Rhetoric Of Midwifery:

The Rhetoric of Midwifery Mary M. Lay, 2000 What roles should midwives play within the US healthcare system Must they have certified degrees and be under the jurisdiction of a professional board Do notions of gender erect barriers between the medical professions This book attempts to answer many questions on the rhetoric of midwifery *The Rhetoric of Midwifery* Mary M. Lay, 2000 What roles should midwives play within our healthcare system Must they have certified degrees and be under the jurisdiction of a professional board Do notions of gender create competition and erect barriers between the medical professions The Rhetoric of Midwifery offers new insights into understanding these questions within the context of our present day medical system As a point of departure Mary M Lay analyzes the public discussion over non academically trained or direct entry midwives within Minnesota From 1991 1995 that state held public hearings about the possible licensing of traditional midwives Lay focuses on these debates to examine the complex relationships of power knowledge and gender within the medical profession Lay examines the hearings and provides a framework for appreciating the significance of these debates She also details the history of midwifery highlighting ongoing concerns that have surfaced ever since the profession was created centuries ago In the remaining chapters she focuses on the key testimonies offered during the debates Capturing the actual testimony of midwives home birth parents nurses physicians and attorneys The Rhetoric of Midwifery reveals how the modern medical profession seeks to claim authority about birth Lay bolsters her argument by culling from such sources such as historical documents an internet discussion group and conversations with modern midwives As our medical healthcare system continues to undergo convulsive change The Rhetoric of Midwifery will continue to enlighten challenge and inform

Liminal Bodies, Reproductive Health, and Feminist Rhetoric Lydia McDermott, 2016-06-22 Liminal Bodies Reproductive Health and Feminist Rhetoric posits rhetoric and gynecology as sister discourses While rhetoric has been historically concerned with the regulation of the productive male body gynecology has been concerned with the discipline of the female reproductive body Lydia M McDermott examines these sister discourses by tracing key narrative moments in the development of thought about sexed bodies and about rhetorical discourse from classical myth and natural philosophy to the eighteenth and nineteenth century decline of midwifery and the rise of scientific writing on the reproductive body Liminal Bodies offers a metaphorical method of invention and criticism sonogram that emphasizes the voices and bodies that have been left on the margins of the dominant histories of rhetoric

Writing Childbirth Kim Hensley Owens, 2015-06-24 Women seeking to express concerns about childbirth or to challenge institutionalized medicine by writing online birth plans or birth stories exercise rhetorical agency in undeniably feminist ways In *Writing Childbirth Women's Rhetorical Agency in Labor and Online* author Kim Hensley Owens explores how women create and use everyday rhetorics in planning for experiencing and writing about childbirth Drawing on medical texts popular advice books and online birth plans and birth stories as well as the results of a childbirth writing survey Owens considers how women's agency in childbirth is sanctioned and how it is not She examines how women's rhetorical choices in writing interact with institutionalized medicine and societal norms *Writing Childbirth* reveals the contradictory messages women receive about childbirth their conflicting expectations about it and how writing and technology contribute to and reconcile these messages and expectations Demonstrating the value of extending rhetorical investigations of health and medicine beyond patient physician interactions and the discourse of physicians *Writing Childbirth* offers fresh insight into feminist rhetorical agency and technology and expands our understanding of the rhetorics of health and medicine

The Rhetoric and Medicalization of Pregnancy and Childbirth in Horror Films Courtney Patrick-Weber,2020-06-15 In *The Rhetoric and Medicalization of Pregnancy and Childbirth in Horror Films* Courtney Patrick Weber argues that the medicalization of pregnancy and childbirth traumatizes pregnant people in a number of ways even as many people believe the shift toward medicalization has improved conditions for pregnant people Patrick Weber analyzes a selection of horror films including *The Void* and *Black Christmas* to demonstrate not only evidence of this trauma on a visceral level but also how horror films can reflect and contribute to cultural conversations surrounding pregnancy and childbirth While horror films are often neglected as vital sources of intellect and analysis many of these films use their subversive viewpoints on cultural issues to offer a unique perspective that can ultimately help to shape the way society views them Patrick Weber reminds us that pregnancy and childbirth can be traumatic events both physically and emotionally as she discusses the current conversations surrounding the issue and critiques the advancement of medicalization Scholars of film studies gender studies rhetoric and medicine may find this book particularly useful

The Art of Spiritual Midwifery Stephen Faller,2015-06-02 What comes after reflective listening What comes after the ministry of presence Spiritual midwifery is a powerful framework for offering pastoral care in today's fast paced environment Midwifery offers ways of thinking about those who are served the work itself and what it means to be a clinical caregiver within the tradition of the care of souls Spiritual midwifery has philosophical and spiritual roots that stem from the earliest seeds of Western thought even back to Jesus and Socrates Readers will find an inductive approach toward a conceptual model that offers insight for richer assessments and outcome oriented goals of care Part One sets out the metaphors of the midwife and the dialogue Part Two unpacks the methodology behind the mechanics Part Three looks at creative applications of midwifery and is followed by a Symposium patterned after Plato's own Symposium A rigorous theory remains at the center of the work but the tone is poetically balanced enough to invite the transformation of the spiritual caregiver From the philosophy of Heraclitus to the theology of Kierkegaard to the spiritual direction of Guenther *The Art of Spiritual Midwifery* brings forth a comprehensive conception of pastoral care and its delivery

Bounding Biomedicine Colleen Derkatch,2016-04-21 During the 1990s unprecedented numbers of Americans turned to complementary and alternative

medicine CAM an umbrella term encompassing health practices such as chiropractic energy healing herbal medicine homeopathy meditation naturopathy and traditional Chinese medicine By 1997 nearly half the US population was seeking CAM in one form or another spending at least 27 billion out of pocket annually on related products and services As CAM rose in popularity over the decade so did mainstream medicine's interest in understanding whether those practices actually worked and how Medical researchers devoted considerable effort to testing CAM interventions in clinical trials and medical educators scrambled to assist physicians in advising patients about CAM In *Bounding Biomedicine* Colleen Derkatch examines how the rhetorical discourse around the published research on this issue allowed the medical profession to maintain its position of privilege and prestige throughout this process even as its place at the top of the healthcare hierarchy appeared to be weakening Her research focuses on the ground breaking and somewhat controversial CAM themed issues of *The Journal of the American Medical Association* and its nine specialized Archives journals from 1998 demonstrating how these texts performed rhetorical boundary work for the medical profession As Derkatch reveals the question of how to test healthcare practices that don't fit easily or at all within mainstream Western medical frameworks sweeps us into the realm of medical knowledge making the research teams clinical trials and medical journals that determine which treatments are safe and effective and also out into the world where doctors meet patients illnesses find treatment and values practices policies and priorities intersect Through *Bounding Biomedicine* Derkatch shows exactly how narratives of medicine's entanglements with competing models of healthcare shape not only the historical episodes they narrate but also the very fabric of medical knowledge itself and how the medical profession is made and remade through its own discursive activity

Midwifery and the Medicalization of Childbirth Edwin R. Van Teijlingen, 2004 This book provides an introduction to the sociological study of midwifery The readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalization of childbirth It highlights the major themes in both a historical and a current context as well as western and non western societies Two major themes underlie the organization of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalization of midwifery is crucial to an understanding of the historical current and future status of midwifery By medicalization of childbirth and midwifery the author means the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one

Mothering Rhetorics Lynn O'Brien Hallstein, 2020-03-03 Once only a topic among women in the private sphere motherhood and mothering have become important intellectual topics across academic disciplines Even so no book has yet devoted a sustained look at how exploring mothering rhetorics the rhetorics of reproduction rhetorics about the reproductive function of women mothers and reproducing rhetorics the rhetorical reproduction of ideological systems and logics of contemporary culture expand our

understanding of mothering motherhood communication and gender Mothering Rhetorics begins to fill this gap for scholars and teachers interested in the study of mothering rhetorics in their historical and contemporary permutations The contributions explore the racialized rhetorical contexts of maternity how fixing food is thought to fix families while also regulating maternal activities and identity how Black female breastfeeding activists resisted the exploitation of African American mothers in Detroit how women in pink collar occupations both adhere to and challenge maternity leave discourses by rhetorically positioning their leaves as time off and disability identifying verbal and nonverbal shaming practices related to unwed motherhood during the mid twentieth century and redefining alternative postpartum placenta practices This book was originally published as a special issue of Women's Studies in Communication *Journal of the Association for Research on Mothering*, 2001 **Midwives, Research and Childbirth** Sarah Robinson, Ann M. Conversational Rhetoric Jane Donawerth, 2012 In *Conversational Rhetoric* Jane Donawerth traces the historical development of rhetorical theory by women for women studying the moments when women produced theory about the arts of communication in alternative genres humanist treatises and dialogues defenses of women's preaching conduct books and elocution handbooks *Masculine Pregnancies* Aimee Armande Wilson, 2023-12-01 Who is taken seriously as an artist What does gender have to do with it Is there a relationship between artistic creation and physical procreation In *Masculine Pregnancies* Aimee Armande Wilson argues that modernist writers used depictions of mannish pregnant women and metaphors of male pregnancy to answer these questions The book places masculine pregnancies in works by Djuna Barnes Willa Cather William Faulkner and Ezra Pound in the context of interwar debates about eugenics immigration midwifery and sexology in order to redefine the relationship between creativity and gender in modernism Attending to recent developments in queer theory Wilson challenges the critical assumption that figures of masculine pregnancy necessarily reinforce oppressive norms The book's first half shows how some writers indeed used such figures to delegitimize artists who were not white male and heterosexual The second half then shows how others used masculine pregnancies to extend legitimacy to mannish women dark skinned immigrants and their pro creations and did so a century before the current boom in queer pregnancy narratives **Feminist Rhetorical Theories** Karen A. Foss, Sonja K. Foss, Cindy L. Griffin, 1999-03-02 Providing fully developed rhetorical theories from feminist perspectives this book offers coherent systematic overviews of complex large bodies of work and ideas relevant to rhetoric and communication The book presents theories developed from the work of nine feminist theorists each from diverse standpoints demonstrating the diversity of both feminism and feminist rhetorical theories Chris Kramarae Bell Hooks Gloria Anzaldúa Mary Daly Starhawk Paula Gunn Allen Trinh T Minh ha Sally Miller Gearhart and Sonia Johnson The resulting theories differ substantially from traditional rhetorical theories and will encourage scholars to rethink many traditional rhetorical constructs
