Nothing That Is The Blair Witch Controversies:

Nothing that is Sarah Lynn Higley, Jeffrey Andrew Weinstock, 2004 Daniel Myrick and Eduardo Sanchez's *The Blair Witch Project* seemingly appeared from nowhere to become one of 1999's highest grossing films. While generating revenue as a low budget movie backed by a media blitz, *The Blair Witch Project* also generated controversy and made a mockery of the Hollywood industry billing itself as real footage of a supernatural event. Critics were divided over some of the most basic questions: whether the film was an artistic success or the product of its hype; for example, and whether it challenged Hollywood conventions or succumbed to them in the end. *Nothing That Is The Blair Witch Controversies* examines these and other debates and initiates some of its own about American taste for horror, hoax, independent films, the Internet, and the direction of cinema in the twenty-first century. The book explores the modest origins and rapid demise of this independent film while also analyzing the sensational results of its broad media discourses. A Web site developing the back story of *The Blair Witch Project* was one of the most accessed sites on the entire Internet at the time of the movie's release. These essays from many diverse perspectives also look at *The Blair Witch Project*'s manipulation of cinematic codes, its view on technology and the occult, its film progenitors, and even its effects on the film's setting of Burkittsville, Maryland. *Nothing That Is* will interest both film scholars and fans of this unexpected blockbuster that emerged from, if not nothing, a complex brew of culture, technology, and ingenuity. *Found Footage Horror Films* Alexandra Heller-Nicholas, 2014-05-08 As the horror subgenre du jour, found footage horror's amateur filmmaking look has made it available to a range of budgets. Surviving by adapting to technological and cultural shifts and popular trends, found footage horror is a successful and surprisingly complex experiment in blurring the lines between quotidian reality and horror's dark and tantalizing fantasies. *Found Footage Horror Films* explores the subgenre's stylistic, historical, and thematic development. It examines the diverse prehistory beyond *Man Bites Dog* (1992) and *Cannibal Holocaust* (1980), paying attention to the safety films of the 1960s, the snuff fictions of the 1970s, and to television reality horror hoaxes and mockumentaries during the 1980s and 1990s, in particular. It underscores the importance of *The Blair Witch Project* (1999) and *Paranormal Activity* (2007) and considers YouTube's popular rise in sparking the subgenre's recent renaissance. *The Blair Witch Project* Peter Turner, 2015-05-26 Few films have had the influence and impact of *The Blair Witch Project* (1999). Its arrival was a horror cinema palette cleanser after a decade of serial killers and postmodern intertextuality, a bare bones found footage trend setter. In this *Devil's Advocate*, Peter Turner tells the story of the film from his conception and production, then provides a unique analysis of the techniques used, their appeal to audiences, and the themes that helped make the film such an international hit, including the pioneering internet marketing. *Our Fears Made Manifest* Ashley Jae Carranza, 2021-01-27 The beginning of the 21st century was a time of unprecedented events in American society: Y2K, 9/11, and the wars that followed; partisan changes in government; and the rapid advancements of the Internet and mass consumerism. In the two decades since, popular culture, particularly film, has

manifested the underlying anxieties of the American psyche This collection of new essays examines dozens of movies released 1998 2020 and how they drew upon and spoke to mass cultural fears Contributors analyze examples across a range of genres horror teen rom coms military flicks slow burns and animated children s films covering topics including gender and sexuality environmental politics technophobia xenophobia and class and racial inequality *Found Footage Horror Films* Peter Turner,2019-01-28 This book adopts a cognitive theoretical framework in order to address the mental processes that are elicited and triggered by found footage horror films Through analysis of key films the book explores the effects that the diegetic camera technique used in such films can have on the cognition of viewers It further examines the way in which mediated realism is constructed in the films in order to attempt to make audiences either mis read the footage as non fiction or more commonly to imagine that the footage is non fiction Films studied include The Blair Witch Project Rec Paranormal Activity Exhibit A Cloverfield Man Bites Dog The Last Horror Movie Noroi The Curse Autohead and Zero Day This book will be of key interest to Film Studies scholars with research interests in horror and genre studies cognitive studies of the moving image and those with interests in narration realism and mimesis It is an essential read for students undertaking courses with a focus on film theory particularly those interested specifically in horror films and cognitive film theory POV Horror Duncan Hubber,2023-11-09 Drawing together strands of film theory and psychology this book offers a fresh assessment of the found footage horror subgenre It reconceptualizes landmark films including The Blair Witch Project 1999 Cloverfield 2008 Paranormal Activity 2009 and Man Bites Dog 1992 as depictions of the lived experience and social legacy of psychological trauma The author demonstrates how the frantic cinematography and ambiguous formulation of the monster evokes the shocked and disoriented cognition of the traumatized mind Moreover the frightening effect of trauma on society is shown to be a recurring theme across the subgenre Close textual analysis is given to a wide range of films over several decades including titles that have yet to receive any academic attention Divided into four distinct sections the book examines how found footage horror films represent the effects of historical and contemporary traumatic events on Western societies the vicarious spread of traumatic experiences via mass media the sublimation of domestic abuse into haunted houses and the viewer s identification with the monster as an embodiment of perpetrator trauma **Movies in American History** Philip C. DiMare,2011-06-17 This provocative three volume encyclopedia is a valuable resource for readers seeking an understanding of how movies have both reflected and helped engender America s political economic and social history *Movies in American History An Encyclopedia* is a reference text focused on the relationship between American society and movies and filmmaking in the United States from the late 19th century through the present Beyond discussing many important American films ranging from Birth of a Nation to Star Wars to the Harry Potter film series the essays included in the volumes explore sensitive issues in cinema related to race class and gender authored by international scholars who provide unique perspectives on American cinema and history Written by a diverse group of distinguished scholars with backgrounds in
