

# MORAL RELATIVISM

Moral relativism is a view that rejects the existence of any objective, absolute or universal moral truths that govern our morality.

## EXAMPLE: TAX AVOIDANCE

Tax avoidance isn't technically illegal. So here, we have a moral relativist debate:

- Some people believe that we all need to pay taxes in good faith for the good of society.
- Other people look at the government as the people who are engaging in morally outrageous behavior. How dare they take 40% of my income every week!

## EXAMPLE: WEALTH

During the reformation, the Catholics and Protestants had competing views on whether it's moral to pursue personal wealth:

- The Catholics believed that the pursuit of wealth was a sign of worshiping money over God.
- The protestants believed working hard was good and becoming wealthy was a sign of blessings from God for your hard work.

*The Moral Philosophy of Bernard Williams* Chris Herrera, Alexandra Perry, 2014-08-11 Bernard Williams (1929–2003) is one of the most influential philosophers of the past 100 years, with work ranging from meta-ethics to philosophy of mind to reflections on pop culture. Williams wrote with a deep sensitivity to the limitations in our knowledge and an optimistic outlook on the prospects that we have, nonetheless, for social and moral progress. If Williams was right, we still have much to learn from the Classical world, and much of the responsibility that intellectuals have relates to the need to interpret and apply that knowledge. But Williams was not stuck in the past, and he did not advocate a rejection of science or modernity. Instead, Williams argued that there is often more knowledge around us than we realize, and more opportunity than we realize for refinements in our basic ideas about persons, ethics, and politics. This anthology showcases some of the best and most recent work from scholars working through some of the problems that

Williams identified As Williams might have expected there is a great deal of disagreement on selected points and even on the particular approach used But in their commitment to a reflective and always somewhat skeptical outlook the authors here continue a tradition that Williams felt was vital **Contemporary Debates in Metaphysics** Theodore Sider, John Hawthorne, Dean W. S. I. Jenkins and Michael Devitt The A Posteriori Richard Fumerton and Nicholas Silins The Regress of Justification Declan Smithies and Peter Klein Skepticism Anthony Brueckner and Ernest Sosa Ram Neta's introduction to the volume descriptions of each chapter annotated bibliographies for each controversy and supplemental guide to further controversies in epistemology with bibliographies help provide clearer and richer views of active controversies for all readers **The Bloomsbury Companion to Metaphysics** Neil A.
