Seeking Sanctuary:

The Mystery of the Cross Judith Couchman, 2010-03-05 Christianity is a religion founded on the mystery of the cross of Christ. At the center of Christianity sits the cross of Christ. From the beginning, Christ's followers celebrated the cross as a symbol of their faith. It was honored in church worship, carved into rough tombstones, pressed onto loaves of bread, and set out as a sign of sanctuary. The cross represented what Christians believed, who they hoped for, and how they approached life. In this thoughtful book, Judith Couchman takes up forty images of the cross from early Christianity. As we discover the meaning and significance of each of these uses, we learn a little more about the early church. More than that, she helps us focus on the meaning of the cross and the Savior's sacrifice. Ideal for Lenten devotional reading and appropriate for any season of the church calendar, this book includes original illustrations of each cross image. **The Mystery of the Cross** will enrich your understanding of Christian tradition and draw you into Christ's presence. **Activist Feminist Geographies**

Kate Boyer, LaToya E. Eaves, Jennifer Fluri, 2025-01-21 Exploring what it means to enact feminist geography, this book brings together contemporary cutting-edge cases of social justice activism and collaborative research with activists. From Black feminist organizing in the American South to the stories of feminist geography collectives in Latin America, the editors present contemporary case studies from the global north and south. The chapters showcase the strength and vibrancy of activist-engaged scholarship taking place in the field and serve as a call to action, exploring how this work advances real-world efforts to fight injustice and re-make the world as a fairer, more equitable, and more accepting place. **A Tolerant Nation?**, 2015-03-15 Combines historical and contemporary material. Draws on historical, sociological, cultural, and literary approaches. Full revised and up-to-date edition of a classic book in the field. Covers the whole field in one volume.

Asylum-Seeking, Migration and Church Susanna Snyder, 2016-04-15 *Asylum Seeking, Migration and Church* addresses one of the most pressing issues confronting contemporary society: How are we to engage with migrants? Drawing on studies of church engagement with asylum seekers in the UK and critical immigration and refugee issues in North America, Snyder presents an extended theological reflection on both the issue of asylum seeking and the fears of established populations surrounding immigration. This book outlines ways in which churches are currently supporting asylum seekers, encouraging closer engagement with people seen as 'other' and more thoughtful responses to newcomers. Creatively exploring biblical and theological traditions surrounding the stranger, Snyder argues that, as well as practising a vision of inclusive community, churches would do well to engage with established population fears. Trends in global migration and the dynamics of fear and hostility surrounding immigration are critically and creatively explored throughout the book. Inviting more complex, nuanced responses to asylum seekers and immigrants, this book offers invaluable insights to those interested in Christian ethics, practical theology, social work, mission, and faith and social action, as well as those working in the field of migration. **A Just Church** Chris Howson, 2011-02-17 What does liberation theology actually look like in 21st-century Britain? How can the

Church respond faithfully to issues like war climate change and vast global inequalities A fresh expression church in the centre of Bradford has explored these questions through radical forms of worship non violent direct action for example physically resisting the unjust detentions of asylum seekers and experimenting with new ways of being community that help to build the reign of God Church members have been arrested come under the scrutiny of security forces and been super glued together at the gates of hell aka Aldermaston Atomic Weapons Establishment This is their story their successes and disasters and their modelling of a new version of the Action Reflection cycle called EARS Education Action Reflection Sustaining aimed at helping other Christians to evolve their own way of thinking growing and demonstrating the relevance of Church in today s contexts

The Late Medieval English Church G.W. Bernard, 2012-06-26 The later medieval English church is invariably viewed through the

lens of the Reformation that transformed it But in this bold and provocative book historian George Bernard examines it on its own terms revealing a church with vibrant faith and great energy but also with weaknesses that reforming bishops worked to overcome Bernard emphasizes royal control over the church He examines the challenges facing bishops and clergy and assesses the depth of lay knowledge and understanding of the teachings of the church highlighting the practice of pilgrimage He reconsiders anti clerical sentiment and the extent and significance of heresy He shows that the Reformation was not inevitable the late medieval church was much too full of vitality But Bernard also argues that alongside that vitality and often closely linked to it were vulnerabilities that made the break with Rome and the dissolution of the monasteries possible The result is a thought provoking study of a church and society in transformation **Wordy-Smith** Linda Varsell
