At present, fewer than 30% of researchers worldwide are women. Long-standing biases and gender stereotypes are discouraging girls and women away from science-related fields and STEM research in particular. Science and gender equality are however essential to ensure sustainable development as highlighted by UNESCO. In order to change traditional mindsets, gender equality must be promoted, stereotypes defeated and girls and women should be encouraged to pursue STEM careers. Therefore, Frontiers in Psychiatry is proud to offer this platform to promote the work of women scientists across all fields of Psychiatry. The work presented here highlights the diversity of research performed across the entire breadth of Psychiatry research and presents advances in theory, experiment and methodology with
