Seeing The Text Exegesis For Students Of Greek And Hebrew:

Seeing the Text Mary H. Schertz, Perry B. Yoder, 2001 Seeing the Text integrates language study with theories and methods of interpretation The purpose of the book is to help students increase their facility with the biblical languages while at the same time incorporating exegetical and literary skills and methods The book thus not only provides a wider theoretical and methodological horizon for language study but also builds a solid text based foundation for further biblical studies Because it is increasingly the case that seminarians do not have the opportunity to study both Greek and Hebrew examples in both languages are included whenever possible to create a metalinguistic theoretical understanding The book is therefore designed and suitable for both intermediate Hebrew students and intermediate Greek students Finally the book includes suggestions for using the computer to facilitate language learning and exegetical work in order to help students develop the skills necessary to sustain their language skills with the aid of computer software when they are no longer engaged in formal study For further information about author Mary Schertz click here *Biblical Hermeneutics* Stanley E. The Oxford Handbook of the Bible and the Reformation Jennifer Powell McNutt, Herman J. Selderhuis, 2024-11-06 During the Reformation of the sixteenth century the role of the Bible in both Protestant and Roman Catholic branches of western Christianity was vital and complex Drawing on new technologies such as movable type this period saw extraordinary energy and enterprise put into the translation interpretation and publication of Christianity's sacred text As a result an increasingly broad section of the population from scholars and clergy to laity and children came to be involved in the reception of the Bible and its position in early modern religious expression The Oxford Handbook of the Bible and the Reformation provides readers with a deeper understanding of the expansive history of the Bible as it was shaped shared and received across Christian traditions Chapters explore the biblical canon translation and print the development of Reformation hermeneutics the history of Bible commentators and exegesis relating to key texts and theological themes of Reformation writing and discourse Engaging the subject broadly intricately and robustly the expertise of over fifty leading experts illuminates the early modern Bible's composition and position as scripture and from the Renaissance era on as a printed book By including the contributions of radical reformers Catholics and women scholars the Handbook presents a deep and wide ranging account of the importance of the Bible's reach and authority among all western Christians [A Guide to Biblical Commentaries and Reference Works, 11th Edition](#) John F. Bryan Beeckman, 2023-12-31 In 1946 Gillis Gerleman proposed a single translator for LXX Proverbs and LXX Job After he launched this hypothesis scholars have either confirmed or debunked this hypothesis Although attempts have been made to come up with an adequate answer to the question of a single translator for both Proverbs and Job scholars have thus far not reached consensus Moreover the attempts that have been made are not at all elaborate Thus the question remains unsolved This book tries to formulate an answer to the question of a single translator for both Proverbs and Job by examining the translation technique and theology of both books The translation technique of both books is analysed by examining the Greek rendering of Hebrew hapax legomena animal floral plant and herb names The theology is examined by looking at the pluses in the LXX version which contain and The results of these studies are compared with one another in order to formulate an answer to a single translator By doing so this book not only formulates an answer to a single translator for both LXX Proverbs and Job but also characterises their translation technique and theology in greater detail **The Divinity School** University of Chicago.
