Seeing And Being Seen Tourism In The American West:

All Aboard for Santa Fe Victoria E. Dye, 2007-01-16 How the Atchison Topeka and Santa Fe Railway Company contributed to the development of Southwest tourism *Seeing and Being Seen* David M. Wrobel, Patrick T. Long, 2001 You can see them cruising for Indian art in Santa Fe waiting for Old Faithful at Yellowstone or pausing for shrimp cocktails on San Francisco's Fisherman's Wharf The American West attracts vacationers of every stripe who comb its varied landscapes for the ultimate trip And for better or worse those who come to see this multifaceted region have changed what they have come to see *Seeing and Being Seen* explores the history of tourism in the American West and examines its effects on both the tourists and the places and people they visit Scholars from the humanities social sciences and business Patricia Nelson Limerick Hal Rothman and others join government and National Park Service professionals to investigate the dilemmas that tourism poses for western communities from economic and environmental questions to cultural change The selections are organized around three broad topics scholarly perceptions of tourism tourists and those toured upon tourism in its historical context including an assessment of its cultural impact on communities and on tourists themselves and the history and impact of tourism on the West's national parks with particular emphasis on efforts to maintain the delicate balance between natural preservation and public enjoyment These essays cover the span of tourism history from early twentieth century See America First campaigns to the problematic place of automobiles in national parks today They also pay special attention to policy choices that the growth of tourism sometimes forces on communities as towns try to bounce back from failed economies by capitalizing on an Old West image or even in the case of Kellogg Idaho Old Bavarian In response the authors offer suggestions by which communities can begin to make rational choices about the role and place of tourism in their lives *Seeing and Being Seen* is enlightening and necessary reading for scholars policy makers residents of the West and even tourists themselves **See America** Mordecai Lee, 2020-05-01 The first history of the US Travel Bureau which set the precedent for federal involvement in promoting tourism and travel an activity which continues today **How to Read the American West** William Wyckoff, 2014-05-01 From deserts to ghost towns from national forests to California bungalows many of the features of the western American landscape are well known to residents and travelers alike But in *How to Read the American West* William Wyckoff introduces readers anew to these familiar landscapes A geographer and an accomplished photographer Wyckoff offers a fresh perspective on the natural and human history of the American West and encourages readers to discover that history has shaped the places where people live work and visit This innovative field guide includes stories photographs maps and diagrams on a hundred landscape features across the American West Features are grouped according to type such as natural landscapes farms and ranches places of special cultural identity and cities and suburbs Unlike the geographic organization of a traditional guidebook Wyckoff's field guide draws attention to the connections and the differences between and among places Emphasizing features that recur from one part of the region to another the guide

takes readers on an exploration of the eleven western states with trips into their natural and cultural character How to Read the American West is an ideal traveling companion on the main roads and byways in the West providing unexpected insights into the landscapes you see out your car window It is also a wonderful source for armchair travelers and people who live in the West who want to learn more about the modern West how it came to be and how it may change in the years to come Showcasing the everyday alongside the exceptional Wyckoff demonstrates how asking new questions about the landscapes of the West can let us see our surroundings more clearly helping us make informed and thoughtful decisions about their stewardship in the twenty first century Watch the trailer <http://www.youtube.com/watch?v=aYSmp5gZ4I>

Branding the American West Marian Wardle, Sarah E. Boehme, 2016-02-17 Artists and filmmakers in the early twentieth century reshaped our vision of the American West In particular the Taos Society of Artists and the California based artist Maynard Dixon departed from the legendary depiction of the Wild West and fostered new images or brands for western art This volume illustrated with more than 150 images examines select paintings and films to demonstrate how these artists both enhanced and contradicted earlier representations of the West Prior to this period American art tended to portray the West as a wild frontier with untamed lands and peoples Renowned artists such as Henry Farny and Frederic Remington set their work in the past invoking an environment immersed in conflict and violence This trademark perspective began to change however when artists enamored with the Southwest stamped a new imprint on their paintings The contributors to this volume illuminate the complex ways in which early twentieth century artists as well as filmmakers evoked a southwestern environment not just suspended in time but also permanent rather than transient Yet as the authors also reveal these artists were not entirely immune to the siren call of the vanishing West and their portrayal of peaceful yet exotic Native Americans was an expansion rather than a dismissal of earlier tropes Both brands cast a romantic spell on the West and both have been seared into public consciousness Branding the American West is published in association with the Brigham Young University Museum of Art Provo Utah and the Stark Museum of Art Orange Texas

Selling British Columbia Michael Dawson, 2007-10-01 Selling British Columbia is an entertaining examination of the development of the tourist industry in British Columbia between 1890 and 1970 Michael Dawson argues that in order to understand the roots of the fully fledged consumer culture that emerged in Canada after the Second World War it is necessary to understand the connections between the 1930s 1940s and the postwar era Cultural producers such as tourism promoters and the state infrastructure played important roles in fostering consumer demand particularly during the

Depression the Second World War and throughout the postwar era Dawson draws upon promotional pamphlets newspapers advertisements and films as well as archival sources regarding government civic and international tourism organizations Central to his book is an examination of the representation of popular imagery and of how aboriginal and British cultures were commodified and marketed to potential tourists He also looks at the gendered aspect of these promotional campaigns particularly during the 1940s and challenges earlier interpretations regarding the relationship between tourism and nature in Canada Historians have tended to focus on either the first wave of consumerism from the 1880s to the 1920s or else on the era of economic expansion that followed World War Two As Dawson shows the 1930 45 period in particular was an important and dynamic one in the creation of Canadian and British Columbian consumer culture Michael Dawson's highly readable and engaging account of the development of the British Columbia tourist industry will be welcomed by British Columbian and Canadian historians as well as other scholars of tourism and consumerism
