

The neutron strikes the nucleus and is absorbed.

The absorbed neutron causes the nucleus to undergo deformation.

In about 10^{-14} second, one of the deformations is so drastic that the nucleus cannot recover.

The nucleus fissions, releasing two or more neutrons.

In about 10^{-12} second, the fission fragments lose their kinetic energy and come to rest, emitting a number of gamma rays. Now the fragments are called fission products.

The fission products lose their excess energy by radioactive decay, emitting beta particles and gamma rays over a lengthy time period (seconds to years).

Nucleus Reconnecting Science And Religion In The Nuclear Age:

Nucleus Scott Eastham, 1987 *New Religions and the Theological Imagination in America* Mary Farrell Bednarowski, 1989-11-22 Bednarowski is especially good at elucidating the theological daring of these new American religions She demonstrates in a very few pages how theology and group adherence made the individual count a configuration simultaneously American un American and important Jon Butler The cultural confrontation with these new religions is very real and usually very misinformed Bednarowski has gone to great lengths to dispel the ignorance The Christian Century A groundbreaking study Syzygy Journal of Alternative Religion and Culture Organized as a series of theological conversations about ultimate questions this book offers a guide to the answers these six religions offer Drawing heavily on sources from the movements themselves it presents a balanced comparative account of the emerging theological systems of America s new religions **Cirpit Review. Monographs n. 3 - 2016** Aa. Vv., 2016-06-21T00:00:00+02:00 This book is a tribute to Scott Thomas Eastham from his family former students and colleagues at Massey University in Palmerston North New Zealand where he lectured in the department of English and Media Studies for 19 years **Competing Fundamentalisms** Sathianathan Clarke, 2017-03-29 Why do certain groups and individuals seek to do harm in the name of God While studies often claim to hold the key to this frightening phenomenon they seldom account for the crucial role that religious conviction plays not just in radical Islam but also in the fundamentalist branches of the world s two other largest religions Christianity and Hinduism As the first book to examine violent extremism in all three religions together *Competing Fundamentalisms* draws on studies in sociology psychology culture and economics while focusing on the central role of religious ideas to paint a richer portrait of this potent force in modern life Clarke argues that the forces of globalization fuel the aggression of these movements to produce the competing feature of religious fundamentalisms which have more in common with their counterparts across religious lines than they do with the members of their own religions He proposes ways to deescalate religious violence in the service of peacemaking Readers will gain important insights into how violent religious fundamentalism works in the world s three largest religions and learn new strategies for promoting peace in the context of contemporary interreligious conflict Ezra Pound and Poetic Influence, 2021-09-13 This collection of twenty essays investigates a series of different aspects of poetic influence in relation to the major modernist poet Ezra Pound The volume commences with five essays on matters to do with translation and poetic influence which situate Ezra Pound as an important transitional figure between 19th century and 20th century translation strategies The next five essays consider different influences on Pound s poetry and introduce the reader to new research in a variety of areas including how specific Chinese cultural artefacts inform his poetry The following five essays explore Pound s influence on some of his major contemporaries such as Eugenio Montale and Charles Olson and also through the reading he gave her as a girl on his daughter Mary de Rachewiltz The concluding five essays exemplify different approaches to the thorny issue of Pound and politics and end with

two diametrically opposed interpretations of Pound's political poetic thought. The collection will be of great interest to scholars of Ezra Pound and of modern to postmodern poetry but it will also serve as a useful and lively introduction to some of the debates within Pound scholarship to students coming to his work for the first time. **The Nuclear Present** Grant Burns, 1992 thorough and complete well written annotations recommended to libraries at all levels CHOICE An exceptionally thorough guide JOURNAL OF AMERICAN HISTORY *Journal of the Henry Martyn Institute*, 2006 The Intercultural Challenge of Raimon Panikkar Joseph Prabhu, 1996 In *The Intercultural Challenge of Raimon Panikkar* sixteen men and women steeped in the multi-layered multi-cultural texture of Panikkar's unique gifts are gathered to consider his profound contributions to philosophy of religions and interreligious dialogue Born in Spain of a Spanish mother and Indian father Panikkar is a Catholic priest who considers himself a practicing Hindu and a secularist as well as a Catholic Professor Emeritus of the University of California Santa Barbara Panikkar holds doctorates in chemistry philosophy and theology and has given lectures worldwide including the prestigious Gifford Lectures in Edinburgh soon to be published by Orbis as *The Rhythm of Being* Panikkar's many books include *The Unknown Christ of Hinduism* *The Silence of God* *The Answer of the Buddha* and *The Cosmotheandric Experience* BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Perspectives on Science and Christian Faith*, 1992 Elenchus of Biblica, 1990 *The Great Turning* Craig Schindler, Gary Lapid, 1989 The founders of a national mediation group project a vision of world peace by 2010 defining the skills needed to create a great turning in the way individuals and nations manage conflict The Next Step in Studying Religion Mathieu Courville, 2007-12-04 A collection of essays which aims to help graduate students of Religious Studies and Theology to become professional scholars and professors This book also covers various themes of studying religion or religions It is useful for scholars who are dealing with the oeuvre of contributors **Journal of Ecumenical Studies**, 1989 **Mystics Quarterly**, 1988 *The Teilhard Review*, 1989 **The Reader's Adviser**, 1994 **La contemplazione** Sonia Calza, 2001 La religión, el mundo y el cuerpo Raimon Panikkar, 2014-03-28 El presente volumen compuesto por cuatro artículos del autor publicados previamente en diferentes medios se centra en la dimensión humana de la religión El primer texto nos habla de la conversión a la que están llamadas las religiones ya que no tienen el monopolio de la dimensión religiosa del hombre que resurge a pesar de las esclerosis culturales y de las mismas religiones El segundo se refiere al estudio de las religiones un estudio que no ha de separarlas del mundo como sucede a menudo El tercero se ocupa del cuerpo del hombre hoy desgraciadamente castigado por quien lo convierte en dolor o lo deprecia Sin el cuerpo la dimensión religiosa se evapora o se transforma en violencia Por último el autor nos habla de medicina y religión Salud y salvación no han de confundirse pero solo existen si se mantiene entre ellas una interdependencia armónica Según Panikkar la tendencia a crear un ámbito estrictamente religioso separado del mundo y del cuerpo beneficia a ideologías totalitarias en la ciencia y la política El autor es un crítico radical del abuso de la tierra y del hombre en el que nos encontramos inmersos pero ejerce esta
