Congress. House. Committee on Interior and Insular Affairs. Subcommittee on Water, Power, and Offshore Energy Resources, 1993 **China and International Nuclear Weapons Proliferation** Henrik Stålhane Hiim, 2018-07-24 This book explores China s approach to the nuclear programs in Pakistan Iran and North Korea A major power with access to nuclear technology China has a significant impact on international nuclear weapons proliferation but its attitude towards the spread of the bomb has been inconsistent China s mixed record raises a broader question why when and how do states support potential nuclear proliferators This book develops a framework for analyzing such questions by putting forth three factors that are likely to determine a state s policy 1 the risk of changes in the nuclear status or military doctrines of competitors 2 the recipient s status and strategic value and 3 the extent of pressure from third parties to halt nuclear assistance It then demonstrates how these factors help explain China s policies towards Pakistan Iran and North Korea Overall the book finds that China has been a selective and strategic supporter of nuclear proliferators While nuclear proliferation is a security challenge to China in some settings in others it wants to help its friends build the bomb This book will be of much interest to students of international security nuclear proliferation Chinese foreign policy and International Relations in general Martindale-Hubbell Law Directory Martindale-Hubbell, 2002
