Novel What It Is:

The Novel; what it is F. Marion Crawford, 2021-05-19 In *The Novel What It Is* F. Marion Crawford presents a profound exploration of the nature and essence of the novel as a literary form. In this incisive treatise, Crawford meticulously examines the structures, styles, and functions of novels, addressing their evolution in the context of 19th-century literature. His engaging prose reflects a keen understanding of narrative techniques and the psychological underpinnings of storytelling, making it both a critical analysis and a philosophical inquiry into what constitutes the novel. As a literary figure at a time of great innovation, Crawford invites readers to consider the complexities of the form and its impact on society, ultimately offering a framework through which to appreciate the depth of narrative art. Crawford, an accomplished novelist and playwright, stood at the confluence of American and European literary traditions, which significantly influenced his perspectives on fiction. His experiences as an expatriate in Italy and his fascination with cultural narratives enriched his understanding of both character development and thematic intricacies. This background not only informed his writing but also fueled his passion for analyzing literary formats, leading to the production of this critical work. Readers who seek a deeper comprehension of the novel's role in literature will find Crawford's insights invaluable. This book is essential for scholars, aspiring writers, and avid readers alike, as it encourages a broader contemplation of narrative capability and the transformative power of storytelling across cultures and epochs.

The Novel: what it is Francis Marion Crawford, 1970 **The Novel** F. Marion Crawford, 2017-05-03 What is a novel? The question is asked and answered by Mr. Marion Crawford in a kind of pocket companion for novel readers entitled *The Novel What It Is*. Some say the novel is a work of art, though that is what it should be rather than what it is. And some may still murmur inquiringly after reading Mr. Crawford's interesting observations. The novel, what is it? Mr. Crawford's views about the craft in which he is a present master appear to us sound and convincing, even if they meet not all the difficulties that beset those who require definitions that embrace all the kinds of fiction. The novel, he remarks, is a marketable commodity. That is its natural order. It belongs to the family of luxuries and is of the class artistic luxuries. Probably few will deny these propositions. The novel must amuse and instruct us, and it is no bad thing if it makes the reader think or think of thinking. As to the sterile controversy of romance and realism, Mr. Crawford sensibly observes that the novel may and should combine those qualities. It may even be historical. But it must not be a purpose novel, that very odious thing. The novel, Mr. Crawford thinks, may educate, may elevate, may purify, but it must not preach. Here be excellent conclusions. Excellent also is Mr. Crawford's protest against the absurd requirement of certain scientific critics that the novelist should be possessed of encyclopedic knowledge. Let him have experience, observation, literary skill, and above all, knowledge of the heart and power to strike at the heart. The greater men are the more heart they have. There is heart in all great novels, and this is the reason they are the favorite reading of great men. Purpose and theory be they never so exalted, kill; but it is heart that makes the novel to live. Such it seems is what Mr. Crawford would inculcate, though his horror of the purpose novel or of the least semblance of

It Is What It Is: A So For Real Novel Nikki Carter,2012-03-01 Gia s got to face the good the bad and the new Gia Stokes is psyched for the start of her junior year at Longfellow High She s co captain of the Hi Steppers dance squad she s back on good terms with her cousin Hope and her best friend Ricky has achieved hottie status as the school s new first string quarterback Now all the girls are after him including Valerie Gia s co captain and Hope They both want Gia s help to score a date with Ricky but how is Gia supposed to choose between them If that wasn t enough she also has to deal with a new dad and an annoying fourteen year old stepsister It s going to take every ounce of faith Gia has to flip this script and make her junior year one to remember Gia Stokes might be a Hi Stepper but this teen role model has both feet on the ground as she meets life s challenges with style and grace Melody Carlson author of the Diary of a Teenage Girl series Nation & Novel Patrick Parrinder,2008 Patrick Parrinder traces English prose fiction from its late medieval origins through its stories of rogues and criminals family rebellions and suffering heroines to the contemporary novels of immigration He provides both a comprehensive survey and a new interpretation of the importance of the English novel Indian English Novel Gajendra Kumar,2002 **Mikhail Bakhtin** Gary Saul Morson,Caryl Emerson,1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme

Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin s own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin s thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive

Booklist **Screening The Novel** Keith Selby, Robert Giddings, 2016-07-27 The book takes as its theme the relationship between literature and the contemporary means of production and distribution collectively termed the media in particular film and television The intention of the book is to

explore and evaluate the mutual opportunities and restrictions in this relationship In the grammar of our culture there seems to be an accepted opinion that print is superior in terms of cultural production to film radio or television that to read a book is somehow a higher cultural activity than seeing a play on television or seeing a film By the same token a novel is a superior work of art to film or television The longer perspective reveals that traditionally there always is a greater respect paid to the previous mode of literary production poetry was superior to drama poetic drama was superior to the novel and film attained cult and classic status initially over television
