s only book shows his powerful brilliant mind at it s best Jefferson shows the depth of his knowledge not just on his own beautiful state but on human nature itself Some of the gems in this work are his views on education advocating free public education for all free government advocating a revisal of the defective original Virginia Constitution His knowledge of slavery and the Indian races before his eyes are from personal experience and observation Although painted by the deconstructionist left as a racist Jefferson was a dangerous radical to the Virginia gentry due to his advocacy of emancipation and deportation of slaves His views on black inferiority are exaggerated since he placed them forth as a scientific hypothesis based on personal observation Jefferson could not see a multicultural society in America made up of former masters and slaves with resentment and prejudice still in the hearts of both Many of his predictions about race relations have come true hate resentment power struggles and a continuing obsession which he foresaw would destroy the America Republic
