Race And Reconciliation In South Africa A Multicultural Dialogue In Comparative Perspective:

Race and Reconciliation in South Africa William E. Van Vugt, G. Daan Cloete, 2000-01-01 In the mid 1990s the Truth and Reconciliation Commission disclosed its findings on the awful reality of the apartheid era in South Africa. The Commission inspired scholars from Europe, North America and South Africa to convene a group of their own to investigate in multicultural scholarly dialogue the history, theology, philosophy and politics of race and reconciliation in South Africa. This volume is the product of that important dialogue. And while the focus is the particular environment of South Africa, the contributors work within a comparative perspective using examples from other nations and cultures to explore that which makes South Africa unique. Ultimately, the book aims to offer not only a better understanding of the depth of injustice in South Africa's past but also a deeper appreciation for the achievement of the present and the promise of the future in South Africa and in every other multiethnic region in the world. *Towards a Contextual Transformational Practical Theology for Leadership*

Education in South Africa Gordon E. Dames, 2016 Towards a contextual transformational practical theology for leadership education in South Africa is a courageous effort by a prominent South African practical theologian to develop a framework for the theory and practice of leadership education in an African context. Taking the harsh realities of South Africa as point of departure, the author demonstrates how an indigenous South African practical theology can be developed through a critical interaction between Western and African ideas. Prof. Jaco S. Dreyer, Professor of Practical Theology, University of South Africa.

Can We Unlearn Racism? Jacob R. Boersema, 2021-08-17 In contemporary South Africa, power no longer maps neatly onto race. While white South Africans continue to enjoy considerable power at the top levels of industry, they have become a demographic minority, politically subordinate to the black South African population. To be white today means having to adjust to a new racial paradigm. In this book, Jacob Boersema argues that this adaptation requires nothing less than unlearning racism, confronting the shame of a racist past, acknowledging privilege, and to varying degrees, rethinking notions of nationalism. Drawing on more than 150 interviews with a cross-section of white South Africans representatively diverse in age, class, and gender, Boersema details how they understand their whiteness and depicts the limits and possibilities of individual and collective transformation. He reveals that the process of unlearning racism entails dismantling psychological and institutional structures alike, all of which are inflected by emotion and shaped by ideas of culture and power. *Can We Unlearn Racism* pursues a question that should be at the forefront of every society's collective consciousness. Theoretically rich and ethnographically empathetic, this book offers valuable insights into the broader sociological process of unlearning, relevant today to communities all around the world. Conflict Transformation and Reconciliation Sarah

Maddison, 2015-06-19 This book examines approaches to reconciliation and peacebuilding in settler colonial, post-conflict and divided societies. In contrast to current literature, this book provides a broader assessment of reconciliation and conflict transformation by applying a distinctive multi-level approach. The analysis provides a unique intervention in the field, one that

significantly complicates received notions of reconciliation and transitional justice and considers conflict transformation across the constitutional institutional and relational levels of society Drawing on extensive fieldwork in South Africa Northern Ireland Australia and Guatemala the work presents an interdisciplinary study of the complex political challenges facing societies attempting to transition either from violence and authoritarianism to peace and democracy or from colonialism to post colonialism Informed by theories of agonistic democracy the book conceives of reconciliation as a process that is deeply political and that prioritises the capacity to retain and develop democratic political contest in societies that have in other ways been able to resolve their conflicts The cases considered suggest that reconciliation is most likely an open ended process rather than a goal a process that requires divided societies to pay ongoing attention to reconciliatory efforts at all levels long after the eyes of the world have moved on from countries where the work of reconciliation is thought to be finished This book will be of great interest to students of reconciliation conflict transformation peacebuilding transitional justice and IR in general

Gandhi, Freedom, and Self-rule Anthony Parel, 2000-01-01 This volume presents an original account of Mahatma Gandhi s four meanings of freedom as sovereign national independence as the political freedom of the individual as freedom from poverty and as the capacity for self rule or spiritual freedom Gandhi taught that human well being both for the individual and for the collective requires the simultaneous enjoyment of all four of these aspects Gandhi drew his ideas on the subject from both Eastern and Western sources Thus they make an important contribution to the ongoing debate in both

the East and the West on the scope and nature of freedom They provide a vantage point from which to assess the adequacy of the reigning theories of liberalism in the West such as the Western divisions of rights from duties and individual political freedom from spiritual freedom Likewise they throw useful light on the dangers inherent in the ascendant Indian ideology of hindutva Hindu ness which concentrates on national independence and economic freedom and subordinates the freedom of the individual In this volume seven leading Gandhi scholars write on the four meanings of Gandhian freedom engaging the reader in the ongoing debates in the East and the West and contributing to a new comparative political theory
