Gordon, Jane Anna Gordon, 2015-11-17 Not Only the Master s Tools brings together new essays on African American studies It is ideal for students and scholars of African studies philosophy literary theory educational theory social and political thought and postcolonial studies [The African Diaspora](#) Toyin Falola, 2013 The African diaspora is arguably the most important event in modern African history From the fifteenth century to the present millions of Africans have been dispersed many of them forcibly others driven by economic need or political persecution to other continents creating large

communities with African origins living outside their native lands The majority of these communities are in North America This historic displacement has meant that Africans are irrevocably connected to economic and political developments in the West and globally Among the known legacies of the diaspora are slavery colonialism racism poverty and underdevelopment yet the ways in which these same factors worked to spur the scattering of Africans are not fully understood by those who were part of this migration or by scholars historians and policymakers In this definitive study of the diaspora in North America Toyin Falola offers a causal history of the western dispersion of Africans and its effects on the modern world Reengaging old and familiar debates and framing new ones that enrich the discourse surrounding Africa Falola isolates the thread running nearly six centuries that connects the history of slavery the transatlantic slave trade and current migrations A boon to scholars and policymakers and accessible to the general reader the book explores diverse narratives of migration and shows that the cultures that migrated from Africa to the Americas have the capacity to unite and create a new pan Africanist movement within the globalized world Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin He is the 2011 recipient of the Distinguished Africanist Award from the African Studies Association and serves as the vice president of the International Scientific Committee of the UNESCO Slave Route Project His previous books published by the University of Rochester Press include *The Power of African Cultures and Nationalism* and *African Intellectuals*

Women and the U.S. Constitution Sibyl A. Schwarzenbach, Patricia Smith, 2004-02-18 Women and the U S Constitution is about much more than the nineteenth amendment This provocative volume incorporates law history political theory and philosophy to analyze the U S Constitution as a whole in relation to the rights and fate of women Divided into three parts History Interpretation and Practice this book views the Constitution as a living document struggling to free itself from the weight of a two hundred year old past and capable of evolving to include women and their concerns Feminism lacks both a constitutional theory as well as a clearly defined theory of political legitimacy within the framework of democracy The scholars included here take significant and crucial steps toward these theories In addition to constitutional issues such as federalism gender discrimination basic rights privacy and abortion Women and the U S Constitution explores other issues of central concern to contemporary women areas that strictly speaking are not yet considered a part of constitutional law Women s traditional labor and its unique character and women and the welfare state are two examples of topics treated here from the perspective of their potentially transformative role in the future development of constitutional law
