Seeing Through God A Geophenomenology

Stephen D. Moore

Seeing Through God A Geophenomenology:

Seeing Through God John Llewelyn, 2004 Playing on the various meanings of Seeing Through God John Llewelyn explores the act of looking in the wake of the death of the transcendent God of metaphysics Taking up strategies developed by the Western sciences for seeing and observing he finds that the so called tough minded practices of the physical sciences are very much at home with the so called tender minded practices of Eastern religions Instead of opposing East and West Llewelyn thinks that blending these spheres leads to a better understanding of aesthetic experience and imagination In this blending he presents a phenomenological description of the imagination and the ethical and religious dimensions of the act of imagining Seeing Through God touches on themes of salvation the preservation of the environment and the role of God in our temptation to dishonor the earth This unique book presents Llewelyn as one of the leading interpreters of the environmental phenomenology movement A Non-Philosophical Theory of Nature A. Smith, 2013-07-18 Utilizing Fran ois Laruelle s non philosophical method Smith constructs a unified theory of philosophical theology and ecology by challenging environmental philosophy and theology claiming that and engagement with scientific ecology can radically change the standard metaphysics of nature as well as ethical problems related to the natural The Blue Sapphire of the Mind Douglas E. Christie, 2013 In The Blue Sapphire of the Mind Douglas E. **Place and Phenomenology** Janet Donohoe, 2017-03-17 This cross disciplinary book uses phenomenological method and description to explore questions of place underscoring the significance of phenomenology for place and place for phenomenology The book brings together prominent scholars in phenomenology of place Covering a range of issues from sacred places to embodiment and identity and from environmental art and architecture to limit places the contributors explore theoretical foundations through thinkers such as Heidegger Marion Young Husserl and Leopold among others Phenomenological method and description are brought to bear on concrete places such as rivers the Himalayas modern transit sacred architecture and more The book is accessible and pertinent to on going discussions in human geography architectural theory environmental studies and philosophy of place Provocative and imaginative the essays provide a much needed look at the contributions of phenomenology to as well as the role of place in contemporary philosophical and environmental discussions Divinanimality Stephen D. Moore, 2014-09-15 A turn to the animal is underway in the humanities most obviously in such fields as philosophy literary studies cultural studies and religious studies One important catalyst for this development has been the remarkable body of animal theory issuing from such thinkers as Jacques Derrida and Donna Haraway What might the resulting interdisciplinary field commonly termed animality studies mean for theology biblical studies and other cognate disciplines Is it possible to move from animal theory to creaturely theology This volume is the first full length attempt to grapple centrally with these questions It attempts to triangulate philosophical and theoretical reflections on animality and humanity with theological reflections on divinity If the animal human distinction is being rethought and retheorized as never before then the animal human divine distinctions need to be

rethought retheorized and retheologized along with it This is the task that the multidisciplinary team of theologians biblical scholars philosophers and historians assembled in this volume collectively undertakes They do so frequently with recourse to Derrida s animal philosophy and also with recourse to an eclectic range of other relevant thinkers such as Haraway Giorgio Agamben Emmanuel Levinas Gloria Anzaldua Helene Cixous A N Whitehead and Lynn White Jr The result is a volume that will be essential reading for religious studies audiences interested in ecological issues animality studies and posthumanism as well as for animality studies audiences interested in how constructions of the divine have informed constructions of the nonhuman animal through history

Margins of Religion John Llewelyn, 2008-12-17 Pursuing Jacques Derrida s reflections on the possibility of religion without religion John Llewelyn makes room for a sense of the religious that does not depend on the religions or traditional notions of God or gods Beginning with Derrida s statement that it was Kierkegaard to whom he remained most faithful Llewelyn reads Kant Hegel Nietzsche Feuerbach Heidegger Sartre Levinas Deleuze Marion as well as Kierkegaard and Derrida in original and compelling ways Llewelyn puts religiousness in vital touch with the struggles of the human condition finding religious space in the margins between the secular and the religions transcendence and immanence faith and knowledge affirmation and despair lucidity and madness This provocative and philosophically rich account shows why and where the religious matters

Consciousness, Reality and Value Pierfrancesco Basile, Leemon B. McHenry, 2013-05-02 Timothy Sprigge has been a major player on the philosophical scene contributing to discussions as diverse as consciousness the ontology of time personal identity animal rights punishment censorship and wider issues in metaphysics ethics and the history of philosophy He is however less well known for his own highly original system of metaphysics and ethics a synthesis of Absolute Idealism panpsychism and utilitarianism The contributions gathered in this volume written by philosophers of international reputation or by acknowledged scholars in their specialized fields of inquiry engage themes in his metaphysics and ethics and provide a critical assessment of his ideas and arguments In a concluding essay Sprigge answers the most significant objections raised by his critics the final result is an engaging dialogue on the perennial and most fundamental questions of philosophy

Rilke's Sonnets to Orpheus Hannah Vandegrift Eldridge, Luke Fischer, 2019 Written in three weeks of creative inspiration Rainer Maria Rilke s Sonnets to Orpheus 1923 is well known for its enigmatic power and lyrical intensity The essays in this volume forge a new path in illuminating the philosophical significance of this late masterpiece Contributions illustrate the unique character and importance of the Sonnets their philosophical import as well as their significant connections to the Duino Elegies completed in the same period The volume features eight essays by philosophers literary critics and Rilke scholars which approach a number of the central themes and motifs of the Sonnets as well as the significance of their formal and technical qualities An introductory essay co authored by the editors situates the book in the context of philosophical poetics the reception of Rilke as a philosophical poet and the place of the Sonnets in Rilke s oeuvre Above all this volume s premise is that an interdisciplinary approach to poetry and

more specifically to Rilke's Sonnets can facilitate crucial insights with the potential to expand the horizons of philosophy and criticism. Essays elucidate the relevance of the Sonnets to such wide-ranging topics as phenomenology and existentialism, hermeneutics and philosophy of language, philosophy of mythology, metaphysics, Modernist aesthetics, feminism, ecocriticism, animal ethics and the philosophy of technology.

Dictionary of Twentieth-Century British Philosophers Stuart Brown, 2005-06-01. This is a two-volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after. The entries deal with the whole philosophical work of an individual or, in the case of philosophers still living, their whole work to date. Typically the individuals included have been born by 1935 and by now have made their main contributions. Contributions to the subject typically take the form of books or journal articles, but influential teachers and people otherwise important in the world of philosophy may also be included. The dictionary includes amateurs as well as professional philosophers and, where appropriate, thinkers whose main discipline was outside philosophy. There are special problems about the term 'British' in the twentieth century, partly because of human migration, partly because of decolonialization and the changing denotation of the term. The intention has been to include not only those who were British subjects at least for a significant part of their lives, even if they mostly lived outside what is now the UK, but also people who spent a significant part of their lives in Britain itself, irrespective of their nationality or country of origin. In the first category are included, for instance, a number of people who were born and educated in Britain but who subsequently taught in universities abroad. In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture.

The Rigor of a Certain Inhumanity John Llewelyn, 2021-12-22. Focusing on the idea of universal suffrage, John Llewelyn accepts the challenge of Derrida's later thought to renew his focus on the ethical, political and religious dimensions of what makes us uniquely human. Llewelyn builds this concern on issues of representation, language, meaning and logic, with reflections on the phenomenological figures who informed Derrida's concept of deconstruction. By entering into dialogue with these philosophical traditions, Llewelyn demonstrates the range and depth of his own original thinking. *The Rigor of a Certain Inhumanity* is a rich and passionate, playful and perceptive work of philosophical analysis.
