Race Traitors:

Race Traitor ,1996 *Critical White Studies* Richard Delgado, Jean Stefancic, 1997 No longer content with accepting whiteness as the norm critical scholars have turned their attention to whiteness itself In *Critical White Studies* Looking Behind the Mirror numerous thinkers including Toni Morrison Eric Foner Peggy McIntosh Andrew Hacker Ruth Frankenberg John Howard Griffin David Roediger Kathleen Heal Cleaver Noel Ignatiev Cherrie Moraga and Reginald Horsman attack such questions as How was whiteness invented and why How has the category whiteness changed over time Why did some immigrant groups such as the Irish and Jews start out as nonwhite and later become white Can some individual people be both white and nonwhite at different times and what does it mean to pass for white At what point does pride in being white cross the line into white power or white supremacy What can whites concerned over racial inequity or white privilege do about it Science and pseudoscience are presented side by side to demonstrate how our views on whiteness often reflect preconception not fact For example most scientists hold that race is not a valid scientific category genetic differences between races are insignificant compared to those within them Yet the one drop rule whereby those with any nonwhite heritage are classified as nonwhite persists even today As the bell curve controversy shows race concepts die hard especially when power and prestige lie behind them A sweeping portrait of the emerging field of whiteness studies *Critical White Studies* presents for the first time the best work from sociology law history cultural studies and literature Delgado and Stefancic expressly offer critical white studies as the next step in critical race theory In focusing on whiteness not only do they ask nonwhites to investigate more closely for what it means for others to be white but also they invite whites to examine themselves more searchingly and to look behind the mirror

Facing Race Oishee Alam, 2018-12-14 The figure of the Muslim is constructed by both Muslim and non Muslim Australians as incongruent with whiteness but what of white Muslim converts who are at once highly racialised and racially invisible *Facing Race* explores the lived experiences of thirty six Australian converts to Islam in a nation where Islam is cast in opposition to the dominant racial narrative of whiteness that informs the nation's core ideology Drawing on in depth interviews author Oishee Alam provides a fascinating account of how racialisation is reproduced in everyday interpersonal encounters by white converts with Muslims and non Muslims alike and what those experiences reveal to us about race Islamophobia and whiteness in contemporary Australia *Islamic Studies Series Volume 26*

More Than an Ally Michael L. Boucher, 2020-09-15 The Caring Solidarity framework is both descriptive and aspirational It is an attempt to empower White teachers to do the work of interrogating their racial privilege and join in Caring Solidarity with their African American students The framework can be used to describe teachers who are working in Caring Solidarity with their students and to develop teachers with intention toward Caring Solidarity We are in a unique historical moment that demands White teachers become more effective in their schools classrooms and communities and for researchers to find ways to describe those teachers who build relationships of solidarity with students Considering today's

tenor of the conversation around race picking up this book and considering its contents is an act of defiance of the current climate and or one of devotion to the art and craft of teaching children Caring Solidarity is not a replacement for current frameworks such as Culturally Sustaining Pedagogy or Abolitionist Pedagogy but is a map for White teachers to journey toward those pedagogies Everyone starts from somewhere The path is winding and long but the goal to create an equitable and humane classroom is worth the trip The purpose of this theory is to point the way

Burdened Virtues Lisa Tessman, 2005-10-06 Lisa Tessman s *Burdened Virtues* is a deeply original and provocative work that engages questions central to feminist theory and practice from the perspective of Aristotelian ethics Focused primarily on selves who endure and resist oppression she addresses the ways in which devastating conditions confronted by these selves both limit and burden their moral goodness and affect their possibilities of flourishing She describes two different forms of moral trouble prevalent under oppression The first is that the oppressed self may be morally damaged prevented from developing or exercising some of the virtues the second is that the very conditions of oppression require the oppressed to develop a set of virtues that carry a moral cost to those who practice them traits that Tessman refers to as burdened virtues These virtues have the unusual feature of being disjoined from their bearer s own well being Tessman s work focuses on issues that have been missed by many feminist moral theories and her use of the virtue ethics framework brings feminist concerns more closely into contact with mainstream ethical theory This book will appeal to feminist theorists in philosophy and women s studies but also more broadly ethicists and social theorists

No Politics but Class Politics Walter Benn Michaels, Adolph Reed, Jr., 2023-02-27 Denouncing racism and celebrating diversity have become central mainstays of progressive politics for many on the left social justice consists of equitable distribution of wealth power and esteem among racial groups But as Adolph Reed Jr and Walter Benn Michaels argue in this groundbreaking collection of essays the emphasis seems to be tragically misplaced Not only does a fixation with racial disparities distract from the pervasive influence of class it actually legitimises economic inequality Adolph Reed Jr is the towering radical theorist of American democracy of his generation Cornel West Walter Benn Michaels is cunning brilliant acutely suggestive exhilarating to read Eric Lott Wokelords and anti racist liberals will be frustrated enraged and defeated This book pushes us closer towards the uncompromising bare knuckled anti capitalist movement we so desperately need Cedric Johnson An exhilarating journey that swaps the orthodoxies of contemporary progressive culture for a class politics rooted in universalism James Bloodworth Adolph Reed Jr and Walter Benn Michaels have been among the clearest voices critiquing the dominant race reductionism in American intellectual life and proposing a real egalitarian alternative Bhaskar Sunkara Anyone interested in the politics of race and class must push aside the dogma of identity and grapple with what Reed Jr and Michaels have been arguing for decades Jodi Dean These essays tell the story of the last seven decades charting the decline of the left and American politics The result is as rich as it is rare a long view that is pressing and immediate Corey Robin Reed Jr and Michaels take a hammer to common ways of thinking about race class inequality and identity revealing

ugly truths and challenging us out of our comfort zones Kenan Malik *What Do White Americans Owe Black People?* Jason D. Hill, 2021-10-12 In this provocative and highly original work philosophy professor Jason D Hill explores multiple dimensions of race in America today but most importantly a black white divide which has grown exponentially over the past decade Central to his thesis Hill calls on black American leaders and their white liberal sponsors to escape from the cycle of blame and finger pointing which seeks to identify black failures with white hatred and indifference This overblown narrative is promulgated by a phalanx of black nihilists who advocate the destruction of America and her institutions in the name of ending whiteness Much of the black intelligentsia consists of these false prophets and it is their poisonous ideology which is taught uncontradicted to students of all races It is they who are responsible for the cultural depression blacks are suffering in today's society Ultimately the answer to what do White Americans owe is not about the morality or practicality of reparations affirmative action or other redistributionist schemes Hill rejects the collectivist premise behind the argument instead couching notions of culpability justice and fairness as responsibilities of individuals not arbitrary racial or ethnic groupings
