Sverre Lodgaard, Bremer Maerli

Nuclear Risk Reduction In South Asia:

Nuclear Risk Reduction in South Asia Michael Krepon, 2004-11-26 The essays in this collection explore and analyze how to reduce the risk of nuclear war in South Asia Contributors work to introduce the theory and methodology of nuclear risk reduction to provide specific measures that might work best in the region and to consider the consequences of missile defense options for stability in Asia Much work is needed to reduce nuclear dangers between India and Pakistan While the fact that both countries possess nuclear weapons may prevent a full blown conventional or nuclear war the presence of these weapons in the region may also encourage the use of violence at lower levels expecting escalation to be contained by a mutual desire to avoid the nuclear threshold One only needs to look at the Kashmir conflict for confirmation of this paradox with serious crises coming more frequently with more severity since the nuclear tests of 1998 Sustained efforts along the line suggested by the contributors of this volume are a crucial step toward reducing nuclear risk on the Subcontinent

Nuclear Risk Reduction in South Asia, 2003 Nuclear Risk Reduction Measures in South Asia Upendra Choudhury, 2006 The Prospect Of A Nuclear War In South Asia Has Drawn Global Attention And Concern This Book Studies Nuclear Risks In The Indo Pakistani And Sino Indian Contexts And Suggests A Wide Range Of Measures By Which India Pakistan And China Could Reduce Nuclear Dangers In South Asia The Only Full Length Study And A Timely Epilogue Of Latest Nuclear Dialogues Between India And Pakistan Nuclear Risk Reduction Measures In South Asia Will Be A Standard Reference Not Only For Political Scientists And Strategic Analysts But Also For Policy Makers Diplomats Journalists Defence Personnel And The Informed General Reader *Nuclear Risk Reduction Centres in South Asia*, 2004 In May 1998 when India and Pakistan declared their nuclear weapons capabilities and demonstrated them to the world they assumed a heavy responsibility to do everything in their power to ensure that their nuclear arsenals would be devoted to promoting the stability of their region and the safety of their peoples Experience since then has made clear that the possession of nuclear weapons does not automatically bring security and that active efforts by the two governments will be required to strengthen deterrence and reduce the risks of war There is now the prospect after meetings at the summit level early this year that the two sides will engage each other in a serious and determined effort to overcome the obstacles that divide them A group of senior Indians Pakistanis and Americans has come together to explore whether a new bilateral communications mechanism can reduce the risks of armed conflict and escalation to the nuclear level Nuclear Risk Reduction Measures and Restraint Regime in South Asia Zafar Nawaz Jaspal, 2004 This Book Examines The Prospects Of Nuclear Risk Reduction Measures And A Restraint Regime In South Asia Which Would Minimize The Risks Of Accidental Unauthorized Or Inadvertent Use Of Indian And Or Pakistani Nuclear Weapons It Recommends Effective Barriers Against The Danger Of Loose Nukes And Facility Related Problems Furthermore The Book Explains The Nuclear Perils In The South Asian Strategic Environment Along With Possible Solutions For Viable Nuclear Risk Reduction Measures And A Nuclear Restraint Regime In South Asia

Pakistan's Nuclear Policy Zafar Khan, 2014-07-17 In May 1998 in reaction to India's nuclear weapons tests Pakistan tested six nuclear weapons. Following this, the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding the modifier of minimum credible deterrence. This book looks at how this seemingly innocuous shift seriously impacted on Pakistan's nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region's changed strategic environment. After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program, the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test. It examines the conceptual/theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan's nuclear policy remained consistent with this, as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study. The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale was for selecting minimum deterrence. The book not only highlights Pakistan's deterrent force building but also analyzes closely Pakistan's doctrinal posture of first use option. Furthermore, it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence. Conceptually providing a deeper understanding of Pakistan's post-1998 nuclear policy, this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels. It will be a useful contribution in the field of Nuclear Policy, Security Studies, Asian Politics, Proliferation, Non-Proliferation Studies, and Peace Studies. This book will be of interest to policy makers, scholars, and students of nuclear policy, nuclear proliferation, and arms control related research.

Changing Patterns of Warfare between India and Pakistan Rizwana Abbasi, Muhammad Saeed Uzzaman, 2023-05-12 Changing Patterns of Warfare between India and Pakistan analyzes how advanced nuclear technologies and the advent of disruptive technologies have affected the evolving conflict between India and Pakistan. Advanced nuclear technologies such as nuclear submarines, aircraft carriers, ballistic missile defence systems, BMDs, multiple independently targetable re-entry vehicles, MIRVs, anti-satellite weapons, ASAT, and disruptive technologies such as hypersonic weapons, artificial intelligence, AI, lethal autonomous weapons, LAWs, unmanned aerial vehicles, UAVs, drones, and space-based and cyber technologies have all complicated crisis dynamics and the domain of warfare in the region. Further, the employment of India's compellence strategy is an indication of a change in its stance that demonstrates smart surgical strikes are now more likely. The phenomenon of surgical strikes raises the question of how disruptive technologies will be used to gain direct/indirect military control and hence challenge the existing status quo and deterrence stability. Against this backdrop, the authors predict how this conflict may develop in the future and evaluate the ways to stabilize deterrence and regulate the militarization of artificial intelligence and disruptive technologies between India and Pakistan. This book will be of interest to all those researching and working in the fields of security studies.

strategic studies nuclear policy deterrence thinking and proliferation non proliferation aspects of the nuclear weapons programme within South Asia and beyond It will also be relevant for the academic community policy makers diplomats members of international non governmental organizations INGOs professional research institutes and organizations working on India Pakistan relations *South Asia in 21st Century* Nalini Kant Jha,2003 The Present Volume Containing Twenty Papers Endeavours To Analyse In A Theoretically Informed Fashion The Dynamic Interplay Between The Emerging World Order And Foreign And Security Policies Of The States In South Asia These Papers Also Throw Light Both On The Continuity And Changes In Foreign And Security Policies Of South Asian States In Recent Years

Nuclear Proliferation and International Security Sverre Lodgaard,Bremer Maerli,2007-06-11 The Nuclear Non Proliferation Treaty has long been key in non proliferation and disarmament activities The Treaty is the major international legal obstacle for states seeking nuclear weapon capabilities In retrospect and despite setbacks the overall impact of the Nuclear Non Proliferation Treaty has been significant and gratifying Its continued success is by no means guaranteed As old nuclear dangers persist and new ones evolve policies to halt nuclear proliferation are more disparate than at any other time Nuclear weapons remain an essential part of the security policies of leading states and many developmental states maintain strong nuclear weapon ambitions while terrorists have actively been seeking nuclear capabilities In search of an overarching strategy that recognizes both the flaws of the existing non proliferation regime and the value of some of the corrections proposed by regime critics this volume assesses contemporary efforts to stem nuclear proliferation In doing so Nuclear Proliferation and International Security examines a number of cases with a view to recommending better non proliferation tools and strategies The contributors comprise renowned international scholars who have been selected to obtain the best possible analyses of critically important issues related to international non proliferation dynamics and the future integrity of the Non Proliferation Treaty

Governance, Development and Conflict Manas Chatterji,Darvesh Gopal,Savita Singh,2011-08-17 A considerable amount of work has been conducted in the field of peace studies conflict management peace science in economics sociology anthropology and management This title presents research with an emphasis on theoretical and mathematical constructs in the area of peace economics peace science *Strategic Challenges for Counterinsurgency and the Global War on Terrorism* Williamson Murray,2006

Varying Dimensions of India's National Security Anshuman Behera,Sitakanta Mishra,2022-02-14 This book engages a comprehensive approach to understand both traditional and non traditional security issues in addressing dimensions of India's national security The issues highlighted in the book through fourteen distinct yet inter related chapters offer insightful reading to India's national security This edited book explores the criticalities of various security issues in India internal and external and digs deep into the government responses to each of these issues Stepping away from merely focusing on the state centric understanding of national security this book also includes human security perspectives In this process this book also offers set of policy recommendations which could be used

for effectively dealing with the national security challenges The themes covered in this edited book range from offering a conceptual framework of national security to issues such as energy security maritime security nuclear security internal security neighborhood policy dumping terrorism economic security cyber security role of media defense preparedness and use of GIS in security domain This book highlights some of the important security issues around the larger perspective of India s national security This book will be highly useful for the students and scholars of security and strategic studies and international relations and also to the policymakers in the region

India-Pakistan Strategic Relations Christoph Mumtaz, Uzma Bluth, 2020-05-25 India and Pakistan have been in a state of persistent conflict that goes back to the very creation of these states after decolonization This conflict has resulted in several wars and continuing armed clashes After both states became nuclear powers one would have expected a fundamental change in the way they wage war since it is a fundamental principle of International Relations theory that nuclear armed states do not go to war with each other But the situation in South Asia seems to defy this principle India s conventional superiority should be neutralized by Pakistan s nuclear capability while Pakistan s risk taking behavior should be reduced But as a matter of fact the situation has turned out quite differently Although large scale conventional wars have not occurred the nuclear status seems to have encouraged conflict and risk taking The number of armed clashes rose Bluth and Mumtaz scrutinize the atypical and seemingly paradoxical impact of nuclearization on the conflict between India and Pakistan paying extra attention on the question of how stable this paradoxical strategic relationship is They demonstrate that the dominant paradigm used in the International Relations literature is by far not adequate to explain the strategic relations between India and Pakistan and set to work on developing a more coherent explanation A must read for everyone interested in International Relations and conflict resolution research

The Rise of Indian Military Power: Evolution of an Indian Strategic Culture, 2015-07-15 This is a monumental and decisively shape outcomes For this economic power must be rapidly converted into usable military power India must field dominant war fighting capabilities in South Asia

A Grand Strategy for America Robert J. Art, 2013-02-15 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world s preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America s contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America s interests The seven are dominion forcibly trying to remake the world in America s own image global collective security attempting to keep the peace everywhere regional collective security confining peacekeeping efforts to Europe cooperative security seeking to reduce the occurrence of war by limiting other states offensive capabilities isolationism withdrawing from all military involvement beyond U S borders containment holding the line against aggressor states and

selective engagement choosing to prevent or to become involved only in those conflicts that pose a threat to the country's long term interests Art makes a strong case for selective engagement as the most desirable strategy for contemporary America It is the one that seeks to forestall dangers not simply react to them that is politically viable at home and abroad and that protects all U S interests both essential and desirable Art concludes that selective engagement is not a strategy for all times but it is the best grand strategy for these times

Energy Abstracts for Policy Analysis, 1984-07 *Global Catastrophic Risks* Nick Bostrom, Milan M. Cirkovic, 2011-09-29 A Global Catastrophic Risk is one that has the potential to inflict serious damage to human well being on a global scale This book focuses on such risks arising from natural catastrophes Earth based or beyond nuclear war terrorism biological weapons totalitarianism advanced nanotechnology artificial intelligence and social collapse

Neorealism Versus Strategic Culture John Glenn, 2018-01-18 The debate between Neorealists and Strategic Culturalists centres on whether it is possible to explain predict state behaviour without taking into account the particular characteristics of the state such as its historical experiences geographical context and cultural constitution This informative debate is encapsulated in the first section of the book which considers the theoretical issues raised by both Neorealism and Strategic Culture These issues are then explored in the second section by assessing their relevance to six country case studies Australia Germany India Japan Nigeria and Russia

Pakistan's War Machine: An Encyclopedia of its Weapons, Strategy and Military Security Saghir Iqbal, 2018-05-13 The global security challenges after the post Cold war period has affected many countries Pakistan's geography and location present its security planners with serious almost irresolvable strategic and tactical problems It borders the nuclear states of India and China an ambitious Iran and an unstable Afghanistan which is perceived as a gateway to its commercial strategic ambitions in Central Asia Pakistan's key security problems are a reflection of its history and domestic circumstances The overriding concern of Pakistan is its internal and external security Strategically Pakistan lacks territorial depth Its main cities and communication routes are relatively close to the border with India and are susceptible to attack In addition the headwaters of Pakistan's rivers and main irrigation systems originate from India Pakistan's borders with India were also new and mainly unfortified and in many places were drawn in ways that made them indefensible Because the borders were also undemarcated there was abundant chance for conflict Pakistan has particularly been affected with a number of issues It has been argued by many that a Fourth generation Hybrid war has been imposed on Pakistan in order to break the nation Balkanization of Pakistan into different parts with the aim of making it either extremely weak or total destruction as a nation state so that it is not able to challenge the hegemonistic ambitions of its adversaries The purpose of this book is to assess the military security problems that Pakistan faces and focus on its external security matters military threats from neighbouring countries such as India balance of power in the region nuclear and ballistic missile threats relationship with external powers the high risk of war and its role on the War on Terror and its internal security problems sectarianism proliferation of small arms refugees

ethnic violence drug problem economic weaknesses and also its ability to cope with these problems **Hybrid Warfare and its Impact on Pakistan's Security** Saghir Iqbal, 2018-06-17 Pakistan faces a number of threats from internal and external forces with the aim of weakening the country and an attempt to balkanise Pakistan into different parts. The Pakistani Chief of Army General Qamar Javed Bajwa has said that a hybrid war had been imposed on Pakistan to internally weaken it but noted that the enemies were failing to divide the country on the basis of ethnicity and other identities. Furthermore, he states: "Our enemies know that they cannot beat us fair and square and have thus subjected us to a cruel evil and protracted hybrid war. They are trying to weaken our resolve by weakening us from within." Conflicts in Ukraine, Israel and Lebanon, Hizbullah, Syria, Libya, War on Terror in Afghanistan and its impact in Pakistan etc. have resulted in multi-layered efforts to destabilise a functioning state and polarize its society. The centre of gravity is to target population in hybrid warfare. The aim of the adversary is to influence influential policy makers and key decision makers by combining kinetic operations with subversive efforts. The aggressor often resorts to covert actions to avoid attribution or retribution. At the moment, there is no universally accepted definition of hybrid wars; the term is too abstract and is seen by some as using a fancy term to refer to irregular methods to counter conventionally stronger forces. Accordingly, many say that the new definitions of 4th generation or hybrid wars are really the repackaging of the traditional clash between the armed forces of nation states and the non-state insurgents. This book will be assessing Pakistan's insecurity and the hybrid wars imposed onto it by its adversaries. It will look at a number of issues that Pakistan is facing: military imbalance, economic and political weaknesses, internal and external security threats and the impact of hybrid warfare on Pakistan.

Nuclear Risk Reduction In South Asia Introduction

Nuclear Risk Reduction In South Asia Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Nuclear Risk Reduction In South Asia Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Nuclear Risk Reduction In South Asia : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Nuclear Risk Reduction In South Asia : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Nuclear Risk Reduction In South Asia Offers a diverse range of free eBooks across various genres. Nuclear Risk Reduction In South Asia Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Nuclear Risk Reduction In South Asia Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Nuclear Risk Reduction In South Asia, especially related to Nuclear Risk Reduction In South Asia, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Nuclear Risk Reduction In South Asia, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Nuclear Risk Reduction In South Asia books or magazines might include. Look for these in online stores or libraries. Remember that while Nuclear Risk Reduction In South Asia, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Nuclear Risk Reduction In South Asia eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Nuclear Risk Reduction In South Asia full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Nuclear Risk Reduction In South Asia eBooks, including some popular titles.

FAQs About Nuclear Risk Reduction In South Asia Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Nuclear Risk Reduction In South Asia is one of the best book in our library for free trial. We provide copy of Nuclear Risk Reduction In South Asia in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Nuclear Risk Reduction In South Asia. Where to download Nuclear Risk Reduction In South Asia online for free? Are you looking for Nuclear Risk Reduction In South Asia PDF? This is definitely going to save you time and cash in something you should think about.
