Mill Girls and Strangers Wendy M. Gordon,2012-02-01 In the nineteenth century mill towns of Preston England Lowell Massachusetts and Paisley Scotland there were specific demands for migrant and female labor and potential employers provided the necessary respectable conditions in order to attract them Using individual accounts this innovative and comparative study examines the migrants lives by addressing their reasons for migration their relationship to their families the roles they played in the cities to which they moved and the dangers they met as a result of their youth gender and separation from family Gordon details both the similarities and differences in the women s migration experiences and somewhat surprisingly concludes that they became financially independent rather than primarily contributors to a family economy *Women's Rights in the United States* Tiffany K. Riegelman,Zuzanna Szatanik,2010-01-01 The volume came about as a result of a joint effort at a bifocal reflection of the international community of Melvillians and Conradians in Szczecin Poland in August 2007 What became clear in formal and informal discussion among the participants of that international gam was that Herman Melville and Joseph Conrad Korzeniowski shared the intuition that the essential liquidity of the existential human condition necessitates a universal squeeze of the hand This idea beautifully conceptualized by Melville in chapter 94 of Moby Dick caused both

writers to examine in their complex narratives the ways in which various kinds of oppression prevent this desired possibility read more in the Introduction

On Anthologies Jeffrey R. Di Leo, 2004-01-01 Over the course of the past twenty five years anthologies have shifted from playing a relatively minor role in academic culture to a position of dominance The essays in this collection explore the significant intellectual economic political pedagogical and creative resonance of anthologies through all levels of academic life They show that anthologies have consequences and are grounded in commitments Striving to articulate these consequences and commitments is a priority in higher education today Most of the contributors to this volume are editors of anthologies and they draw on personal experiences to provide a rare glimpse into the economics and logic of anthology publication Their essays illustrate the ways in which editing an anthology involves negotiation and compromise between intellectual ideal and realistic practice *On Anthologies* includes discussion of a wide range of anthologies used and produced by teachers and scholars Though the emphasis is on literature and theory anthologies the insights in this volume speak to professionals in all areas of academic life Collectively these essays establish the foundation for continuing critical analysis of anthology production and consumption in all disciplines

Studies Quarterly (98:1-2) Renny Christopher, Lisa Orr, Linda J. Strom, 1998-06 This vital and engaging collection expands and builds upon Women's Studies Quarterly's groundbreaking 1995 volume honored with an award from the Council of Editors of Learned Journals. The poetry, testimony, analysis, history, and theory collected here, which includes works by Patti See and Janet Zandy, not only suggests connective threads for understanding working-class experiences and literatures but also explores intersections of race, ethnicity, gender, sexual orientation, and class. Such explorations are arranged around the issue's four themes: family, education, the workplace, and identity. From South African sexual relationships to teaching Medieval studies to working-class students to the politics of a deaf workers' publication to poems written in prison, this issue testifies to the growing depth and scope of working-class studies. Essential reading for all interested in the field, this issue offers an invaluable framework for discussing working-class literature, culture, and artistic production while also attending to the material conditions of working-class people's lives. *Nature's Aristocracy, Or, Battles and Wounds in Time of Peace* Jennie Collins, 2010-05-01 In 1871 Jennie Collins became one of the first working-class American women to publish a volume of her own writings. *Nature's Aristocracy* merging autobiography, social criticism, fictionalized vignettes, and feminist polemics, her book examines the perennial problem of class in America. Collins loosely structures her series of sketches around the argument that nineteenth-century U.S. society, by deviating dangerously from the ideals set forth in the Constitution and the Bill of Rights, had created a corrupt aristocracy and a gulf between the rich and the poor that the United States founders had endeavored to prevent. Collins's text serves as a mouthpiece for the little-heard voices of nineteenth-century poor and laboring women, employing sarcasm, irony, and sentimentality in condemning the empty philanthropic gestures of aristocratic capitalists and calling for justice instead of charity as a means to elevate the poor from their destitution. She also explores the necessity of suffrage for female workers, who, while expected to work alongside men as their equals in labor, were hampered by lower wages and lack of control by their exclusion from the voting process. **The Early Republic and Antebellum America: An Encyclopedia of Social, Political, Cultural, and Economic History** Christopher G. Bates, 2015-04-08 First Published in 2015, this text holds four volumes of essays and entries on the early Republic and Antebellum era in America, spanning the end of the American Revolution in 1781 to the outbreak of Civil War in 1861. The Americans forged a new government in theory and then in practice with the beginnings of industrialisation and the effects of urbanisation, widespread poverty, labour strife, debates around slavery, and sectional discord. By the end of the nineteenth century, America had a powerhouse economy, new technologies, and the emergence of major social reform movements, creation of uniquely American art and literature, and the conquest of the West.
