Powell Of The Colorado By Darrah William:

Powell of the Colorado, by William Culp Darrah William Culp Darrah, 1951 **Explorers of the American West** Jay H. Buckley, Jeffery D. Nokes, 2016-03-28 With original primary source documents this anthology brings readers into the vast unknown 19th century American West through the eyes of the explorers who saw it for the first time This volume brings together book excerpts maps and illustrations from 12 explorers from the 19th century highlighting their lives and contributions Arranged chronologically the 10 chapters focus on individual explorers with biographies and background information about and document excerpts from each person The chapters offer analyses of each document s relevance to the historical period geographic knowledge and cultural perspective This guide shares the important contributions from explorers like Lewis and Clark Zebulon Pike Jedediah Smith James P Beckwourth John C Fremont Susan Magoffin and John Wesley Powell It also nurtures readers historical literacy by modeling historians methods of analyzing primary sources Readers will see new and familiar events from different perspectives including that of a woman traveling along the Santa Fe Trail one of the most famous African American mountain men and a Civil War veteran among many others *A Word for Nature* Robert L. Dorman, 2000-11-09 The careers and ideas of four figures of monumental importance in the history of American conservation George Perkins Marsh Henry David Thoreau John Muir and John Wesley Powell are explored in *A Word for Nature* Robert Dorman offers lively portraits of each of these early environmental advocates who witnessed firsthand the impact of economic expansion and industrial revolution on fragile landscapes from the forests of New England to the mountains of the West By examining the nineteenth century world in which the four men lived its society economy politics and culture Dorman sheds light on the roots of American environmentalism He provides an overview of the early decades of both resource conservation and wilderness preservation discussing how Marsh Thoreau Muir and Powell helped define the issues that began changing the nation s attitudes toward its environment by the early twentieth century Dorman s readings of works including Marsh s *Man and Nature* Thoreau s *The Maine Woods* Muir s *The Mountains of California* and Powell s *Report on the Lands of the Arid Region* reveal their authors influence on environmental thought and politics even up to the present day **Utah Historians and the Reconstruction of Western History** Gary Topping, 2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain

Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship

Congress Vs. the Bureaucracy Mordecai Lee, 2012-09-13 Government bureaucracy is something Americans have long loved to hate Yet despite this general antipathy some federal agencies have been wildly successful in cultivating the people s favor Take for instance the U S Forest Service and its still popular Smokey Bear campaign The agency early on gained a foothold in the public s esteem when President Theodore Roosevelt championed its conservation policies and Forest Service press releases led to favorable coverage and further goodwill Congress has rarely approved of such bureaucratic independence In Congress vs the Bureaucracy political scientist Mordecai Lee who has served as a legislative assistant on Capitol Hill and as a state senator explores a century of congressional efforts to prevent

government agencies from gaining support for their initiatives by communicating directly with the public Through detailed case studies Lee shows how federal agencies have used increasingly sophisticated publicity techniques to muster support for their activities while Congress has passed laws to counter those PR efforts The author first traces congressional resistance to Roosevelt s campaigns to rally popular support for the Panama Canal project then discusses the Forest Service the War Department the Census Bureau and the Department of Agriculture Lee s analysis of more recent legislative bans on agency publicity in the George W Bush administration reveals that political battles over PR persist to this day Ultimately despite Congress s attempts to muzzle agency public relations the bureaucracy usually wins Opponents of agency PR have traditionally condemned it as propaganda a sign of a mushrooming self serving bureaucracy and a waste of taxpayer dollars For government agencies though communication with the public is crucial to implementing their missions and surviving In Congress vs the Bureaucracy Lee argues these conflicts are in fact healthy for America They reflect a struggle for autonomy that shows our government s system of checks and balances to be alive and working well *Pathways of Power* Eric R. Wolf, Sydel Silverman, 2001-01-03 This collection of essays was devised by the author to study how anthropology brought the study of complex societies and world systems in to its purview Geological Survey Bulletin ,1972
