The 1896 Plessy v Ferguson Supreme Court decision established the principle of separate but equal education which led to decades of segregation. With the 1954 Brown decision the Supreme Court overturned the separate but equal principle and the Civil Rights Act of 1964 empowered the federal government to affect school desegregation. The process of desegregation continues to this day with much debate and mixed results. Through more than 260 alphabetically arranged entries this comprehensive reference book describes persons, court decisions, terms and concepts, legislation, reports and books, types of plans and organizations central to the struggle for educational equality. The volume covers topics ranging from emotionally laden terms such as busing to complex legal concepts such as de facto and de jure segregation. Each entry includes factual information, a summary of different viewpoints and a brief bibliography. The book includes an introduction which outlines the history of school segregation and desegregation along with a chronology and extensive bibliographic material. Thus this reference is a complete guide to school segregation and desegregation in elementary, secondary and higher education in the United States.

Voices of Conflict Reitumetse Obakeng Mabokela, 2002-05-03 The South African higher education system has historically been characterized by racial and gender inequities inherited from the discriminatory policies of the apartheid era. Emerging from a higher education history plagued with deeply entrenched racial disparities, *Voices of Conflict* examines how academic programs and structures at the historically white universities have responded to the increasing enrollment of black students since the enactment of the Universities Amendment Act in 1983. Dr Mabokela specifically seeks to understand the perceptions and attitudes of students, faculty and administrators and to determine how these respective constituents have responded to changes in student demographics. Her study brings to light with clarity and thoroughness many too often overlooked and neglected issues in higher education in South Africa.

Advancing Democracy Amilcar Shabazz, 2005-11-16 As we approach the fiftieth anniversary of Brown v Board of Education 1954 it is important to consider the historical struggles that led to this groundbreaking decision. Four years earlier in Texas the Sweatt v Painter decision allowed blacks access to the University of Texas's law school for the first time. Amilcar Shabazz shows that the development of black higher education in Texas, which has historically had one of the largest state college and university systems in the South, played a pivotal role in the challenge to Jim Crow education. Shabazz begins with the creation of the Texas University Movement in the 1880s to lobby for equal access to the full range of graduate and professional education through a first class university for African Americans. He traces the philosophical, legal and grassroots components of the later campaign to open all Texas colleges and universities to black students, showing the complex range of strategies and the diversity of ideology and methodology on the part of black activists and intellectuals working to promote educational equality. Shabazz credits the efforts of blacks who fought for change by demanding better resources for segregated black colleges in the years before Brown, showing how crucial groundwork for nationwide desegregation was laid in the state of Texas.

subject of racism available in the United States Compiler Meyer Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles books congressional hearings and reports theses and dissertations research reports and investigative journalism Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color Weinberg includes references dealing with sexism antisemitism economic exploitation and similar forms of dehumanization References are grouped under a series of subject headings that include Civil Rights Desegregation Housing Socialism and Racism Unemployment and Violence against Minorities Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced Also included is one section of carefully selected references on racism in countries other than the United States Unlike the remainder of the book this section is not comprehensive but rather provides an opportunity to view racism comparatively The volume concludes with an author index This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism sociology and black history You Must Be from the North Kimberly K.
