Race And Ethnicity:

Race and Ethnicity John Rex, 1986 **Constructing Race and Ethnicity in America** Dvora Yanow, 2015-02-18 What do we mean in the U S today when we use the terms race and ethnicity What do we mean and what do we understand when we use the five standard race ethnic categories White Black Asian Native American and Hispanic Most federal and state data collection agencies use these terms without explicit attention and thereby create categories of American ethnicity for political purposes Dvora Yanow argues that race and ethnicity are socially constructed concepts not objective scientifically grounded variables and do not accurately represent the real world She joins the growing critique of the unreflective use of race and ethnicity in American policymaking through an exploration of how these terms are used in everyday practices Her book is filled with current examples and analyses from a wealth of social institutions health care education criminal justice and government at all levels The questions she raises for society and public policy are endless Yanow maintains that these issues must be addressed explicitly publicly and nationally if we are to make our policy and administrative institutions operate more effectively Race, Ethnicity, and Socioeconomic Status Charles Vert Willie, 1983 Providing an adequate conceptual apparatus for the explanation and interpretation of behavior associated with race ethnicity and socioeconomic status is the goal of this book Empirical research findings and their theoretical analysis are linked E Franklin Frazier recognized minorities as mirrors of their society He hypothesized that study of their adaptations would provide a clearer understanding of the relation of human motivation to culture Race Ethnicity and Socioeconomic Status confirms the Frazier hypothesis and extracts from studies of blacks and other racial and ethnic minority populations propositions applicable to majority as well as minority groups Theses studies of intergroup relations were conducted during the past 25 years and provide a perspective on changing patterns of contact between cultural groups in the United States Adaptations associated with race ethnicity and socioeconomic status are analyzed from the perspective of sociology as a science of humanity Historical trends as well as contemporary situations are considered social psychological and geographical factors are researched as contextual variables in intergroup relations By analyzing demographic data pertaining to mortality disease delinquency and poverty the varying contributions to the human condition of individual attributes group customs and institutional regulations are ascertained Institutional and community studies illuminate the prides fears and prejudices of dominant and subdominant groups particularly with reference to racial and ethnic relations in education Also identified in these studies are the rights and responsibilities of such groups toward each other in social interaction **Race Ethnicity And Difference: Imagining The Inclusive Society** Ratcliffe, Peter, 2004-06-01 This book addresses many of the key problems facing contemporary societies The social significance attached to various forms of difference most notably race and ethnicity has been seen as resulting in the exclusion of some groups from their full rights as citizens This in turn is viewed as presenting a series of barriers to the creation of more inclusive societies Recognizing Race and Ethnicity Kathleen J.

quality information stratified by race ethnicity and language data Then attention can be focused on where interventions might be best applied and on planning and evaluating those efforts to inform the development of policy and the application of resources A lack of standardization of categories for race ethnicity and language data has been suggested as one obstacle to achieving more widespread collection and utilization of these data Race Ethnicity and Language Data identifies current models for collecting and coding race ethnicity and language data reviews challenges involved in obtaining these data and makes recommendations for a nationally standardized approach for use in health care quality improvement Race, Ethnicity and Power Donald G.
