Modernising Post-war France Nicholas Bullock, 2022-11-22 This book is about the role played by architects engineers and planners in transforming France during the three post war decades of growing prosperity a period when modernisation was a central priority of the state promising a way forward from the shame of defeat in 1940 to a place at the centre of the new Europe The first part of the book examines the scale of transformation showing how architecture and urbanism both served the cause of modernisation and shaped the identity of the new France Mainstream modernism was co opted to the service of the state from major public buildings to Gaullist plans for the transformation of Paris to establish the city as the capital of Europe By contrast the second part of the book explores the critique of state sponsored modernisation by radical architects from Le Corbusier to the young Turks of the 1960s such as Georges Candilis and the students who attacked the banality of mainstream modernism and its inability to address the growing problems of France s cities Following May 1968 the Beaux Arts was closed the Grand Prix de Rome symbol of the old order abolished for a while the establishment might continue as before but progressive architecture was set on a new course Beautifully illustrated and written to be accessible to all the book sets the discussion of architecture and urbanism in its social political and economic contexts As such it will appeal both to students and scholars of the history of architecture and urbanism and to those with a wider interest in France s post war history

The Heroic City Rosemary Wakeman, 2009-12-15 The Heroic City is a sparkling account of the fate of Paris s public spaces in the years following Nazi occupation and joyful liberation Countering the traditional narrative that Paris s public landscape became sterile and dehumanized in the 1940s and 50s Rosemary Wakeman instead finds that the city s streets overflowed with ritual drama and spectacle With frequent strikes and protests young people and students on parade North Africans arriving in the capital of the French empire and radio and television shows broadcast live from the streets Paris continued to be vital terrain Wakeman analyzes the public life of the city from a variety of perspectives A reemergence of traditional customs led to the return of festivals street dances and fun fairs while violent protests and political marches the housing crisis and the struggle over decolonization signaled the political realities of postwar France The work of urban planners and architects the output of filmmakers and intellectuals and the day to day experiences of residents from all walks of life come together in this vibrant portrait of a flamboyant and transformative moment in the life of the City of Light

contemporary Paris understandable It tells of renewal projects radically transforming neighborhoods and of counter measures taken to perpetuate the city's historic character and soul It provides a historically grounded look at the troubled suburbs Further it tests long standing characterizations of Paris's uniqueness through comparisons with such rivals as London and Berlin Paris Dreams Paris Memories shows that in myriad forms buildings monuments festivities and artistic portrayals contemporary Paris gives new life to visions of the city long etched in Parisian imaginations A pleasure to read Catherine Clark H Urban Fascinating Nicoleta Bazgan Contemporary French Civilization Rearick is an expert guide Jeffrey H Jackson Rhodes College Like a pleasant stroll through the city one finds much that one has already seen but also plenty that one has not Stephen Sawyer French History Rearick has written not so much a history of Paris but a history of the history of Paris William Irvine York University

The stadium century Robert W. Lewis, 2016-12-08 The stadium century traces the history of stadia and mass spectatorship in modern France from the v lodromes of the late nineteenth century to the construction of the Stade de France before the 1998 soccer World Cup As the book demonstrates the stadium was at the centre of debates over public health and urban development and proved to be a key space for mobilising the urban crowd for political rallies and spectator sporting events alike After 1945 the transformed French stadium constituted part of the process of postwar modernisation but also was increasingly connected to global transformations to the spaces and practices of sport Drawing from a wide range of sources the stadium century links the histories of French urbanism mass politics and sport through the stadium in an innovative work that will appeal to historians students of French history and the history of sport and general readers alike

The Latest Catastrophe Henry Rousso, 2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today s historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made
