

A dark, atmospheric photograph of an outdoor basketball court at dusk. Several players are visible on the court, their forms silhouetted against the dim light. A basketball is suspended in the air near the hoop. The background is filled with tall palm trees and a distant building with a domed roof. The overall mood is quiet yet active.

**Winning Basketball Fundamentals** Lee Rose, 2012-09-21. Lee Rose has been one of basketball's most knowledgeable and respected coaches over the past 50 years at the high school, college, and professional levels. *Winning Basketball Fundamentals* presents his proven program for success, the same one he used in taking teams from two different colleges to the Final Four. From offense to defense to transition play and special situations, Rose covers every tactical facet of the game and adds his insights for improving execution in each. He presents popular offensive systems: the Triangle, LA Flex, Dribble Drive and Motion, as well as man to man and zone defensive schemes with suggestions for when and how to deploy and adjust them. Rose also teaches all the essential individual skills required for performing those tactics proficiently and consistently, with special tips for executing when the game is on the line. Perimeter and post specific instruction and drills will help players build on their skills through practice. Coach Rose also shares his Performance Rating System, a tool he's used time and again to develop some of the game's top players. Rose explains not only how to identify strengths and weaknesses but also how to use that information to maximize the potential of individual players and the team. Flashy and fluke plays might be fun to watch but you can't build a successful season or career on them. *Winning Basketball Fundamentals* is the proven formula for developing the solid individual skills and team tactics you can count on game after game.

Bringing Fieldwork Back In Elijah Anderson, 2012-06-21. In 2001 the first of a series of ethnographic conferences took place in Los Angeles with an emphasis on fieldwork. Since then the field has gained a much larger disciplinary footprint. While the increase in substantial research in the field has risen dramatically, ethnographic styles of writing have emerged that fail to include much discernible fieldwork. This volume of *The Annals* broaches the subject of improving fieldwork in the ethnographic spectrum through old-fashioned or shoe-leather fieldwork. At a more recent ethnographic conference at Yale University in 2010 with a follow-up in June 2011, emerging ethnographers were mentored by senior scholars in which they presented an informal yet supportive setting where ethnographic fieldwork could be constructively critiqued. This volume is a product of those collective efforts. The articles in this volume include insight into relations among affluent minorities, the status system we find in today's sports, and a portrait of an employer of undocumented workers among other articles. This volume will appeal to both undergraduate and graduate students with a wide range of interests including sociology, education, anthropology, and race.
