Subcommittee on Energy Conservation and Power, 1983      **The United States and the People's Republic of China** United States. Congressional Delegation to the People's Republic of China, 16th, 1978      *Environmental Risk Communication in China* Jia Dai, Fanxu Zeng, 2021-11-29 The role of media is becoming increasingly important as globalization has developed. Given fast social transformation and technological development in China, the consequent environmental and health risks demand citizens integrate the communication and prevention of such risks as a significant part of their daily life. This book systematically discusses the communication process of typical environmental risk issues and the complex interaction among multiple actors including the public media, experts, non-governmental organizations, and government in contemporary China. From a media-centered perspective, it applies major theories in the field of environmental and risk communication and uses a variety of empirical research methods to unravel the complicated and unique experience of communication and governance. Combining theoretical reflections with real-life examples of Chinese scenarios, the authors not only encourage a dialogue between Western and Chinese academia but also inspire students and practitioners to apply risk communication theories to solving real-life problems. The book will appeal to students, scholars, and practitioners of risk and environmental communication studies.      **People's China and International Law, Volume 2** Jerome Alan Cohen, Hungdah Chiu, 2017-03-14 In the second of two volumes, Jerome Alan Cohen and Hungdah Chiu have presented in a comprehensive form the views of the People's Republic of China on all the major questions of public international law. The material chosen includes official acts and statements from every level of the Chinese government, editorials and major articles from the People's Daily, dispatches of the New China News Agency, and other government media; the writings of Chinese scholars and the speeches of China's leaders. In an extensive introduction, Professors Cohen and Chiu discuss the experience of previous Chinese governments with international law and the relationship of China's domestic public order and its foreign policy to its views of international law.
