Race Politics And Economic Development Community Perspectives:

Race, Politics, and Economic Development James Jennings, 1992-12-17 In April 1992 the world witnessed a renewal in South Central Los Angeles of the urban violence that had exploded there over a quarter of a century earlier As in the Watts rebellion of 1965 the spark that ignited the firestorm was Black rage over police brutality But in both eras the tinder was prepared by decades of social neglect and political disenfranchisement that have left the predominantly non white urban poor trapped and virtually without hope *Race Politics and Economic Development* examines the underlying causes of Black urban poverty and recommends means to escape the seemingly endless cycle of retributive violence that it spawns The book brings together Black activists and scholars including two former mayors of American cities to analyze the theoretical and practical problems facing the Black community in the United States The essays argue that political influence power and wealth are major factors in determining social welfare policies that both liberal and conservative policies are no longer effective in alleviating a growing human service crisis among Blacks and that political mobilisation of the Black community is absolutely critical in resolving the problem of poverty in urban America Drawing on work in the social sciences political theory and economics and also on the contributors activist experiences these essays present an agenda for the participation of grassroots Black leaders in developing and implementing urban policy

James Jennings, 1992 In April 1992 the world witnessed a renewal in South Central Los Angeles of the urban violence that exploded over a quarter of a century earlier As in 1965 the spark that ignited the firestorm was Black rage over police brutality But in both eras the tinder was prepared by decades of social neglect and political disenfranchisement that have left the predominantly non white urban poor trapped and virtually without hope *Race Politics and Economic Development* strips away the veneer of mass media images to examine the underlying causes of Black urban poverty and to recommend means to escape the seemingly endless cycle of retributive violence that it spawns The book brings together Black activists and scholars including two former mayors of American cities to analyse the theoretical and practical problems currently facing the Black community in the United States The essays collected here are dominated by three key themes that political influence power and wealth are major factors in determining social welfare policies directed at Blacks the poor and the working class that both liberal and conservative policies over the last fifty years are no longer effective in alleviating a growing human service crisis among Blacks and that the political mobilization of impoverished sectors of the Black community is absolutely critical in resolving the problem of poverty in urban America Drawing on new work in the social sciences political theory and economics and also on the contributors activist experiences these essays represent a pathbreaking new agenda for the participation of grassroots Black leaders in developing and implementing urban policy Contributors Jeremiah Cotton Julianne Malveaux Mack H Jones Charles P Henry Walter Stafford William Fletcher Jr Eugene Newport Sheila Ards Jacqueline Pope Keith Jennings Lloyd Hogan Richard Hatcher

Race and Democracy in the

Americas Georgia A. Persons, 2018-12-07 Race and Democracy in the Americas examines dimensions of the comparative dynamics of race and ethnicity with a directed focus on the Americas most particularly Brazil and the United States Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora Both countries experienced prolonged enslavement of Africans and both now claim to be beacons of democracy for much of the developing world Both Afro Brazilians and African Americans have fielded major liberation movements against racism and oppression yet both groups continue to experience considerable residual racial discrimination and displacement Brazil and the U S remain racialized societies though both officially purport to be otherwise The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how shapes life opportunities for African Americans and Afro Brazilians both oppressed by this most detrimental social construction The project that fueled this volume represented a rare opportunity for collaboration between Afro Brazilian scholars and their African American counterparts This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals Both groups share identities as scholars and activists for neither identity alone is sufficient to nourish the longings of their hearts nor of their consciences This volume also represents an all too rare opportunity to give voice and expression to the work of Afro Brazilian scholars Volume 9 of the National Political Science Review also carries a special tribute to Mack Henry Jones a senior black political scientist retiring from Atlanta University and honors Jones s legacy and continues his quest for understanding the nature and intricacies of oppression and possible paths to liberation

Diversity and Multiculturalism Shirley R. Steinberg, 2009 This reader demands that we understand diversity and multiculturalism by identifying the ways in which curriculum has been written and taught and by redefining the field with an equitable lens freeing it from the dominant cultural curriculum The book problematizes the issue of whiteness for instance as not being the opposite of blackness or person of color but rather a meta description for our dominant culture Issues are also addressed that are usually left out of the discussion about diversity and multiculturalism this reader includes essays on physical diversity geographic diversity and difference in sexualities This is the quintessential collection of work by critical scholars committed to redefining the conversation on multiculturalism and diversity

The Black Panther Party (reconsidered) Charles Earl Jones, 1998 This new collection of essays contributed by scholars and former Panthers is a ground breaking work that offers thought provoking and pertinent observations about the many facets of the Party By placing the perspectives of participants and scholars side by side Dr Jones presents an insider view and initiates a vital dialogue that is absent from most historical studies

Notes from Underground Stephen Duncombe, 1997 Slug Lettuce Pathetic Life I Hate Brenda Dishwasher Punk and Destroy Sweet Jesus Scrambled Eggs Maximunrocknroll these are among the thousands of publications

which circulate in a subterranean world rarely illuminated by the searchlights of mainstream media commentary In this multifarious underground Pynchonesque misfits rant and rave fans eulogize hobbyists obsess Together they form a low tech publishing network of extraordinary richness and variety Welcome to the realm of zines In this the first comprehensive study of zine publishing Stephen Duncombe describes their origins in early twentieth century science fiction cults their more proximate roots in 60s counter culture and their rapid proliferation in the wake of punk rock While Notes from Underground pays full due to the political importance of zines as a vital web of popular culture it also notes the shortcomings of their utopian and escapist outlook in achieving fundamental social change Duncombe s book raises the larger question of whether it is possible to rebel culturally within a consumer society that eats up cultural rebellion Packed with extracts and illustrations from a wide array of publications past and present Notes from Underground is the first book to explore the full range of zine culture and provides a definitive portrait of the contemporary underground in all its splendor and misery

Economic Citizenship Amalia Sa'ar, 2016-07-01 With the spread of neoliberal projects responsibility for the welfare of minority and poor citizens has shifted from states to local communities Businesses municipalities grassroots activists and state functionaries share in projects meant to help vulnerable populations become self supportive Ironically such projects produce odd discursive blends of justice solidarity and wellbeing and place the languages of feminist and minority rights side by side with the language of apolitical consumerism Using theoretical concepts of economic citizenship and emotional capitalism Economic Citizenship exposes the paradoxes that are deep within neoliberal interpretations of citizenship and analyzes the unexpected consequences of applying globally circulating notions to concrete local contexts

Where the Boys Are Van Gosse,1993-12-17 The ignominious failure of the Bay of Pigs invasion in 1961 marked the culmination of a curious episode at the height of the Cold War At the end of the fifties restless and rebellious youth avant garde North American intellectuals old leftists and even older liberals found inspiration in the images and achievements of Fidel Castro s revolutionary guerrillas Fidelismo swept across the US as young North Americans sought to join the 26th of July Movement in the Sierra Maestra Drawing equally on cultural and political materials from James Dean and Desi Arnaz to C Wright Mills and *Studies on the Left* Gosse explains how the peculiar conjuncture of 1950s America produced the first great Third World solidarity movement the Fair Play for Cuba Committee which became a locus for the New Left emerging from the ashes of Kennedy s New Frontier *Where the Boys Are* captures the strange essence of that much abused decade the 1950s at once demonstrating the perfidy of Cold War American liberal opinion towards Cuba and its revolution while explaining why Fidel and his compa eros made such appealing idols for the young the restless and the politically adventurous

Youth Development and Critical Education Richard D. Lakes,1997-03-13 Public policy debates about urban crime and the fate of America s crumbling inner cities suggest a need to consider solutions that create conditions for sustainable community development where youths join with caring adults in intergenerational coalitions at the grassroots Using a field based approach the author reviews over two dozen youth development projects in non school and after school settings The analyses of these programs examines how young people might achieve a level of economic and political self

determination and community control as well as personal fulfillment coupled with healthy adolescent growth Once empowered with critical insights young people can exhibit positive real life displays of their visions dreams and ambitions

Blacks, Latinos, and Asians in Urban America James Jennings,1994-09-30 This volume of essays by scholars and activists focuses on the political and social relations between blacks Latinos and Asians in key urban centers Collectively the essays examine the particular status of relations between these groups the reasons for conflict or consensus and the prospects for future relations While a number of cities are examined the book focuses on Los Angeles Washington D C and Miami as particularly instructive case studies Urban eruptions in these cities are examined in terms of the nature of political relations between blacks Latinos and Asians These essays provide analyses within a sociohistorical context and offer the kind of political activism that might ensure consensus rather than conflict between these groups in urban America As Luis Fuentes observes This book should be read by all activists and scholars interested in changing the face of urban and ultimately national America for if communities of color can come together for progressive political action then it will only be a matter of time before America finally begins to look like and act like what it has been preaching for generations **African**

Marvin Jones,2016-10-24 An eye opening unapologetic explanation of what racial profiling is in modern day America systematic targeting of communities and placing of suspicion on populations on the basis of not only ethnicity but also certain places that are linked to the social identity of that group In 21st century post civil rights era America race has become complex and intersectional It is no longer simply a

matter of color black versus white contends author D Marvin Jones but equally a matter of space or geographies of fear which he defines as spaces in which different groups are particularly vulnerable to stereotyping by law enforcement blacks in the urban ghetto Mexicans at the functional equivalent of the border Arabs at the airport Dangerous Spaces Beyond the Racial Profile demonstrates how society has constructed a set of threat narratives in which certain widespread problems immigration drugs gangs and terrorism for example have been racialized and explains the historical and social origins of these racializing threat narratives The book identifies how these narratives have led directly to relentless profiling that results in arrest deportation massive surveillance or even death for members of suspect populations Readers will come to understand how the problem of profiling is not merely a problem of institutional bias and individual decision making but also a deeply rooted cultural issue stemming from the processes of meaning making and identity construction
