Seeking Identity Individualism Versus Community In An Ethnic Context

Raymond Angelo Belliotti

Seeking Identity Individualism Versus Community In An Ethnic Context:

Seeking Identity Raymond A. Belliotti, 1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism

Individualism and Community

Raymond Angelo Belliotti, 2025-08-29 This book is a philosophical investigation of the concepts of honor and authenticity informed by the paradoxes of the individual community continuum To achieve this difficult balancing act the author refines our concepts of both honor and authenticity Raymond Angelo Belliotti begins by investigating honor as a moral and social framework analyzing its historical significance particularly within the Roman aristocracy and its portrayal in *The Godfather* He then turns to military honor codes exploring their ethical implications and challenges From there the discussion transitions to existentialist notions of authenticity as articulated by Nietzsche Kierkegaard Heidegger Sartre and Camus assessing both their insights and limitations Ultimately the work argues for a revised understanding of authenticity Marrying the notions of authenticity and honor the reader is offered a path toward living a more meaningful and purposeful life

The Routledge Companion to Identity and Consumption Ayalla Ruvió, Russell W. Belk, 2013 The *Routledge Companion to Identity and Consumption* introduces the reader to state of the art research written by the world's leading scholars regarding the interplay between identity and consumption With chapters discussing the theory research and practical implications of the relationships between identity and consumption including for example the way they change across our life span this book will be a valuable reference source for students and academics from a variety of disciplines

Extremist Mindsets and Strategies S. Clara Kim, 2021-06-11 Presenting an analysis of modern day extremism this book explores how any group of people or participants in a movement political ideological racial ethnonational religious or issue driven can adopt extremist mindsets if they believe their existence or interests are threatened Looking beyond fringe resistance groups already labeled as terrorists or subversives the author examines conventional organizations political parties religious groups corporations interest groups nation states police and the military that deploy extremist strategies to further their agendas Dynamics of mutual causation process between dominant and resistant extremist groups are explored including how resistant extremisms surface in response to oppressive and abusive measures advanced by the dominant groups to further their interests and maintain supremacy through systemic injustices as happens in slavery caste systems patriarchy colonialism autocracy exploitive capitalism and discrimination against minorities

Roman Philosophy and the Good Life Raymond A. Belliotti, 2009-01-01 Raymond Angelo Belliotti's *Roman Philosophy and the Good Life* provides an accessible picture of these major philosophical influences in Rome and details the crucial role they played during times of major social upheaval Belliotti

demonstrates the contemporary relevance of some of the philosophical issues faced by the Romans and offers ways in which today's society can learn from the Romans in our attempt to create meaningful lives

Values, Virtues, and Vices, Italian Style Raymond Angelo Belliotti, 2020-08-26 Values Virtues and Vices Italian Style illustrates the story of the evolution of Italian values virtues and vices is a narrative of longing exhilaration and devastation a journey of the spirit that all human beings necessarily undertake but navigate with varying degrees of success The lives of Caesar Dante Machiavelli and Garibaldi demonstrate how we can lead staunchly meaningful lives even within an inherently meaningless universe The ambition of this work is nothing more nothing less than entangling through a careful examination of the values virtues and vices of four famous historical figures a host of overlapping but distinct concepts such as pride honor justification excuse repentance and forgiveness that frame human existence Belliotti's objective is that by conducting such an interdisciplinary inquiry we might better position ourselves to craft our characters within the limitations enjoined by our cosmic circumstances As always however we must deliberate choose and act under conditions of inescapable uncertainty assume responsibility for the people we are becoming and hopefully depart the planet with honor and merited pride Along the way we might even magnify our link in the generational chain that defines our identity

Machiavelli's Secret Raymond Angelo Belliotti, 2015-08-31 The political statesman Machiavelli tells us must love his country more than his own soul Political leaders must often transgress clear moral principles using means that are typically wrong even horrifying What sort of inner life does a leader who uses evil well experience and endure The conventional view held by most scholars is that a Machiavellian statesman lacks any inwardness because Machiavelli did not delve into the state of mind one might find in a politician with dirty hands While such a leader would bask in his glory the argument goes we can only wonder at the condition of the soul they have presumably risked in discharging their duties In Machiavelli's Secret Raymond Angelo Belliotti uncovers a range of clues in Machiavelli's writings that when pieced together reveal that the Machiavellian hero most certainly has inwardness and is surely deeply affected by the evil means he must sometimes employ Belliotti not only reveals the nature of this internal condition but also provides a springboard for the possibility of Machiavelli's ideal statesman

The Godfather and Sicily Raymond Angelo Belliotti, 2021-07-01 In this interdisciplinary work Raymond Angelo Belliotti presents an interpretation of The Godfather as among other things a commentary on the transformation of personal identity within the Sicilian and Italian immigrant experience The book explores both the novel and the film sequence in terms of an existential conflict between two sets of values that offer competing visions of the world on the one hand a nineteenth century Sicilian perspective grounded in honor and the accumulation of power within a culturally specific family order and on the other a twentieth century American perspective that celebrates individualism and commercial success Analyzing concepts such as honor power will to power respect atonement repentance forgiveness and a meaningful life Belliotti applies these analyses to the cultural understandings transported to America by nineteenth century Italian

immigrants casting fresh light on Old World allegiances to l ordine della famiglia the family order la via vecchia the old way and the patriarchal ideal of uomo di pazienza the man of patience as well as the Sicilian code of honor The two sets of values Old World Sicilian and twentieth century American coalesce uneasily in the same cultural setting and their conflict is irresolvable

Italian Rebels Raymond Angelo Belliotti, 2022-12-13 This interdisciplinary work philosophically analyzes the role of positive duties in moral theory the efficacy of theocratic republicanism viable strategies for political revolutions the implications of an enduring Sicilian ethos and the profits and perils of the individual community continuum in service of distinctive interpretations of the lives and ideologies of Giuseppe Mazzini Antonio Gramsci and Salvatore Giuliano Il Risorgimento Italiano the national unification movement refers to the period from 1821 the initial unsuccessful Milanese and Piedmontese insurrections against Austria to 1870 the annexing of Rome into the Kingdom of Italy which itself was established in 1861 The movement and its aftermath hovered over the lives of the Genoese republican prophet of Italian liberation and unification the Sardinian communist political theorist imprisoned by The Black Shirts and the Sicilian separatist murdering and fighting for his life and the honor of his island By dissecting the lives and philosophies of Mazzini Gramsci and Giuliano by extracting moral political and existential lessons from their aspirations and enterprises by reflecting on their ideals from our divergent social context by evaluating their virtues and vices from a wider perspective we may confront the people that we are and reimagine the people we might become

Niccolo Machiavelli Raymond Angelo Belliotti, 2010-01-01 This book places Machiavelli in historical context but argues that his understanding of moral conflicts is well ahead of his time Instead of arguing for the autonomy of politics as is commonly supposed Machiavelli grapples with the special problems of role differentiated morality where the duties of public office often conflict with the demands of conventional morality
