Deleuzian Critique of Queer Thought Nir Kedem, 2024-03-05 Holding queer theory to its promise to revolutionise our ways of thinking Nir Kedem offers a forceful encounter between Deleuze's work and contemporary queer thought to provide both critical and practical means to re-evaluate and rework key concepts and methods especially sexuality Kedem provides a new pragmatic approach to working with Deleuze across multiple disciplines a rigorous demonstration of its critical and creative power as well as extensive analysis of the relations between Deleuze and queer thought All of which exemplify that despite if not owing to the unassuming role of sexuality in his thought Deleuze proves to be queer thought's true ally

Inside the Ford-UAW Transformation Joel Cutcher-Gershenfeld, Dan Brooks, Martin Mulloy, 2025-05-13 How the partnership between Ford and the UAW forged through more than fifty pivotal events transformed their capacity to combine good jobs with high performance In 2009 the Ford Motor Company was the only one of the Big Three automakers not to take the federal bailout package How did Ford remain standing when its competitors were brought to their knees It was a gutsy decision but it didn't happen in isolation The United Auto Workers joined with Ford to make this possible not only in 2009 but in a series of more than fifty pivotal events during three decades that add up to a transformation that simultaneously values work and delivers results The pivotal events some planned and some unplanned some at the facility level and some at the enterprise level were not all successful All had the potential however to further the transformation and all provide insight into how large scale system change really happens The authors each with years of experience with Ford the UAW and the industry provide an unprecedented inside look at how core operating assumptions are shifted and at the emergence of integrated operating systems for quality safety and other aspects of the enterprise It is a transformation built on a foundation of dignity and mutual respect guided by a vision of combining good jobs with high performance **Macworld**, 2004

Southern Sounds From The North Richard L. Doran, 2008-11-06 Historically the state of Ohio has maintained an active role in the promotion of southern gospel music Many gospel artists including some of the Nation's finest were either born or lived a portion of their life in Ohio Development of these ministries and the events that have taken place along the way has become a valuable part of Ohio's history Over the past two years desiring to preserve a portion of this history I have completed extensive research interviewing gospel artists throughout the state I then compiled this information into a unique collection of history to be shared with everyone To help the reader more fully appreciate life on the road the stories of these gospel artists are presented within the context of eight road tours covering the entire state of Ohio Travelling along on each tour we will experience a variety of emotions from laughter to frustration At each stop we will learn some fascinating facts about the town and while in town we'll stop by and visit with a few of those southern gospel artists and or groups who claim the town as part of their heritage Each tour will end with a short walk down memory lane as we view photos of those gospel artists whom we have just visited So come on Open the book climb on board and prepare yourself for eight exciting tours
