See You When We Get There Teaching For Change In Urban Schools:

See You When We Get There Gregory Michie, 2004 *See You when We Get There* Gregory Michie, 2005 Gregory Michie's first bestseller *Holler If You Hear Me* put him on the map as a compelling and passionate voice in urban education. In his new book Michie turns his attention to young teachers of colour and once again provides readers with a unique and penetrating look inside public school classrooms. Featuring portraits of five young teachers—two African Americans, two Latinas, and one Asian American—who are working for change, Michie weaves the teachers' powerful voices with classroom vignettes and his own experiences. Along the way he examines what motivates and sustains these teachers as well as what they see as the challenges and possibilities of public education. In these times of national standards, high stakes accountability, and calls for reforming teacher education and preparation, *See You When We Get There* is essential reading.

Crossing Boundaries—Teaching and Learning with Urban Youth Valerie Kinloch, 2015-04-24 This is a book of stories told by adolescents and adults about teaching and learning. Puzzlement, wonder, curiosity, disruption, and distress mark the emotions of all the storytellers here. From the Foreword by Shirley Brice Heath, Stanford University, *Crossing Boundaries* is a must read for anyone interested in improving the academic achievements and enhancing the literacy practices of marginalized students. Beverly Moss, The Ohio State University: This book will shake the common and reshape the knowledge we have about the passion and potential of students in urban schools. JoBeth Allen, University of Georgia: In her new book, Valerie Kinloch, award-winning author of *Harlem on Our Minds*, sheds light on the ways urban youth engage in meaning-making experiences as a way to assert critical, creative, and highly sophisticated perspectives on teaching, learning, and survival. Kinloch rejects deficit models that have traditionally defined the literacy abilities of students of color, especially African American and Latino youth. In contrast, she crosses boundaries to listen to the voices of students attending high school in New York City's Harlem community. In *Crossing Boundaries*, Kinloch uses a critical teacher-researcher lens to propose new directions for youth literacies and achievements. The text features examples of classroom engagements, student writings, and presentations, discussions of texts and current events, and conversations on skills, process, achievement, and underachievement. Valerie Kinloch is an associate professor in literacy studies in the School of Teaching and Learning at The Ohio State University. Her other books are *Harlem on Our Minds*, *Place, Race, and the Literacies of Urban Youth*, and *Urban Literacies: Critical Perspectives on Language Learning and Community*. All royalties go to the Cultivating New Voices Among Scholars of Color grant and mentoring program sponsored through the National Council of Teachers of English.

Change(d) Agents Betty Achinstein, Rodney T. Ogawa, 2015-04-24 This book examines both the promises and complexities of racially and culturally diversifying today's teaching profession. Drawing from a 5-year study of the lives of 21 new teachers of color working in urban, hard-to-staff schools, this book documents the tensions these teachers experience between serving as role models and fulfilling district and state mandates.

[Learning to Liberate](#) Vajra Watson,2012-03-29 Few problems in education are as pressing as the severe

crisis in urban schools Though educators have tried a wide range of remedies dismal results persist This is especially true for low income youth of color who drop out of school and into incarceration at extremely high rates The dual calamity of underachievement in schools and violence in many communities across the country is often met with blame and cynicism and with a host of hurtful and unproductive quick fixes blaming educators pitting schools against each other turning solely to the private sector and ratcheting up the pressure on teachers and students But real change will not be possible until we shift our focus from finding fault to developing partnerships from documenting problems to discovering solutions Learning to Liberate does just that by presenting true and compelling community based approaches to school reform Drawing on over three years of ethnographic research Vajra Watson explores the complicated process of reaching and teaching today's students She reveals how four nontraditional educators successfully empower young people who have repeatedly been left behind Using portraiture a methodology rooted in vivid storytelling Watson analyzes each educator's specific teaching tactics Uncovering four distinct pedagogies of communication community compassion and commitment she then pulls together their key strategies to create a theoretically grounded framework that is both useful and effective A poignant insightful and practical analysis Learning to Liberate is a timely resource for all educators and youth serving practitioners who are committed to transforming at risk youth into at promise individuals who put their agency and potential into action in their schools and neighborhoods

Teaching with Conscience in an Imperfect World William Ayers, 2016-04-08 In this beautifully written little book Bill Ayers blends personal anecdotes with critique of the state of education He offers a plan to help educators policymakers and parents to stretch toward something new and dramatically better schools that are more joyful more balanced and more guided by the power of love

Spectacular Things Happen Along the Way Brian D. Schultz, 2018 This celebrated narrative shows how a teacher alongside his 5th grade students co created a curriculum based on the students needs interests and questions Follow Brian Schultz and his students from a Chicago housing project as they work together to develop an emergent and authentic curriculum based on what is most important to the 5th graders replacing their dilapidated school The persuasive storytelling that captured the attention of educators and the media depicts the journey of one teacher in an urban school and his students juxtaposed against the powerful and entrenched bureaucracy of Chicago's public education system In this second edition Schultz examines how school reform continues to fail students in urban contexts reflects on his teaching and writing from a decade ago and offers compelling updates on students and what became of the school A lot can be learned from the young people of Room 405 then and now Not only did these particular 5th graders push back against the city and school board in their pursuit for a better learning environment for themselves and their community but they also learned about the power of using their voices in purposeful ways We can only hope that educators will read the new edition and be inspired to make similar choices themselves From the Foreword by Pedro Noguera UCLA In this eagerly awaited second edition Schultz has reiterated what it means to be a courageous and caring teacher From the

Afterword by Sonia Nieto professor emerita University of Massachusetts Amherst A compelling read that continues to remind us how much a better world depends on our ability to foster learning and teaching experiences that nurture young people s capacity to think deeply Denise Taliaferro Baszile VP AERA Division B This second edition highlights the ongoing dismantling of urban public schools in the name of reform even while fueling our sense of possibility and hope Kevin Kumashiro author Bad Teacher **Deep Knowledge** Douglas B.
