

Coriolanus is not really proud but just easily embarrassed (+ perhaps immature). This can be seen as a result of Volumnia's parenting. Her

womanhood denies her a power that she has to execute through her son. Coriolanus' vulnerability is he doesn't realise how expendable he is.

Scenic form (what came before this scene, how does it work, what's it working to", image, how Coriolanus speaks+ how ppl speak around him. SPQR

### Context

-Shakespeare's main source material for *Coriolanus* was Plutarch's *Lives of the Noble Grecians and Romans*. Shakespeare sticks to this text in making Coriolanus a flawed character. Shakespeare questions the value of courage and valour in combat, exploring what happens when excellence in war is not translated to goodness of character.

-The year before *Coriolanus* was first performed, food shortages led to riots across England. The poor accused the rich of hoarding food and the rich blamed poor weather and a lack of grain. Shakespeare deviates from Plutarch by using this as the initial cause of unrest and not usury.

-Around the time that Shakespeare was writing, rich land owners in England consolidated small public farmlands into private farms, a process known as enclosure. In protest against the loss of formerly communal lands, a man named John Reynolds, also known as "Captain Pouch," led a large rebellion called the Midland Revolt in 1607. The Midland Revolt might be seen in parallel with the hunger-fueled riots by the common people at the beginning of *Coriolanus*, which were not included in the ancient sources; instead, they appear to be a contemporary concern Shakespeare chose to emphasize and explore.

-*Coriolanus* is set in the early days of the Roman Republic, where Rome was roughly transitioning from a monarchy. Even in Shakespeare's time, the question of monarchical absolutism was being questioned and parliament started to look back to the Republic.
