grand Tour regularly used the Alpine passes But it was the need of European armies to cross Savoy which made its rulers powerful as the Gatekeepers of the Alps It allowed the Duchy of Savoy to prosper and survive when all the other great duchies of Burgundy Milan Provence and Dauphin disappeared at the end of the fifteenth century Savoy successfully resisted the pressure from Protestant Geneva on its doorstep but was the first country to succumb to the French Revolution By judiciously switching alliances during the European wars beginning at the end of the seventeenth century the House of Savoy finally gained a crown The conspiracy concocted by Napoleon III and Cavour led directly to the unification of Italy and the definitive annexation of Savoy to France in 1860 Simultaneously the Alps that had been the source of Savoy's power now became the source of its prosperity as a centre of tourism Masterman Ready, Or, The Wreck of the Pacific Frederick Marryat, 1887
