

G. W. F. Hegel

HEGEL'S LIFE AND WORKS

G. W. F. Hegel was born in Stuttgart in 1770.¹ While attending the University of Tübingen, he became close friends with major figures of the German Romantic movement, including the poet Friedrich Hölderlin and the philosopher Friedrich Wilhelm Schelling. After University, he secured a position as a tutor in a private household, before beginning to teach philosophy at the University of Jena. Hegel was on the verge of completing his first major work, *Phenomenology of Spirit*, in 1807, when Napoleon smashed the armies of Prussia at the Battle of Jena, thereby putting an end to the Holy Roman Empire, which dated back a thousand years to the time of Charlemagne. With the University closed, as Napoleon occupied the city, Hegel left Jena and was forced to edit a newspaper for a year before securing a position as rector of a boys' school in Nuremberg. He remained in this position until 1816, when he received a professorship in philosophy at the University of Heidelberg. His most important work during this period was his *Logic*, published in 1812–1813. At Heidelberg he published his *Encyclopedia*, before moving to the University of Berlin, in 1818, where he remained for the rest of his life. *Philosophy of Right* (1821), the most important work published during this period, is Hegel's main work in political philosophy and the last book published during his lifetime. While at Berlin, Hegel was generally viewed as the greatest philosopher in Germany. For reasons we will discuss, *Philosophy of Right* was widely considered the all but official political philosophy of the Prussian state.

The two works on which we will concentrate in this chapter are *Philosophy of Right* and *Lectures on the Philosophy of World History*, which was assembled from Hegel's lecture notes and some taken by students who attended his

¹ For biographical information, I follow T. Pinkard, *Hegel: A Biography* (Cambridge, 2001) and W. Kaufmann, *Hegel: A Reinterpretation* (Garden City, NY, 1965); these works are cited in the text by author's name.
