New Intimacy:

The New Intimacy Ronald M. Mazur, 2000-04 The close of the 20th century has witnessed the minority status of the traditional family in America On the threshold of a new millennium now is an opportune and urgent time to give voice to the intimacies of alternative lifestyles including open marriage Traditional monogamy is still the prize for countless adults searching for meaning and love in their lives That search is honored by myriad religious and societal supports It is to non traditionalists to those ready for new life and love affirmations that this book is offered with joy The evolution of human consciousness prepares the way for the unfolding of our universal polyamorous potential Let the pioneers be unafraid to move beyond the ancient limits of relationships to the new intimacy of responsible erotic freedom May the new millennium be the end of pleasure phobia

Time and Intimacy Joel B. Bennett, 2000-11-01 There is a mysterious connection between our experiences of intimacy of love the longing to feel connected and sexual embrace and the human sense of time eternity impermanence and rhythm In this critical analysis of the time intimacy equation Bennett shows how the scientific study of personal relationships can address this mystery As a study of transpersonal science this book points to the possible evolution of intimacy and of our consciousness of time and how the two evolutionary paths weave together Dr Bennett draws from a wide array of resources to advance and marry two compelling themes first the social and clinical science of personal relationships should integrate the spiritual or transpersonal dimension of intimacy and second science can contribute to lay understandings by describing the richly temporal aspects of relationships In blending popular literature transpersonal psychology and scientific research and theory this work also attempts to address the lack of dialogue between academics who study personal intimacy and those writers in the popular press who give advice and guidelines for building intimacy Time and Intimacy is written for a broad audience intended for those with a general interest in relationships as well as for students counselors and psychologists It can be used as a text in courses on personal relationships as well as to supplement courses in humanistic psychology transpersonal psychology interpersonal communication relationships marital and family counseling human relations and related areas Because it advances an interdisciplinary understanding of personal relationships this book is certain to challenge prevailing views about the meaning of intimacy in both the academic and popular literatures

Refocusing School Leadership Robert J. Starratt, 2010-09-13 Refocusing School Leadership departs from the more traditional conceptualization of leadership looking behind the daily routines of human resource leaders to highlight the assumptions and values and beliefs they bring to their work as well as the values and meanings embedded in the various contexts of school life Starratt explores how educational leadership is grounded in one's own humanity as well as in a deep appreciation of the richness complexity and enormous potential of people and he attempts to restore the centrality of human development in the work of educating the young education is not simply about educating minds but about developing whole persons Starratt argues for a refocusing of educational leadership on affirming and enabling those talents

dispositions interests life experiences and cultural proficiencies that comprise their humanity to enrich the work of learning The vision of the school should speak of the extraordinary possibilities for human achievement in our young people as well as the talents of their teachers to nurture those possibilities Starratt s focus on leadership as human resource development will energize the efforts of faculty staff and students to improve the quality of learning the primary work of schools This book is a valuable resource to prepare aspiring leaders whether administrators or teachers to deal with the way schools are currently run and to imagine and create better ways to promote quality learning for all

The Other Special Relationship Jeffrey D. McCausland, 2007 This volume summarizes the major findings of the conference participants over the last year Beyond the thematic resemblance between this volume and the previous study of U S UK relations another similarity is the importance of two events in determining London and Canberra s relations with Washington The terrorist attacks of September 11 2001 9 11 represent the first turning point The British and Australian governments reacted similarly to these attacks immediately identifying 9 11 as a transformative moment in international relations But the Australian Prime Minister s presence in Washington DC during the 9 11 terrorist attacks intensified the personal impact of the events and within a few days his government had invoked the ANZUS Treaty to offer its full support to the United States The second big event dominating both U S UK relations and U S Australia relations has been America s management of the Global War on Terror and in particular its leadership of the ongoing operations in Afghanistan and Iraq

Iconoclastic Sex Henry Walter Spaulding III, 2024-03-13 Christian sexual ethics operates from a place of privilege when it does not consider those impacted by its moral prescriptions A large majority of publications on Christian sexual ethics consider choices and images abstracted from lived conditions of the people called to make these decisions As such it leaves out many for whom sex is neither welcome nor a choice As such these same texts present images of sexual subjects that marginalize those that do not fit As the book presents sexuality both Christian and otherwise prioritizes a language of purity that strangles the life of those imaged impure The present book remedies this emphasis through the language of iconoclasm that blasphemes these images and opens theological reflection beyond the boundary of image based approaches Utilizing a qualitative study of survivors of trafficking and those who grew up under evangelical purity teachings Spaulding narrates sexual ethics in light of their testimonies and the theological resources of iconoclasm to articulate a more just and loving sexuality The new emphasis on sexual ethics not only resists the prescriptions that create the conditions of sex trafficking but the creation of new communities capable of solidarity and mutuality with those caught in

the web of trafficking **The History of Medicine: A Very Short Introduction** William F. Bynum, 2008-07-31 Against the backdrop of unprecedented concern for the future of health care this i Very Short Introduction i surveys the history of medicine from classical times to the present Focussing on the key turning points in the history of Western medicine such as the advent of hospitals and the rise of experimental medicine but also offering reflections on alternative traditions such as Chinese medicine Bill Bynum offers insights into medicine s past while at the same time engaging with contemporary issues discoveries and controversies **Meditation and Communion with God** John Jefferson Davis, 2012-09-13 John Jefferson Davis summons the resources of traditional biblical meditation for a culture lost in the cloud He establishes the trinitarian view of God s real presence in Scripture and then ushers readers through three successive stages of meditation consummating in a method for deep assimilation of the Christian worldview **Development and Vulnerability in Close Relationships** Gil G. Noam, Kurt W. Fischer, 2013-06-17 How do people develop in their important relationships How do two people come together to form a new close relationship How do relationships affect or determine who we are and who we become These questions should be central to the study of mind and development but most researchers neglect relationships and focus instead on analyses of individuals as if people were basically alone experiencing occasional fleeting moments with other people Research based on this individualist assumption has dominated the behavioral and clinical sciences but there are other voices and they are growing In this book many of the scholars who are moving relationships and attachments back to the center of human development outline their central concepts findings and perspectives People are fundamentally social and relationships are part of the fabric of being human forming an essential foundation that molds each person s mind and action A mind does not reside in one person but in relationships and communities composed of many people s interconnected minds which mutually support and define each other From the start and throughout life each person develops strengths and vulnerabilities in important relationships in communities and cultures Those relationships are so central to each person s activity and experience that without them no scientific explanation can even begin to analyze mind and action There is no mind without other people There is no psychological vulnerability that does not involve others The contributors to this book aim to establish a firm foundation for the role of relationships in human activity and health and to promote strong research by bringing together in one place most of the best research and theory on development and relationships Their goal is to stimulate a more radical inclusion of relationships in mind an ecological focus on the ways that relationships constitute action feeling and thought Ethical Experience Nicolle Zapien, Susi Ferrarello, 2018-10-18 Ethical Experience provides a unique phenomenological dialogue between psychology and philosophy This novel approach focuses on lived experiences that belong to daily practical life such self identity and ethical decision making This practical focus enables the reader to explore how ethics relates to psychology and how the ethical agent determines herself within her surrounding community and world Using Husserl s ethics the authors present a phenomenological approach moral psychology that offers an alternative to

cognitive and neuroscientific theories This is a practical and theoretically rigorous textbook that will be of use to those researching and studying ethics morality psychology and religion

It is the story of being human. In this earnest account of a serious problem in which we are all implicated we come to terms with our collective obsession with material consumption. The Anatomy of Consumerism tracks this consumption from the Industrial Revolution through a ravenous stretch of excessive production and acquisition all the way to our digital present a period during which we overconsume as a matter of course and visit irreparable damage on our natural environment as a result. It is no wonder the consequences of human greed fester so hotly in debate among economists, social scientists and environmentalists. The Anatomy of Consumerism wades into this debate's center

Paul's Necessary Sin Timothy Ashworth, 2016-12-05 How can we know today what was happening in the minds and hearts of Paul and the first Christians so long ago? By getting below the surface of Paul's theology the consistent key elements of early Christian experience are revealed in a way that throws light on the meaning of powerful religious experiences and movements both in the past and today. Illuminating for those who have never read a word on Paul yet disturbing and provocative for biblical scholars, this book tackles the topic of the religious experience of Paul and the first Christians. Lacking authentic knowledge of Paul's liberating experience, generations of translators and interpreters have inevitably and sometimes clumsily obscured Paul's meaning. In this book the scholarly accusation that Paul is incoherent is turned upside down to show how uncritically accepted ways of translating Paul mislead today's reader and introduce a mystifying complexity into scholarship on Paul. Taking the reader step by step through a painstaking restoration of the meaning of Paul's text, the colour and form of Paul's original vision are revealed
