Nonlinear Dynamics And Unemployment Theory

Dynamische Wirtschaftstheorie Band 16

SA Adler

Nonlinear Dynamics And Unemployment Theory Dynamische Wirtschaftstheorie Band 16:

Nonlinear Dynamics and Unemployment Theory Boe Thio, 1994 This book attempts to integrate two lines of research It joins the tradition of nonlinear macrodynamic models of cyclical growth in particular the Goodwin Kaldor Phillips type models of persistent fluctuations and limit cycles Capital deepening and capital widening investment is introduced into models of cyclical growth This approach is combined with recent neo Keynesian analysis of wage price formation and unemployment theory Unemployment is decomposed in terms of demand deficiencies job shortages and the impact of capital labor substitution In this way a dynamic analysis of unemployment in terms of Classical Keynesian and technological elements is obtained It is shown that different components of unemployment can display their own cyclical frequencies and patterns In this way the typical long and short term cyclical behavior of unemployment is simulated by an integrated nonlinear model of persistent growth cycles

The Generation of Business Fluctuations Corrado Di Guilmi, 2008 The limits imposed on economic modeling by the representative agent hypothesis have prevented dynamic analysis from fully exploring the links between the micro and macro level of the economic system This book presents developments and applications of the innovative techniques of dynamic stochastic aggregation first proposed by Masanao Aoki through an implementation in a New Keynesian financial fragility framework The introduction in macroeconomics of statistical mechanics tools such as mean field interaction statistical entropy and master equation constitutes a step toward a new definition of microfoundation and allows an integrated modeling of the relationships between micro financial variables and aggregate indicators

Journal of Economic Literature, 1995

Real and Financial Dynamics in a Macroeconomic Growth Model with Endogenous Cycles Eleonora Cavallaro, 1999 This book provides an analysis of the endogenous mechanisms that govern the dynamic processes in capitalist economies A nonlinear IS LM version of a macromodel is developed in which real and financial feedback mechanisms lead to income distribution employment dynamics along with fluctuations in aggregate demand and the capacity utilisation rate Emphasis is placed on the relevance of demand constraints in firms pricing strategies within the context of imperfectly competitive markets and its implications for the dynamics of income distribution in the cyclical process The financial mechanisms appear in terms of the effects of the endogenous liquidity creation process on the dynamics of firms indebtedness The stress is on the two fold nature of finance it supports the accumulation process and enhances growth and yet it can lead to financial fragility and act as a source of systemic instability

Prognose der Konjunkturentwicklung durch evolutionäre Verfahren der Informatik Adam Spalek, 2010 Eine der zentralen Problemfelder der Konometrie ist die Prognose und Prognostizierbarkeit von makroökonomischen Zeitreihen durch geeignete Prognosemodelle Diese Arbeit beschreibt eine Lösung mit evolutionären Verfahren ein makroökonomisches Modell aus einer a priori festgelegten Datenmenge an relevanten makroökonomischen Zeitreihen zu induzieren und dieses sinnvoll für makroökonomische Prognosen zu verwenden Es handelt sich um ein evolutionäres Konzept eines konometrischen Verfahrens

wie Hypothesen über empirische Befunde auf evolutionärem Weg entstehen und wie solche Theorien in einem Wettbewerbsrahmen zu differenzierten Lösungen für ein Prognoseproblem evolvieren. Hierzu wird gezeigt, dass Theorien und ihre Genese ein Ergebnis zahlreicher evolutionärer heuristischer und analytischer Operatoren sind. Die Umsetzung erfolgt abschließend in einer softwarebasierten Simulation.

The Nonlinear Dynamics of Output and Unemployment in the US
 Filippo Altissimo, Giovanni L. Violante, 2000 *Testing for nonlinear dynamics in historical unemployment series* Giōrgos Alogoskouphēs, Thanasis Stengos, 1991 **Testing for Nonlinear Dynamics in Historical Unemployment Series** George S.
