Nuclear Battlefields Global Links In The Arms Race:

Nuclear Battlefields William M. Arkin, Richard W. Fieldhouse, 1985 This book is an evaluation of nuclear infrastructure worldwide It focuses on the factors that would determine what a nuclear war would look like how it would happen and what potential targets would be *Bulletin of the Atomic Scientists*, 1985-06 *Beyond Deterrence* Frank L.

Gertcher, 2020-07-09 This book is designed for people who wish to increase their understanding of the political economy of nuclear weapon production and proliferation It explains the role of military political and economic incentives in perpetuating the continued growth of worldwide nuclear arsenals **American Coup** William M. Arkin, 2025-05-01 A stunning

exploration of the subtle erosion of freedom in an age of concocted fear and de facto military authority When we think of a military coup the first image that comes to mind is a general standing at a podium with a flag behind him declaring the deposing of elected leaders and the institution of martial law Think again In *American Coup* William Arkin reveals the desk bound takeover of the highest reaches of government by a coterie of grey men of the national security establishment Operating between the lines of the Constitution this powerful and unelected group fights to save the nation from terror and weapons of mass destruction while at the same time modifying and undermining the very essence of the country Many books are written about secrecy surveillance and government law breaking none so powerfully expose the truth of everyday life in this state of war *The Sun Never Sets*-- Joseph Gerson, Bruce Birchard, 1991 This landmark book tells a powerful story continent by continent of the development of U S security strategy over the past century into a global system of military bases and facilities for military intervention that has corrupted democratic values economic and social well being and environmental sustainability in every country that the system touches including the United States itself Elise Boulding

Top Secret America William M. Arkin, Dana Priest, 2025-05-01 The top secret world that the government created in response to the 9 11 terrorist attacks has become so enormous so unwieldy and so secretive that no one knows how much money it costs how many people it employs or exactly how many agencies duplicate work being done elsewhere The result is that the system put in place to keep the United States safe may be putting us in greater danger In *Top Secret America* award winning reporters Dana Priest and William Arkin uncover the enormous size shape mission and consequences of this invisible universe of over 1 300 government facilities in every state in America nearly 2 000 outside companies used as contractors and more than 850 000 people granted Top Secret security clearance A landmark exposé of a new secret Fourth Branch of American government *Top Secret America* is a tour de force of investigative reporting and a book sure to spark national and international alarm **The Rhetoric of Antinuclear Fiction** Patrick Mannix, 1992 Given the ever present threat of world wide calamity that nuclear weapons present it is not surprising that they have fascinated fiction writers and filmmakers ever since their development Nor is it surprising that many of these artists would seek to use their work to influence mass opinion about these weapons What may be surprising is that few studies have been made of how antinuclear fiction actually attempts

to persuade its audiences The Rhetoric of Antinuclear Fiction is an effort to do so Organized around the three traditional modes of rhetorical appeal the ethical the rational and the emotional the book describes and classifies the persuasive strategies of a wide range of antinuclear fiction from the period 1945 to 1989 Works examined include On the Beach Fail Safe A Canticle for Leibowitz Dr Strangelove The Day After War Day Testament Threads and Riddley Walker During the course of these studies Patrick Mannix reveals what sorts of fictional characters have been most widely used to deliver antinuclear messages and he follows the major arguments of the nuclear debate as they have been reflected in fiction He also shows which emotions are invoked most often to secure the audience s opposition to nuclear weapons and how those emotions have been generated by the creators of antinuclear fiction The range of characters that this volume examines includes the pacifistic but loyal Air Force general of Fail Safe the pious but shrewd monks of A Canticle for Leibowitz the suburban housewife of Threads and even the computer of War games which teaches humanity the folly of nuclear war We also follow fictional manifestations of the nuclear debate from veiled arguments for world government in The Day the Earth Stood Still through warnings of the dangers of Mutual Assured Destruction depicted by Fail Safe Dr Strangelove and Wargames to attacks on the concepts of limited nuclear war and the Strategic Defense Initiative in War Day This study also demonstrates the dynamic of fear in works as diverse as Ape and Essence The Day After and Them and dissects the powerful use of scorn in Dr Strangelove It also shows us the paradoxical role of hope in securing the effectiveness of antinuclear fiction While maintaining his focus on the persuasive nature of this literature Mannix does consider the aesthetic value of the fiction he studies noting that the relationship between the two elements is complex and often problematical While admitting that the aesthetic elements of some works would limit their audience and therefore reduce the scope of their rhetorical effect he demonstrates how the skillful combination of artistic and rhetorical elements raises a film like Dr Strangelove above the similarly themed Fail Safe as both a persuasive act and an aesthetic artifact

The Generals Have No Clothes William M. Arkin,2022-04-26 The definitive book about America s perpetual wars and how to end them from bestselling author military expert and award winning journalist William M Arkin The first rule of perpetual war is to never stop a fact which former NBC News analyst William M Arkin knows better than anyone having served in the Army and having covered all of America s wars over the past three decades He has spent his career investigating how the military throws around the word war to justify everything from physical combat to today s globe straddling cyber and intelligence network In The Generals Have No Clothes Arkin traces how we got where we are bombing ten countries killing terrorists in dozens more all without Congressional approval or

public knowledge Starting after the 9 11 attacks the government put forth a singular idea that perpetual war was the only way to keep the American people safe Arkin explains why President Obama failed to achieve his national security goal of ending war in Iraq and reducing our military engagements and shows how President Trump has been frustrated in his attempts to end conflict in Afghanistan and Syria He also reveals how COVID 19 is a watershed moment for the military where the country s civilian and public health needs clash with the demands of future wars against China and Russia North Korea and Iran Proposing bold solutions Arkin calls for a new era of civilian control over the military He also calls for a Global Security Index GSX the security equivalent to the Dow Jones Industrial Average which would measure the national and international events in real time to determine whether perpetual war is actually making the nation safer Arguing that the American people should be empowered by facts rather than spurred by fear *The Generals Have No Clothes* builds a damning case against the status quo Publishers Weekly and outlines how we can take control of the military before it s too late *The Seneca Army Depot: Fighting Wars from the New York Home Front* Walter Gable,Carolyn Zogg,2012-11-06 Even before the attack on Pearl Harbor the United States began to prepare to enter World War II When the army decided to build a depot in Seneca County in 1941 dozens of families were given only days to vacate the homes they loved and land they had farmed for generations The depot provided vital jobs for residents but it also continued to cause controversy even after it was established all while providing critical support for the army through the Persian Gulf War Since the base closed in 2000 the community has grappled with what to do with the property including protecting the area population of white deer Join local historians Carolyn Zogg and Walter Gable as they tell the story of the Seneca Army Depot and the lives it has affected

French Security and Defence Policy Fredrik Wetterqvist,1993-05 *Modern Chinese Defence Strategy* Rosita Dellios,1989-06-18 The author argues that the Chinese believe in the strategy of people s war under modern conditions and are confident that middle range technology and unconventional warfare and the combination of the human and weapon factors represent a successful application of the strategy
