Paul Groenendijk, Piet Vollaard

Mvrdv At Vpro:

MVRDV at VPRO MVRDV (Firm),1999 VPRO is the most iconoclastic and free thinking private broadcasting company in the Netherlands Its headquarters were once spread around ten villas in Hilversum Now it has a new premises designed by the fabled MVRDV architectural team Although housed in a single huge building VPRO remains a non hierarchical organization and is contained in an environment designed as a continuous interior that folds the urban space inside the building This book tells the entirety of this radical building s design and function *Gids voor hedendaagse architectuur in Nederland* Paul Groenendijk,Piet Vollaard,2004 Containing over 300 entries this guide presents an overview of the most recent developments in Dutch architecture and urban design from the 1980s to the present day Its compact shape practical layout and extensive indexes make this guide an indispensable source of inspiration and reference work on the practice of Dutch architecture today Includes work by Koolhaas Mecanoo Arets van Berkel van Egeraat Foster De Geyter Hertzberger Krier MVRDV Neutelings Riedijk Graves Benthem Crouwel Nox and many others *Hunch* Berlage Instituut,2002-02

MVRDV en VPRO. Hans Haacke,1999 **Energy Efficient Buildings** Dean Hawkes,Wayne Forster,2002-07-30 At the beginning of the twenty first century the debate on the vulnerability of the global environment has given a new significance to the environmental agenda in architecture **Drawing Architecture and the Urban** Sam Jacoby,2016-04-25 Drawing is an important means to analyse information and develop rigorous arguments both conceptually and visually Going beyond the how to drawing manual this book provides an instrumental approach to drawing especially computer generated drawings it outlines how drawings should be used to convey clear and analytical information in the process of design as well as the communication and discussion of a project In depth examples are provided how to communicate effectively The final section demonstrates how to transform case studies directly connecting an analytical approach with the design process **The Threefold Logic of Advanced Architecture** Manuel Gausa,Jordi Vivaldi,2021-04-15 During the last 30 years Advanced Architecture has consolidated an interactive and informational logic that differs from that of Modernity and Postmodernity This logic is threefold it is modulated through three coexisting protocols modes of action whose peaks of intensity occur in three different decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 This work proposes a threefold cultural narrative whose interactive and informational logic differs from that of modernity and postmodernity It positions three different ethos by critically approaching the architectural side of a cultural mutation that has been affecting the Western experimental areas of knowledge and practice since the end of the last century A transformative process constituted by a constellation of transdisciplinary manifestations accelerations turns shortcuts and clusterizations that by no means can be read under one single epistemological umbrella In this sense rather than approaching the practice of architecture focusing on its disciplinary inner specificity this book approaches the research of experimental architecture focusing on its extra disciplinary entanglements It argues that a vast multiplicity of fields of

knowledge participates in a cultural endeavour modulated through three protocols forms of action that singularize three decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 These three periods shouldn't be read as three hermetic and concatenated monades but as three different modulations of the same narrative that is as three overlapping and coexisting systems whose peaks of intensity occur in three different decades However the main purpose of this book is not limited to unveiling the ethos of these three conjugations It also aims at using this framework as a time field a narrative map that moves from the classificatory to the cartographical in order to vectorize the last 30 years of experimental architecture In this sense this book argues that this threefold set of protocols represents the progressive attempt to constitute critical interiorities looking for and produced through interactions that are increasingly more intimate and whose agents are increasingly more diverse A tendency oriented towards the consolidation of an intimacy between strangers that highly resonates with the cultural and technological landscape in which experimental architecture operates

Dwell, 2008-05 At Dwell we're staging a minor revolution We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

The Function of Style Farshid Moussavi, 2021-04-15 What is the function of style today If the 1970s were defined by Postmodernism and the 1980s by Deconstruction how do we characterize the architecture of the 1990s to the present Some built forms transmit affects of curvilinearity others of crystallinity some transmit multiplicity others unity some transmit cellularity others openness some transmit dematerialization others weight Does this immense diversity reflect a lack of common purpose In this book acclaimed architect and theorist Farshid Moussavi argues that this diversity should not be mistaken for an eclecticism that is driven by external forces *The Function of Style* presents the architectural landscape as an intricate web in which individual buildings are the product of ideas which have been appropriated from other buildings designed for the different activities of everyday life ideas which are varied to produce singular buildings that are related to one another but also different This network of connections is illustrated on the cover of this book and in more detail inside Moussavi argues that by embracing everyday life as a raw material architects can change the conventions of how buildings are assembled to ground style and the aesthetic experience of buildings in the micro politics of the everyday The third volume in Moussavi's *Function* series *The Function of Style* provides an updated approach to style which can be used as an invaluable and highly productive tool by architects today Assistant Editors Marco Ciancarella Jonathan A Scelsa Mary Crettier Kate Kilalea
