Protecting Human Rights Tom Campbell, Jeffrey Denys Goldsworthy, Adrienne Sarah Ackary Stone, 2003 Conceptual boundaries and functions of human rights **Protecting Rights Without a Bill of Rights** Jeffrey Goldsworthy, Tom Campbell, Adrienne Stone, 2017-11-30 Australia is now the only major Anglophone country that has not adopted a Bill of Rights Since 1982 Canada New Zealand and the UK have all adopted either constitutional or statutory bills of rights Australia however continues to rely on common law statutes dealing with specific issues such as racial and sexual discrimination a generally tolerant society and a vibrant democracy This book focuses on the protection of human rights in Australia and includes international perspectives for the purpose of comparison and it provides an examination of how well Australian institutions governments legislatures courts and tribunals have performed in protecting human rights in the absence of a Bill of Rights **The EU and Human Rights** Philip Alston, Mara R. Bustelo, James Heenan, 1999 For all its achievements in integrating Europe the EU lacks a human rights policy which is coherent balanced and professionally administered Whether in relation to access to Community justice sex equality race and disability discrimination or policing or in its external policies from Kosovo to China the Union needs new principles procedures and institutions to design and implement an effective set of human rights policies The introduction of a single currency the problems of racism and xenophobia the need for a humane refugee policy the growing powers of the EU in many fields and the Unions imminent eastward expansion all make it urgent to adopt such policies In this volume the leading experts in the field including individuals from every EU country provide an insightful critique of current policies and detailed recommendations for the future The volume includes comprehensive analyses of the competencies of the EU in human rights access to justice the Third Pillar **The United Nations System for Protecting Human Rights** Dinah L. Ramcharan, 2005-06-01 One of the more promising developments in global efforts to uphold human rights over the past decade has been the growing role of national human rights institutions A role for national institutions was foreseen by the United Nations Economic and Social Council as early as 1946 and since the adoption of the Universal Declaration of Human Rights in 1948 the Commission on Human Rights and the United Nations Secretariat have sought to promote the role of such institutions This volume offers a wealth of information on the protection functions of existing national human rights institutions in a wide selection of countries drawn from Asia Africa Europe Latin America and Oceania These essays together make clear the genuine striving by national human rights commissions to act for the protection of human rights in the countries they serve and the variety of protection models that can and are being adopted both in

developed and developing countries **An Institutional Approach to the Responsibility to Protect** Gentian Zyberi, 2013-06-27 Covering the main political organs of the UN important regional and security organizations international judicial institutions and the regional human rights protection systems An Institutional Approach to the Responsibility to Protect examines the roles and responsibilities of the international community regarding the responsibility to protect It also proposes improvements to the current system of collective security and human rights protection **A Global Handbook on National Human Rights Protection Systems** Bertrand G. Ramcharan, Gianni Magazzeni, Mona M'Bikay, Inès French, 2023-09-29 The human rights movement strives to develop a universal culture of human rights in all societies as well as to confront gross violations This book the first ever of its kind is a veritable State of the World Report on Human Rights It reproduces summaries by UN High Commissioners for Human Rights on the state of the national human rights protection systems of each UN Member State These summaries were sent following each state's passage through the Universal Periodic Review UPR process of the UN Human Rights Council The summaries identify each state's constitutional legal judicial and institutional architecture international conventions not yet ratified areas of progress problem areas and problems affecting different parts of the population The High Commissioners summaries reproduced here are preceded by insightful reflections on the concept of a national human rights protection system and by regional outlines of national human rights protection systems in the Americas and the Caribbean Europe Africa Asia and the Pacific The book also contains some case studies of the national human rights protection systems of sample states such as Australia Bhutan Brazil Canada Democratic Republic of the Congo Guyana Portugal Switzerland Sweden and South Africa Sri Lanka, Human Rights and the United Nations Tamil Venthan Ananthavinayagan, 2019-04-30 This book examines the engagement between the United Nations human rights machinery and the respective governments since Sri Lanka then Ceylon joined the United Nations Sri Lanka has a long and rich history of engagement with international human rights instruments However despite its active membership in the UN the country's post colonial trials and tribulations are emblematic of the limited influence the international organisation has exerted on this country in the Global South Assessing the impact of this international engagement on the country's human rights infrastructure and situation the book outlines Sri Lanka's colonial and post colonial development It then considers the development of a domestic human rights infrastructure in the country It also examines and analyzes Sri Lanka's engagement with the UN's treaty based and charter based human rights bodies before offering conclusions concerning the impact of said engagement The book offers an innovative approach to gauging the impact of international human rights engagement while also taking into account the colonial and post colonial imperatives that have partly dictated governmental behaviour By doing so the book seeks to combine and analyse international human rights law post colonial critique studies on biopower and critical approaches to international law It will be a useful resource not only for scholars of international law but also for practitioners and activists working in this area *Australia's Human Rights Scrutiny Regime* Adam

Fletcher, 2018-09-17 In 2010 the Australian Government decided that it would not propose a Human Rights Act despite the relevant recommendation of the 2008 09 National Human Rights Consultation. Instead it introduced a Human Rights Framework comprising several measures to enhance human rights protection including the Human Rights Parliamentary Scrutiny Act 2011. The scrutiny regime under that Act was designed to ensure rights would be given due consideration before Commonwealth legislation was passed. The Act created a unique bipartite dialogue system involving a formal interchange on rights compatibility between the executive and Parliament while excluding the courts. This set the Commonwealth apart from jurisdictions such as the ACT, Victoria, New Zealand and the UK which have statutory rights instruments administered by their courts. The book presents a detailed study of all aspects of the scrutiny regime and compares the regime with its closest counterparts overseas. In assessing the regime's impact it argues that a system in which the executive and Parliament are responsible both for protecting rights and for remedying rights breaches is neither more legitimate nor more effective than one involving all three branches of government. Accordingly it calls for strengthening reforms.

International Economic Actors and Human Rights Adam McBeth, 2009-09-28 In noting that the actions of entities other than states in the economic arena can and often do have a profound effect on human rights, this book poses the question as to how international human rights law can and should address that situation. This book takes three very different categories of international actor: the World Trade Organization, the international financial institutions (World Bank and IMF) and multinational enterprises, and analyses the interaction of each category with human rights in each case, analysing the interaction of the different fields of law and seeking to identify a role for international human rights law. Adam McBeth concludes that each of the selected international economic actors can and should be considered to operate within a holistic system of international law including human rights obligations, but that changes in the operations and the accountability mechanisms for each actor are necessary for the practical implementation of that approach. While written from a human rights perspective, the underlying theme of the book is one of engagement and harmonisation rather than condemnation. It provides valuable insight for those who approach this topic from a background of international trade law, commercial law or general international law, just as much as those who have a human rights background. *International Economic Actors and Human Rights* will be of great interest to those studying or working in any field of international economic law as well as human rights scholars and practitioners.

international body *Mental Health and Human Rights* Michael Dudley, Derrick Silove, Fran Gale, 2012-06-21 Mental disorders are ubiquitous profoundly disabling and people suffering from them frequently endure the worst conditions of life In recent decades both mental health and human rights have emerged as areas of practice inquiry national policy making and shared international concern Human rights monitoring and reporting are core features of public administration in most countries and human rights law has burgeoned Mental health also enjoys a new dignity in scholarship international discussions and programs mass media coverage and political debate Today's experts insist that it impacts on every aspect of health and human well being and so becomes essential to achieving human rights It is remarkable however that the struggle for human rights over the past two centuries largely bypassed the plight of those with mental disabilities Mental health is frequently absent from routine health and social policy making and research and from many global health initiatives for example the Millenium Development Goals Yet the impact of mental disorder is profound not least when combined with poverty mass trauma and social disruption as in many poorer countries Stigma is widespread and mental disorders frequently go unnoticed and untreated Even in settings where mental health has attracted attention and services have undergone reform resources are typically scarce inequitably distributed and inefficiently deployed Social inclusion of those with psychosocial disabilities languishes as a distant ideal In practice therefore the international community still tends to prioritise human rights while largely ignoring mental health which remains in the shadow of physical health programs Yet not only do persons with mental disorders suffer deprivations of human rights but violations of human rights are now recognized as a major cause of mental disorder a pattern that indicates how inextricably linked are the two domains This volume offers the first attempt at a comprehensive survey of the key aspects of this interrelationship It examines the crucial relationships and histories of mental health and human rights and their interconnections with law culture ethnicity class economics neuro biology and stigma It investigates the responsibilities of states in securing the rights of those with mental disabilities the predicaments of vulnerable groups and the challenge of promoting and protecting mental health In this wide ranging analysis many themes recur for example the enormous mental health burdens caused by war and social conflicts the need to include mental health interventions in humanitarian programs in a manner that does not undermine traditional healing and recovery processes of indigenous peoples and the imperative to reduce gender based violence and inequities It particularly focuses on the first person narratives of mental health consumers their families and carers the collective voices that invite a major shift in vision and praxis The book will be valuable for mental health and helping professionals lawyers philosophers human rights workers and their organisations the UN and other international agencies social scientists representatives of government teachers religious professionals researchers and policy makers **Parliaments as Peacebuilders in Conflict-affected Countries** Mitchell O'Brien, Rick Stapenhurst, Niall Johnston, 2008-01-01 The changing nature of conflict and the increase in intrastate conflict during the 1990s followed by its slow decline since the turn of the

century have led to changing priorities in the field of conflict resolution No longer is the international community solely concerned with resolving existing conflicts it also is managing emerging conflicts to ensure that they do not flare into violent conflict This book outlines some of the strategies parliaments and parliamentarians can adopt to reduce the incidence of conflict and effectively manage conflict when it does emerge It is hoped that by **Asian Yearbook of International Law, Volume 16 (2010)** Kevin YL Tan,2013-05-09 Launched in 1991 the Asian Yearbook of International Law is a major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea When it was launched the Yearbook was the first publication of its kind edited by a team of leading international law scholars from across Asia It provides a forum for the publication of articles in the field of international law and other Asian international legal topics The objectives of the Yearbook are two fold First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues Each volume of the Yearbook contains articles and shorter notes a section on Asian state practice an overview of the Asian states participation in multilateral treaties and succinct analysis of recent international legal developments in Asia a bibliography that provides information on books articles notes and other materials dealing with international law in Asia as well as book reviews This publication is important for anyone working on international law and in Asian studies **National Independent Human Rights Institutions for Children** Ursula Kilkelly,Emily Logan,2021-09-20 Following the 30th anniversary of the United Nations Convention on the Rights of the Child in 2020 and the creation of the UN Sustainable Development Goals there is increased interest in and a need to develop national human rights bodies for children s rights This book provides an in depth look at one domestic independent children s rights institution the Irish Ombudsman for Children s Office to highlight the learnings for an international audience and the methodologies that can be used to promote and protect children s rights at a national level Co authored by Ireland s first Ombudsman for Children and a children s rights professor the book will present an original and informed analysis of how a national human rights institution can advocate most effectively for the rights of children By using illustrative case studies the book will highlight how the powers of a national human rights institution can be put to strategic use to address specific children s rights deficits in areas of child protection youth detention and public awareness about children s rights Each chapter focusses on a case study identifies a problem the approach or intervention by the Ombudsman for Children the outcome and reflects on lessons learned It ensures that the cases can be extracted examined and replicated in other jurisdictions by an international community interested in the promotion monitoring and protection of children s rights It speaks to those interested in Human Rights Children s Rights Socio legal studies Social Work Childhood Studies Administrative Law Constitutional Law and International Law and to practitioners and policy makers
