Geographies of New Caledonia-Kanaky Matthias Kowasch, Simon P. J. Batterbury, 2024-04-12 This open access book provides a unique overview of geographical historical political and environmental issues facing the French overseas territory New Caledonia also called Kanaky by the indigenous Kanak people who outnumber citizens of European and other origin New Caledonia has seen a long and complex struggle for decolonization but is still on the United Nations list of Non Self Governing territories and there is little sign of change following three referendums on independence and extensive negotiations with France The archipelago possesses around a quarter of the world's nickel deposits giving it additional strategic importance when demand for the mineral is strong The islands have unique biodiversity and Caledonian coastal lagoons have been listed as UNESCO world heritage sites since 2008 The book offers detailed insights into the environmental and human geographies of the archipelago with a focus on the links between environmental protection and extensive mining operations between political independence struggles and continued wellbeing and economic development and the differing visions for the future of the islands This multidisciplinary volume one of the few to appear in English appeals to researchers students and policy makers across the environmental social and political sciences

Discovery and Empire John West-Sooby, 2013 The French connection with the South Seas stretches back at least as far as the voyage of Binot Paulmier de Gonville 1503 1505 who believed he had discovered the fabled great south land after being blown off course during a

storm near the Cape of Good Hope The story of his voyage remained largely forgotten for over 150 years but eventually resurfaced in 1664 thanks to the publication by the Abbe Jean Paulmier of a document in which he argued on the basis of this supposed discovery for the establishment of a Christian mission in this third part of the world While historians today contest the authenticity of various aspects of the Abbe Paulmier's Memoires there is no doubt about the impact it had in France both on the collective imagination and more concretely on French plans for exploration and colonial expansion It was not until the eighteenth century however that France began sending mariners to the southern oceans on a regular basis and by that time a new maritime power had begun to emerge Great Britain Together these two nations would play a decisive role in determining the configuration of these little known parts of the globe and particularly of the Pacific which had for so long been the almost exclusive preserve of Spain From the Introduction by John West Sooby DISCOVERY AND EMPIRE is a collection of essays originating out of a symposium that was held at the State Library of South Australia on 8 July 2009 The symposium formed one of the strands of the XVIIth Biennial Conference of the Australasian Association of European Historians 6-9 July 2009 the overall theme for which was Europe's Expansions and Contractions

**The History of French Colonial Policy, 1870-1925** Stephen H. Roberts, 2019-04-23 Published in 1963 The author gives a clear and accurate account of the immense development of France as a colonial power which in an incredibly short space of time was to control one third of Africa He drew his material not only from the scanty formal literature then available but also by carefully evaluating and selecting from large mass of controversial material to be found in deliberate propaganda

La réalisation d'un premier bilan historiographique s'imposait donc afin de permettre tous de mesurer les enjeux sociaux de cette histoire encore en cours d'élaboration et de permettre aux praticiens tant calédoniens que métropolitains ou anglo-saxons de savoir qui fait quoi pour quoi et comment. Cette étude très minutieuse permet de visualiser l'émergence d'une pensée historique depuis la Seconde Guerre mondiale et de distinguer la mise en place de deux écoles historiques antipodées. Cette production historique se trouve à la croisée des chemins puisqu'elle reste fortement marquée par des comportements communautaires et souvent à caractère entre les forces du dedans et les forces du dehors. Voquée en 1998 dans le préambule de l'Accord de Nouméa, ce texte singulier s'articule autour d'une histoire calédonienne qui reste encore partiellement construite voquant les ombres et les lumières de la colonisation. Et l'auteur de montrer qu'en ayant fait moins de fautes commises ce préambule historique voulu par les trois partenaires signataires de l'Accord de Nouméa indique comment la reconnaissance réciproque qu'il institue peut permettre l'affirmation d'un destin commun.     *Souvenirs de la Nouvelle-Calédonie* Henri Rivière, 1880     *Retour de la Nouvelle-Calédonie* Rochefort, 1876     **La Nouvelle Calédonie et ses habitants** Victor de Rochas, 1862     **La Nouvelle-Calédonie et les Nouvelles-Hébrides** H. le Chartier, 1885
