

Alternative Politics, Political Alternatives, and Innovative Social Change in Nigeria

Being Text of a Keynote Address Delivered by HE Dr Kayode Fayemi, CON, at the Conference on Redesigning Democracy Held at the University of Oxford on Thursday 20 October, 2022.

Protocols

Let me first and foremost thank the organisers of this conference for the kind invitation extended to me to be part of the proceedings. In effect, this will be my first substantive engagement in the few days since I handed over the baton of leadership in Ekiti State and the Nigeria Governors' Forum. Although much more time is needed for me to process the totality of my experience for the purpose of informing our collective understanding of power and politics in contemporary Nigeria, and despite my urgent personal need for a quality holiday, I welcomed your invitation as an early opportunity to contribute to ongoing reflections about the need to rethink democracy generally and, more specifically, our framing of alternatives in the administration of public affairs in Nigeria and, indeed, around the world.

My point of departure is to suggest that while there is no doubt that alternatives are a necessary, and even an inevitable component, of any living political system, it is important that as scholars and practitioners, we strive also at all times to demystify them from the excessive air of drama and circumstance in which they tend to be wrapped in scholarly discourses. This is for the simple reason that alternatives exist and are mobilised everyday and at all levels as part of our experiences of governance. In other words, alternatives, understood generally as encompassing forward-looking vision and practice that depart from a dominant but problematic and/or contested norm, are an integral part of everyday politics - and, indeed, all spheres of human endeavour.

Although they are fired by an admixture of vision, passion, and necessity, and, in highly repressive political contexts, would require to be pursued with courage and sacrifice, alternatives are also played out simultaneously at multiple levels - micro, meso, and macro. Additionally, they are carried by different actors - big and small, formal and informal, and domestic and external. Alternatives also manifest and are

Seeing Beyond--personal, Social, and Political Alternatives, 1971 Catalog of Copyright Entries. Third Series
Library of Congress. Copyright Office, 1973 *Socialism the Active Utopia (Routledge Revivals)* Zygmunt
Bauman, 2009-11-18 Rather than contributing to the long standing discussion about the characteristics of the society that
socialism proposes to establish this Routledge Revival initially published in 1976 aims to explore the impact of the living
utopia of socialism on the development of modern society It begins with an analysis of the role of utopia in general and of the
socialist utopia in particular Bauman considers the opposition between utopian and scientific social thought He presents
socialism as the counter culture of capitalist society The book finally examines the reasons for the failure of socialism in its
application to the peasant revolution in Russia It then explores some possible forms that the socialist utopia might take in the
industrial societies of the late twentieth century Professor Bauman writes for those who want to understand the logic of the
historical fate of socialism in the present century who are concerned about the validity and vitality of socialist ideas on the
development of modern society and who are interested and perhaps confused by the cultural and ideological conflicts of the
last few decades **Societal Directions and Alternatives** Michael Marien, 1976 **Political Science and the Study of
the Future** Albert Somit, 1974 Encyclopedia of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2010-09-23
Consistently excellent The level and coverage of the content make this an invaluable reference for students studying
criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In
discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference
to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate
and integrate the reference However university reference librarians can tell you this is often far from the case Students often
approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who
what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop
source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both
print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary
criminological theory Drawing together a team of international scholars it examines the global landscape of all the key
theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses
In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a
handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and
figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy
implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology

in Health Care Ethics - Second Edition Elisabeth (Boetzkes) Gedge, Wilfrid J. Waluchow, 2012-03-14 Readings in Health Care Ethics provides a wide ranging selection of important and engaging contributions to the field of health care ethics The second edition adds a chapter on health care in Canada and the introduction has been expanded to include discussion of a new direction in feminist naturalized ethics The book presupposes no prior knowledge only an interest in the bioethical issues that are shaping our world Planning Alternative World Futures Louis René Beres, Harry R.
